Radical Relevance Toward A Scholarship Of The Whole Left:

Radical Relevance Laura Gray-Rosendale, Steven Rosendale, 2005-01-20 Exemplifies the struggles of scholars to work toward a more shared agenda for social change *Radical Relevance* Laura Gray-Rosendale, Steven Rosendale, 2012-02-01 In an effort to rethink the left this interdisciplinary collection weaves together some of today's most powerful voices in contemporary left critical thought as they examine the fragmentation of American movements for social change evaluate what critical scholarship might contribute to the task of renewing or creating a more unified and efficacious left and explore the left's possibly inadequate dealings with many marginalized groups Representing a diverse range of theoretical perspectives within several textual disciplines the essays assess historical practical or speculative models for a whole left a left constituted by a broad range of complexly interwoven interests including issues of class environment gender sexuality disability race and ethnicity The book exemplifies the struggles of scholars to work toward a more shared agenda for social change *Thoreauvian Modernities* François Specq, Laura Dassow Walls, Michel Granger, 2013-02-01 Does Thoreau belong to the past or to the future Instead of canonizing him as a celebrant of pure nature apart from the corruption of civilization the essays in *Thoreauvian Modernities* reveal edgier facets of his work how Thoreau is able to unsettle as well as inspire and how he is able to focus on both the timeless and the timely Contributors from the United States and Europe explore Thoreau's modernity and give a much needed reassessment of his work in a global context The first of three sections Thoreau and Non Modernity views Thoreau as a social thinker who set himself against the modern currents of his day even while contributing to the emergence of a new era By questioning the place of humans in the social economic natural and metaphysical order he ushered in a rethinking of humanity's role in the natural world that nurtured the environmental movement The second section Thoreau and Philosophy examines Thoreau's writings in light of the philosophy of his time as well as current philosophical debates Section three Thoreau Language and the Wild centers on his relationship to wild nature in its philosophical scientific linguistic and literary dimensions Together these sixteen essays reveal Thoreau's relevance to a number of fields including science philosophy aesthetics environmental ethics political science and animal studies *Thoreauvian Modernities* posits that it is the germinating power of Thoreau's thought the challenge it poses to our own thinking and its capacity to address pressing issues in a new way that defines his enduring relevance and his modernity Contributors Kristen Case Randall Conrad David Dowling Michel Granger Michel Imbert Michael Jonik Christian Maul Bruno Monfort Henrik Otterberg Tom Pughe David M Robinson William Rossi Dieter Schulz François Specq Joseph Urbas Laura Dassow Walls *Encyclopedia of African American History, 1896 to the Present* Paul Finkelman, 2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century **The Anticolonial Front** John Munro, 2017-09-21 This is a transnational history of the activist and intellectual network that connected the Black freedom struggle in the United

States to liberation movements across the globe in the aftermath of World War II John Munro charts the emergence of an anticolonial front within the postwar Black liberation movement comprising organisations such as the National Association for the Advancement of Colored People the Council on African Affairs and the American Society for African Culture and leading figures such as W E B Du Bois Claudia Jones Alphaeus Hunton George Padmore Richard Wright Esther Cooper Jackson Jack O Dell and C L R James Drawing on a diverse array of personal papers organisational records novels newspapers and scholarly literatures the book follows the fortunes of this political formation recasting the Cold War in light of decolonisation and racial capitalism and the postwar history of the United States in light of global developments

The Megarhetorics of Global Development Rebecca Dingo, J. Blake Scott, 2012-01-29 After World War II an unprecedented age of global development began The formation of the World Bank and the International Monetary Fund allowed war torn and poverty stricken nations to become willing debtors in their desire to entice Western investment and trade New capital it was foretold would pave the way to political and economic stability and the benefits would trickle down to even the poorest citizens The hyperbole of this neocolonialism however has left many of these countries with nothing but compounded debt and unfulfilled promises The Megarhetorics of Global Development examines rhetorical strategies used by multinational corporations NGOs governments banks and others to further their own economic political or technological agendas These wide ranging case studies employ rhetorical theory globalization scholarship and analysis of cultural and historical dynamics to offer in depth critiques of development practices and their material effects By deconstructing megarhetorics at both the local and global level and following their paths of mobilization and diffusion the concepts of progress and growth can be reevaluated with the end goal of encouraging self sustaining and ethical outcomes

Longing for Justice Jennifer S. Simpson, 2014-11-05 A timely and persuasive argument for Higher Education's obligations to our democratic society Longing for Justice combines personal narrative with critical analysis to make the case for educational practices that connect to questions of democracy justice and the common good Jennifer S Simpson begins with three questions First what is the nature of the social contract that universities have with public life Second how might this social contract shape undergraduate education And third how do specific approaches to knowledge and undergraduate education inform how students understand society In a bold challenge to conventional wisdom about Higher Education Simpson argues that today's neoliberal

educational norms foreground abstract concepts and leave the complications of real life especially the intricacies of power unexamined Analysing modern teaching techniques including service learning and civic engagement Simpson concludes that for Higher Education to serve democracy it must strengthen students abilities to critically analyse social issues recognize and challenge social inequities and pursue justice

Fractured Feminisms Laura Gray-Rosendale, Gil Harootunian, 2003-08-14 Crucial conversations about feminist theories and how they can fall apart rupture and fragment

A Responsive Rhetorical Art Elenore Long, 2018-10-24 *A Responsive Rhetorical Art* explores the risk ridden realm of wise if always also fallible rhetorical action the productive knowledge building required to compose and to leverage texts broadly construed for the purposes of public life marked by shrinking public resources cultural conflict and deferred hope Here composition and literacy learning hold an important and distinctive cultural promise the capacity to invent with other people new ways forward in light of their own interests and values and in the face of obstacles that could not have otherwise been predicted Distributed across publicly situated strangers including citizen educators this work engages a persistent challenge of early rhetorical uptake in public life that what might become public and shared is often tacit and contested The book s approach combines attention to local cases with a transnational student organization the Nipmuck Chaubunagungamaug and the South Sudanese diaspora in Phoenix with a revisable guide for taking up wise action and methods for uncovering elusive institutional logics

Marxism and Communication Studies Lee Artz, Steve Macek, Dana L. Cloud, 2006 There is a timely and urgent need for a reasoned dialogue reassessing how Marxism can advance the study of human communication and transform the social world in which it is embedded Indeed ongoing world historical events including the vigorously organized market globalization the corresponding insurgent global anticorporate movement and the conflicts engendered by the U S invasion of Iraq have underscored the importance of a thorough critique of global capitalism and its telecommunication technologies and practices This important new collection featuring essays by leading scholars and practitioners provides a much needed overview and assessment of Marxism s significance to contemporary thinking in communication and media studies Contributors demonstrate how a Marxist perspective can be usefully applied to

specific case studies in communication providing valuable insights and understandings that are not obtainable using other approaches

The Battle Hymn of the Republic John Stauffer, Benjamin Soskis, 2013-06-13 And yet the memory of the song's original role in bloody and divisive Civil War scuttled an attempt to make it the national anthem The Daughters of the Confederacy held a contest for new lyrics but admitted that none of the entries measured up to the power of the original The Battle Hymn has long helped to express what we mean when we talk about sacrifice about the importance of fighting in battles both real and allegorical for the values America represents It conjures up and confirms some of our most profound conceptions of national identity and purpose And yet as Stauffer and Soskis note the popularity of the song has not relieved it of the tensions present at its birth

Opposing Jim Crow Meredith L. Roman, 2019-12 Before the Nazis came to power in Germany Soviet officials labeled the United States the most racist country in the world Photographs children's stories films newspaper articles political education campaigns and court proceedings exposed the hypocrisy of America's racial democracy In contrast the Soviets represented the USSR itself as a superior society where racism was absent and identified African Americans as valued allies in resisting an imminent imperialist war against the first workers state Meredith L Roman's *Opposing Jim Crow* examines the period between 1928 and 1937 when the promotion of antiracism by party and trade union officials in Moscow became a priority policy Soviet leaders stood to gain considerable propagandistic value at home and abroad by drawing attention to U S racism their actions simultaneously directed attention to the routine violation of human rights that African Americans suffered as citizens of the United States Soviet policy also challenged the prevailing white supremacist notion that blacks were biologically inferior and thus unworthy of equality with whites African Americans of various political and socioeconomic backgrounds became indispensable contributors to Soviet antiracism and helped officials in Moscow challenge the United States claim to be the world's beacon of democracy and freedom

Rhetoric in American Anthropology Carine Risa Applegarth, 2014-05-30 In the early twentieth century the field of anthropology transformed itself from the welcoming science uniquely open to women people of color and amateurs into a professional science of culture The new field grew in rigor and prestige but excluded practitioners and methods that no longer fit a narrow standard of scientific legitimacy In *Rhetoric in American Anthropology* Risa Applegarth traces the rhetorical archeology of this transformation in the writings of early women anthropologists Applegarth examines the crucial role of ethnographic genres in determining scientific status and recovers the work of marginalized anthropologists who developed alternative forms of scientific writing Applegarth analyzes scores of ethnographic monographs to demonstrate how early anthropologists intensified the constraints of genre to define their community and limit the aims and methods of their science But in the 1920s and 1930s professional researchers sidelined by the academy persisted in challenging the field's boundaries developing unique rhetorical practices and experimenting with alternative genres that in turn greatly expanded the epistemology of the field Applegarth demonstrates how these writers folklore collections ethnographic novels and

autobiographies of fieldwork experiences reopened debates over how scientific knowledge was made through what human relationships by what bodies and for what ends Linking early anthropologists ethnographic strategies to contemporary theories of rhetoric and composition Rhetoric in American Anthropology provides a fascinating account of the emergence of a new discipline and reveals powerful intersections among gender genre and science *Intercultural Communication with Arabs* Rana Raddawi, 2014-12-08 This book features 18 essays that explore the ways people communicate in the Arab world from the United Arab Emirates to Qatar Saudi Arabia to Oman While there is a concentration of studies from the Gulf Arab states the collection spans perspectives from Iraq Syria Lebanon Egypt Libya Tunisia and Sudan Written by both Arab authors and foreign scholars who live or have lived in the region it will help readers to better understand and communicate with Arab culture and society The book is divided into three main sections that include studies in educational professional and societal contexts Based on ethnographies case studies and real life experiences the essays provide insight into the ways Arabs communicate in different situations contexts and settings such as business education politics media healthcare and society at large Drawing on current theory research and practice this book will help readers better understand and as a result better engage with the Arab world Trump Fiction Stephen Hock, 2019-11-15 Trump Fiction Essays on Donald Trump in Literature Film and Television examines depictions of Donald Trump and his fictional avatars in literature film and television including works that took up the subject of Trump before his successful presidential campaign in terms that often uncannily prefigure his presidency as well as those that have appeared since he took office Covering a range of texts and approaches the essays in this collection analyze the place Trump has assumed in literary and popular culture By investigating how authors including Bret Easton Ellis Amy Waldman Thomas Pynchon Howard Jacobson Mark Doten Olivia Laing and Salman Rushdie along with films and television programs like *The Fresh Prince of Bel Air* *Sesame Street* *Sex and the City* *Two Weeks Notice* *Our Cartoon President* and *Pose* have approached and shaped the discourse surrounding Trump the contributors collectively demonstrate the ways these cultural artifacts serve as sites through which the culture both resists and abets Trump and his rise to power **Rhetoric in Debt** Kellie Sharp-Hoskins, 2023-06-13 In recent years household indebtedness in the United States reached its highest levels in history From mortgages to student loans from credit card bills to US deficit spending debt is widespread and increasing Drawing on scholarship from economics accounting and critical rhetoric and social theory Kellie Sharp-Hoskins critiques debt not as an economic indicator or a tool of finance but as a cultural system Through case studies of the student loan crisis medical debt and the abuses of municipal bonds Sharp-Hoskins reveals that debt is a rhetorical construct entangled in broader systems of wealth rule and race Perhaps more than any other social marker or symbol the concept of debt indicates differences between wealthy and poor productive and lazy secure and risky worthy and unworthy Tracking the emergence and work of debt across temporal and spatial scales reveals how it exacerbates vulnerabilities and inequities under the rhetorical cover of individual moral and volitional calculation and

equivalency A new perspective on a serious problem facing our society Rhetoric in Debt not only reveals how debt organizes our social and cultural relations but also provides a new conceptual framework for a more equitable world **Political Literacy in Composition and Rhetoric** Donald Lazere, 2015-07-20 In Political Literacy in Composition and Rhetoric Donald Lazere calls for revival of NCTE resolutions in the 1970s for teaching the critical reading listening viewing and thinking skills necessary to enable students to cope with the persuasive techniques in political statements advertising entertainment and news and explores the reasons these goals have been eclipsed in composition studies over recent decades Obstacles to those goals have included the emphasis in the profession on basic and first year writing at the expense of more advanced study in argumentative rhetoric and on the privileging of students personal writing over critical study of both academic and political discourse Lazere further argues that theorists who legitimately champion students pluralistic local communities sometimes fail to recognize that liberal education can enable students to grow beyond their home cultures to critical awareness of national and international politics Finally he argues that the fixation in recent composition studies on liberally inclined students and communities on the margins has eclipsed attention to the conservative conformity long prevalent in mainstream American society and education His proposals for curriculum and pedagogy seek to introduce students to a more highly informed cogent and open ended level of debate between the political left and right
