Radio In Australia:

Changing Stations Bridget Griffen-Foley, 2009 Immediate intimate portable and inexpensive radio is the most pervasive medium in Australia Changing Stations is the first full scale national history of commercial radio in Australia from the experiments and schemes of the 1920s through to the eve of the introduction of digital radio in 2009 **Radio Wars** Errol Hodge, 1994-06-19 Radio Australia the multilingual overseas radio service of the Australian Broadcasting Corporation is little known in Australia but is heard by millions of listeners in the Asia Pacific region and others throughout the world Radio Wars first published in 1995 was the first book to tell the story of this important but unexplored aspect of Australia's international presence Launched in 1939 as a propaganda tool the service was for three decades caught uncomfortably between those who would use it as an instrument of foreign policy and those who would have it an icon of journalistic integrity But the author argues that by the time of the Dili massacre propaganda had given way to forthright and factual reporting Spiced with anecdotal detail Radio Wars traces a struggle that ranges from personal pettiness to events with significant political ramifications **The Politics of Language in Australia** Uldis Ozolins, 1993-05-28 This book traces language policy in Australia from World War II to the present examining the changes in government policy over this time and changes in major public institutions due to the presence of these languages The major focus is on changes in the education and broadcasting systems with attention also to interpreting translating industrial relations and the role of languages in diplomacy and trade Dr Ozolins places language in the context of multicultural politics and shows that government language policies that were once prompted by suspicion now accept and even encourage cultural and linguistic maintenance In fact Australia has introduced many innovations of international significance in language policy particularly with the National Language Policy announced in 1987 This policy marked a decisive change in political assumptions toward languages in postwar Australia because it recognized the importance of languages other than English *Radio Australia News Index, 1946-66* Radio Australia, 1966 **The Media and Communications in Australia** Stuart Cunningham, Sue Turnbull, 2020-07-16 Traditional media are being reshaped by digital technologies The funding model for quality journalism has been undermined by the drift of advertising online demarcations between different forms of media are rapidly fading and audiences have fragmented We can catch up with our favourite TV show on a tablet social media can be more important than mainstream radio in a crisis and organisations large and small have become publishers in their own right on apps Nevertheless mainstream media remain powerful The Media and Communications in Australia offers a systematic introduction to this dynamic field Fully updated and revised to take account of recent developments this fourth edition outlines the key media industries and explains how communications technologies are impacting on them It provides a thorough overview of the main approaches taken in studying the media and includes an expanded issues section with new chapters on social media gaming apps the environment media regulation ethics and privacy With contributions from some of Australia's best researchers and teachers in the field

The Media and Communications in Australia remains the most comprehensive and reliable introduction to media and communications available. It is an ideal student text and a reference for teachers of media and anyone interested in this influential industry. **Australia**, 1966 *The Media and Communications in Australia* Bridget Griffen-Foley, Sue Turnbull, 2023-11-21. At a time when the traditional media have been reshaped by digital technologies and audiences have fragmented, people are using mediated forms of communication to manage all aspects of their daily lives as well as for news and entertainment. The Media and Communications in Australia offers a systematic introduction to this dynamic field. Fully updated and expanded, this fifth edition outlines the key media industries from print, sound, and television to film, gaming, and public relations, and explains how communications technologies have changed the ways in which they now operate. It offers an overview of the key approaches to the field, including a consideration of Indigenous communication, and features a hot topics section with contributions on issues including diversity, misinformation, algorithms, COVID-19, web series, and national security. With chapters from Australia's leading researchers and teachers in the field, The Media and Communications in Australia remains the most comprehensive and reliable introduction to media and communications from an Australian perspective. It is an ideal student text and a key resource for teachers, lecturers, media practitioners, and anyone interested in understanding these influential industries.

Radio's Second Century John Allen Hendricks, 2020-03-13. Winner of the 2022 Broadcast Education Association Book Award. One of the first books to examine the status of broadcasting on its one hundredth anniversary, *Radio's Second Century* investigates both vanguard and perennial topics relevant to radio's past, present, and future. As the radio industry enters its second century of existence, it continues to be a dominant mass medium with almost total listenership saturation, despite rapid technological advancements that provide alternatives for consumers. Lasting influences such as on-air personalities, audience behavior, fan relationships, and localism are analyzed, as well as contemporary issues including social and digital media. Other essays examine the regulatory concerns that continue to exist for public radio, commercial radio, and community radio, and discuss the hindrances and challenges posed by government regulation, with an emphasis on both American and international perspectives. Radio's impact on cultural hegemony through creative programming, content in the areas of religion, ethnic inclusivity, and gender parity is also explored. Taken together, this volume compromises a meaningful insight into the broadcast industry's continuing power to inform and entertain listeners around the world via its oldest mass medium, radio.
