Insect pollinators not only bring joy to our gardens they also provide an essential service for our planet. Without bees, flies, hoverflies, butterflies, moths and beetles, some of our favourite foods, flowers and plants would cease to exist. Whether you have a large garden, an urban balcony or just a window box, planting to encourage pollinators is a fantastic and surprisingly easy first step in creating a wildlife friendly space. *Planting for Pollinators* features a wide range of plants with guidance on the best ways to nurture lawns and verges, pollinator predation and tips on watching and photographing wildlife.
