Railway King:

The Railway King Robert Beaumont, 2016-11-10 George Hudson the eponymous Railway King started his career with a stroke of luck inheriting 27 000 a fortune in 1827 from a distant relative He invested successfully in the North Midland Railway then formed his own Midland Railway raising 5 million and bribing MPs along the way But from his glory in 1845 he fell into disgrace admitting corruption and selling land he did not own He was eventually imprisoned in York Castle and died a broken man in 1871 His story provides an excellent insight into nineteenth century politics and industrial progress full of moral dilemmas and a testimony to the growth of the railways in Britain a timely subject **The Railway King of Canada**

R. B. Fleming, 2007-10-01 During the first two decades of this century Sir William Mackenzie was one of Canada's best known entrepreneurs He Spearheading some of the largest and most technologically advanced projects undertaken in Canada he built a business empire that stretched from Montreal to British Columbia and to Rio de Janeiro and Sao Paulo in Brazil It included gas electric telephone and transit utilities railroads hotels and steamships as well as substantial coal mining whaling and timber interests But when he died in 1923 his estate was virtually bankrupt as a result of the dramatic collapse of his Canadian Northern Railway during the First World War In a business biography intended as much for general readers as for a scholarly audience Fleming offers a revisionist perspective on Mackenzie He dispels the simplistic approach of those historians and journalists who have depicted Mackenzie and his partner Sir Donald Mann as melodramatic crooks who could have stepped out of the pages of Huckleberry Finn **George Hudson: The Railway King** Matthew Wells, 2024-09-30

George Hudson was the greatest British railway entrepreneur of the 19th century In 1848 he controlled over 1 000 miles of railway and when it came to railway promotion it seemed he could do no wrong However in early 1849 it came to light that some of his business methods had been less than ethical and he was forced to relinquish the chairmanship of each of his companies His fall from grace was spectacular and his detractors of whom there were many were quick to denounce him as a fraudster a charlatan and a crook Even today when the name George Hudson is mentioned these same insults are often levelled at him This new biography takes a fresh look at Hudson's extraordinary life from his humble beginnings as a farmer's boy to becoming Lord Mayor of York before catching the railway bug He was MP for Sunderland between 1845 and 1859 After his fall from grace Hudson endured a 20 year court battle with the York and North Midland Railway subsequently the North Eastern Railway for outstanding debts Hudson made many mistakes in creating his railway empire but did he deserve all the vitriol that still accompanies his reputation In seeking to answer this question Matthew Wells looks at the evidence including what was said about Hudson during his lifetime and what Hudson himself had to say about the actions he took

Victoria's Railway King Geoff Scargill, 2021-05-12 The accomplishments and initiatives both social and economic of Edward Watkin are almost too many to relate Though generally known for his large scale railway projects becoming chairman of nine different British railway companies as well as developing railways in Canada the USA Greece India and the

Belgian Congo he was also responsible for a stream of remarkable projects in the nineteenth century which helped shape people's lives inside and outside Britain As well as holding senior positions with the London and North Western Railway the Worcester and Hereford Railway and the Manchester Sheffield Lincolnshire Railway Watkin became president of the Grand Trunk Railway of Canada He was also director of the New York Lake Erie and Western Railways as well as the Athens Piraeus Railway Watkin was also the driving force in the creation of the Manchester Sheffield and Lincolnshire Railway's London Extension the Great Central Main Line down to Marylebone in London This though was only one part of his great ambition to have a high speed rail link from Manchester to Paris and ultimately to India This of course involved the construction of a Channel tunnel Work on this began on both sides of the Channel in 1880 but had to be abandoned due to the fear of invasion from the Continent He also purchased an area of Wembley Park serviced by an extension of his Metropolitan Railway He developed the park into a pleasure and events destination for urban Londoners which later became the site of Wembley Stadium It was also the site of another of Watkin's enterprises the Great Tower in London which was designed to be higher than the Eiffel Tower but was never completed Little though is known about Watkin's personal life which is explored here through the surviving diaries he kept The author who is the chair of The Watkin Society which aims to promote Watkin's life and achievements has delved into the mind of one of the nineteenth century's outstanding individuals

The World's First Railway System Mark Casson, 2009-09-10 The British railway network was a monument to Victorian private enterprise Its masterpieces of civil engineering were emulated around the world But its performance was controversial praised for promoting a high density of lines it was also criticised for wasteful duplication of routes This is the first history of the British railway system written from a modern economic perspective It uses counterfactual analysis to construct an alternative network to represent the most efficient alternative rail network that could have been constructed given what was known at the time the first time this has been done It reveals how weaknesses in regulation and defects in government policy resulted in enormous inefficiency in the Victorian system that Britain lives with today British railway companies developed into powerful regional monopolies which then contested each other's territories When denied access to existing lines in rival territories they built duplicate lines instead Plans for an integrated national system sponsored by William Gladstone were blocked by Members of Parliament because of a perceived conflict with the local interests they represented Each town wanted more railways than its neighbours and so too many lines were built The costs of these surplus lines led ultimately to higher fares and freight charges which impaired the performance of the economy The book will be the definitive source of reference for those interested in the economic history of the British railway system It makes use of a major new historical source deposited railway plans integrates transport and local history through its regional analysis of the railway system and provides a comprehensive classified bibliography

Bradley's Railway Guide Simon Bradley, 2024-10-10 A lifetime of railway love distilled into a most beautiful volume Lucy Worsley Our railway history could not have been told more palatably or more nourishingly David Kynaston The most attractive comprehensive and easily digestible history of the oldest railway system in the world Michael Palin In 1825 the Stockton Darlington company strode into history with the opening of the world's first public steam railway What the SDR had pioneered soon picked up speed transforming lives and landscapes connecting far flung corners of the nation and creating its own distinctive environments and working worlds This ambitious and lavishly illustrated volume brings the story of Britain's railways to life spanning two centuries of achievement and change Full of colour and incident it is an exhilarating journey through time and space revisiting favourite themes and introducing unfamiliar stories and places With original and engaging entries on everything from dining saloons to collecting dogs wartime salvage efforts and the iconic Rail Alphabet Simon Bradley gives George Bradshaw's famous 19th century guide a run for its money in this fresh and distinctive chronicle of the making of Britain's railways Railway Times, 1850 *Reports of Cases Argued and Determined in the Court of King's Bench* Sandford Nevile, 1834 *Dragons* Liam Byrne, 2016-05-26 Britain's rise to global dominance from the 16th century owed as much to the vision and creativity of traders industrialists and bankers as it did to wars of conquest fought by military men DRAGONS tells the story of British business endeavour through the lives of ten titans of commerce Beginning with the Tudor merchants who transformed England's economy via trade with the New World Liam Byrne traces an entrepreneurial golden line through men such as Thomas Pitt saviour of the East India Company financier Nathan Rothschild creator of the modern bond market William Lever brand builder philanthropist and creator of Britain's first great multinational and John Spedan Lewis founder of the employee owned John Lewis Partnership At the start of the 21st century Britain remains a major economic power DRAGONS is both a rousing celebration of British business genius and a fascinatingly informative narrative of a neglected but essential strand of our island's story **The Railway Times ...**, 1853

Railway Gazette, 1919 The Railway Magazine, 1901 **Falconer's railway, coach, car and steam navigation guide for Ireland**, 1866 *Railway Crimes Committed in Victorian Britain* Malcolm Clegg, 2023-05-04 The vast majority of Britain's railways were built between 1830 and 1900 which happened to coincide with the reign of Queen Victoria 1837-1901 By the turn of the Nineteenth Twentieth Century over one hundred different railway companies were operating in Britain on more than 22 000 miles of railway track Although these new railways brought prosperity to the nation and enabled goods and passengers to be speedily transported the length and breadth of the country for the first time this remarkable feat of engineering brought with it some unwelcome side effects one of which was crime Wherever crowds of people gather or unattended goods are being transported a few unscrupulous individuals and career criminals will usually emerge to ply their trade Some railway staff members are also unable to resist the temptation of stealing money or goods passing through their hands This book gives an insight into the nature and types of crime committed on the railways during the Victorian era

incorporating such offenses as theft assaults and murder fraud obstructing the railways and various other infringements of the law Over seventy different cases mentioned in the book are true accounts of events which took place on the railway during the Victorian era the details of which were obtained as a result of hours of researching British Newspaper Archives of that period The author hopes that readers will get as much pleasure from analyzing the various cases cited in the book as he himself derived from researching and writing about them

British Transport Police Malcolm Clegg,2022-12-29 This book traces the history of the British Transport Police the National Police Force responsible for policing the railways of England Scotland and Wales The roots of the Force go back almost 200 years starting with the development of the railways during the Nineteenth Century Hundreds of railway companies were founded and although mergers and amalgamations took place by the end of the century well over 100 railway companies were operating most of which employed railway policemen The first railway policemen were recruited to work on the Stockton and Darlington Railway in 1826 Other railway companies quickly followed and by the 1850s railway policemen with their smart uniforms and top hats were a common sight on Britain s railways During the Twentieth Century railway companies continued to merge before being nationalized in 1948 The following year the British Transport Commission BTC was created to oversee not only the newly nationalized railway network but also the nation s docks shipping inland waterways road transport road haulage and other companies Also in 1949 the British Transport Commission Police BTC Police was created to take over the policing of these newly nationalized institutions All the former railway dock and canal police forces were then absorbed into the new BTC Police Force The BTC was abolished in 1962 having incurred serious financial losses The BTC Police was renamed the British Transport Police in 1963 and has continued to operate ever since It no longer polices the docks harbors and canals for reasons outlined in this book
