Communication Arts ,1994-03 **The Making of American Liberal Theology** Gary J. Dorrien,2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom **A Deadly Cosmic Encounter: An Astral Calamity that Redefined Life** Pasquale De Marco,2025-05-08

In the vast cosmic theater where celestial bodies dance in intricate harmony our planet Earth has borne witness to numerous cataclysmic events throughout its long history One such encounter forever etched in the annals of time dramatically altered the course of life s evolution 65 million years ago a fateful cosmic collision occurred forever changing the face of our planet An asteroid or comet of immense proportions hurtled towards Earth unleashing a cataclysm of unimaginable proportions The impact site now known as the Chicxulub crater became the epicenter of devastation In the aftermath of the impact a world plunged into chaos Darkness descended upon the Earth as dust and debris choked the skies blocking out the life giving rays of the sun Firestorms raged across the planet leaving a trail of destruction in their wake Tsunamis of unprecedented magnitude swept across the globe reshaping coastlines and wreaking havoc upon the land The atmosphere once a protective shield transformed into a toxic shroud laden with harmful chemicals and radiation Life on Earth faced the ultimate test of resilience and adaptation Many species unable to withstand the sudden and drastic changes succumbed to extinction The mighty dinosaurs who had ruled the Earth for over 150 million years vanished from the face of the planet leaving behind a void that would be filled by new and diverse forms of life Yet amidst the devastation life persevered Remarkable creatures possessing extraordinary adaptability found refuge in the most unexpected corners of the planet They endured the harsh conditions evolving and diversifying laying the foundation for the rich biodiversity we witness today This book is an exploration of this cataclysmic event a journey through time to uncover the secrets of the cosmic collision that reshaped our world It weaves together elements of astronomy geology biology and paleontology to paint a vivid picture of the catastrophe and its profound impact on life on Earth Through this narrative we gain a deeper understanding of the fragility of life and the resilience of nature in the face of adversity If you like this book write a review on google books **Avengers/Iron Man** Dan Abnett,Andy Lanning,2016-05-04 Before they reinvented the Guardians of the Galaxy Dan Abnett and Andy Lanning

Fuller,2001-12-20 Nearly 40% of all Americans have no connection with organized religion Yet many of these people even though they might never step inside a house of worship live profoundly spiritual lives But what is the nature and value of unchurched spirituality in America Is it a recent phenomenon a New Age fad that will soon fade or a long standing and essential aspect of the American experience In Spiritual But Not Religious Robert Fuller offers fascinating answers to these questions He shows that alternative spiritual practices have a long and rich history in America dating back to the colonial period when church membership rarely exceeded 17% and interest in astrology numerology magic and witchcraft ran high Fuller traces such unchurched traditions into the mid nineteenth century when Americans responded enthusiastically to new philosophies such as Swedenborgianism Transcendentalism and mesmerism right up to the current interest in meditation channeling divination and a host of other unconventional spiritual practices Throughout Fuller argues that far from the flighty and narcissistic dilettantes they are often made out to be unchurched spiritual seekers embrace a mature and dynamic set of basic beliefs They focus on inner sources of spirituality and on this world rather than the afterlife they believe in the accessibility of God and in the mind s untapped powers they see a fundamental unity between science and religion and an equality between genders and races and they are more willing to test their beliefs and change them when they prove untenable Timely sweeping in its scope and informed by a clear historical understanding Spiritual But Not Religious offers fresh perspective on the growing numbers of Americans who find their spirituality outside the church [Cosmos: Possible Worlds](#) Ann Druyan,2020 Cosmos Possible Worlds travels through more than 14 billion years of cosmic evolution and into an

astounding future where probes travel by light beams to distant stars helping us solve enduring mysteries of our origins and dream toward an unimaginable time ahead

Jesus and the Cosmos Denis Edwards, 2004-07-22 At the end of the twentieth century we began to understand that the earth is vulnerable that it is like a tiny garden in space under threat on all sides Jesus and the Cosmos is an attempt to think theologically about the ecological crisis we face in the light of the great Christian tradition Our theological tradition has been shaped within the worldview of a static universe By contrast we are told today that the universe began with a cosmic explosion called the Big Bang that we live in an expanding universe with galaxies rushing away from us at an enormous rate that we human beings are part of an evolutionary movement on the earth and that we are intimately linked with the health of delicately balanced life systems on our planet Not only has modern science given this age a new cosmology but contemporary historical studies have provided us with a new approach to the historical Jesus Critical biblical study has allowed us to know far more about the Jesus who brought joy and liberation into people's lives In Jesus and the Cosmos Denis Edwards tells the story of the cosmos the story of Jesus of Nazareth and shows their connections Ultimately he will assert Jesus of Nazareth risen from the dead IS the dynamic power at the heart of the cosmic process

A Moment In The Universe Surinder Deol, 2006-08 These poems are about life both the little things scattered here and there and the great events that stand alone like seasoned rocks Through the prism of these poems the poet is looking at polarities that define the context of our being good and evil sacred and profane inner and outer big and small objective and subjective We experience life in brief segments of time called moments They come and go Moments become our memories memories condition our thinking and we are thus condemned to lead a life of loss and sorrow fighting shadows that are basically our own creation As a result we move further away from the great stream of life that is harmonious and peaceful at its core Arranged around four themes life love work and beyond these poems take the reader on a journey that proceeds from the purely personal to widely shared experiences of living loving leading and connecting with the unknown The beauty of the written word is enhanced by 25 images that illuminate different themes covered in the book

Life Rules Ellen LaConte, 2012-09-01 Corporate capitalism has ravaged the planet the way HIV ravages the human body triggering a Critical Mass of cascading environmental economic social and political crises Economic and climate instability collapsing ecosystems peak fossil fuels and devastating resource wars if Earth were a patient her condition would be critical Life Rules offers a comprehensive analysis of our present circumstances combined with a holistic treatment protocol for restoring health to vulnerable human and natural communities Predicting that Life will last but if we don't make some fundamental changes life as we know it and a lot of us won't Life Rules identifies natural laws that have allowed non human communities to thrive and prosper for several billion years including Local self reliance Mutual interdependence Reliance on non fossil sources of energy Resource conservation sharing and recycling Co operation and co intelligence Radically democratic self organization and governance This sobering yet essentially optimistic manifesto is required reading for

anyone concerned about our ability to live well and also within Earth's means. A powerful tool for community transition and cultural transformation. Life Rules offers a solution to our global challenges that is at once authentically hopeful, deeply inspiring and profoundly liberating. *The Distance Learning Funding Sourcebook* Arlene Krebs, 1996

Yuga Marty Glass, 2001. YUGA describes five falls: the Fall into Time, the Reign of Quantity, the Mutation into Machinery, the End of Nature, and the Prison of Unreality. Taken together, these comprise the fate of historical humanity, and the author is convinced one way trips. And the urban, industrial, vehicular, commercial, technological, pharmaceutical, electronic, information, spectator, secular society they have produced has ripped the human world to shreds. The book is hard hitting, but readers who find it disturbing overlook the invincible beatitude that undergirds its every line. When we awaken from our modern nightmare, as sooner or later we all shall, this book will help us remember what that nightmare was. In YUGA, the perennial wisdom has found a new and clarion voice. Glass's poetic and novelistic vocabulary, combined with exhaustive and blithely eclectic research, the mind-boggling diversity of his sources and references, even the peculiar Table of Contents, is a radical departure. Equally at home with the Diamond Sutra and the Grundrisse of Karl Marx, while being a careful student of magazine displays at the checkout counters of supermarkets, the author cheerfully presents his book as a provocation rather than as argument. But the master achievement of YUGA, which lies neither in its argument nor its style, is its voice. That voice speaks so palpably from the author's heart that we find it resonating in our hearts as well. The final pages of YUGA are celebrations of joy and love, and the discerning reader will detect those qualities lurking between the lines of the book's every page. For remember, Marty Glass is a spokesman for the truth that underlies all the world's wisdom traditions. Behind the world of appearances, samsara, maya, and the shadows on Plato's cave stands the uncreated Light, Reality, which is eternal Bliss. This reality speaks to individuals in the darkest of times, and its grace never falters. No one need be completely captive to history's downward trajectory. Its dream unfolds, and we can actually love that dream if we are awake to the fact that it is we ourselves that are collectively the immortal Dreamer. The message of YUGA is the message of Tradition, the Sophia Perennis. Huston Smith, author of *The World's Religions*, etc. For those seriously concerned with the plight of present-day humanity and the unprecedented crises through which human society is passing, this book offers many profound insights. It can offer guidelines and openings onto the understanding of the traditional world and that perennial wisdom whose loss has brought about the present age of spiritual darkness. Seyyed Hossein Nasr, author of *Knowledge and the Sacred*, etc.

African Theocology Ebenezer Yaw Blas, 2020-02-27. There is probably no set of issues of greater importance in the contemporary world than those that are to do with the Earth on which we live and depend. The more alienated we become from it, the more we contribute to our own destruction. Christianity's complicity in this destruction is well documented and hotly debated. Africa can ill afford to fall into the same trap that Western Christianity has in this regard. One senses the urgency of these concerns in Blas's *African Theocology*. Studies in African Religious Creation Care. Extremely well informed in the field, Blas not only

draws on the three major religions in Africa Christianity Islam and African traditional religion but demonstrates familiarity with the most important recent contributions in the field from Western scholarship With its emphasis on pedagogics African Theocology will play a seminal role in the construction of curricula for an African Christian theology of the environment and is sure to be an essential contribution to all libraries in institutions of higher learning
