Reclaiming The Truth Contribution To A Critique Of Cultural Relativism:

Reclaiming Truth Christopher Norris, 1996 Truth Christopher Norris reminds us is very much out of fashion at the moment whether at the hands of politicians media pundits or purveyors of postmodern wisdom in cultural and literary studies Across a range of disciplines the idea has taken hold that truth talk is either redundant or the product of epistemic might Questions of truth and falsehood are always internal to some specific language game history is just another kind of fiction philosophy is only a kind of writing law is a wholly rhetorical practice In *Reclaiming Truth* Norris critiques these fashionable trends of thought and mounts a specific challenge to cultural relativist doctrines in epistemology philosophy of science ethics and political theory Norris presents his case in a series of closely argued chapters that take issue with the relativist position He attempts to rehabilitate the value of truth in philosophy of science by restoring a lost distinction between concept and metaphor and argues that theoretical discourse so far from being an inconsequential activity has very real consequences particularly in ethics and politics This debate has become skewed he suggests through the widespread and typically postmodern idea that truth claims must always go along with a presumptive or authoritarian bid to silence opposing views On the contrary there is nothing as dogmatic or as silencing as a relativism that acknowledges no shared truth conditions for valid or responsible discourse Norris also offers a timely reassessment of several thinkers Althusser and Derrida among them whose reception history has been distorted by the vagaries of short term intellectual fashion *Reclaiming Truth* will be welcomed by readers concerned with the uses and abuses of theory at a time when such questions are in urgent need of sustained and serious debate

The Cambridge Companion to Saussure Carol Sanders, 2004-12-02 Ferdinand de Saussure is widely considered to be the founder of both modern linguistics and structuralism The first to establish the structural study of language he identified the difference between the system of language *Langue* and the idiosyncratic speech of individuals *Parole* and was first to distinguish between the synchronic study of language language at a given time and the diachronic language as it changes through time This Companion brings together a team of leading scholars to offer a fresh new account of Saussure's work As well as looking at his pioneering and renowned *Course in General Linguistics* of 1916 they consider his lesser known early work his more recently discovered manuscripts and his influence on a range of other disciplines such as cultural studies philosophy literature and semiotics With contributions by specialists in each field this comprehensive and accessible guide creates a unique picture of the lasting importance of Saussure's thought

The Future of Reason, Science and Faith J. Andrew Kirk, 2016-12-05 Focusing on the history of ideas this book explores important questions concerning knowledge in relation to philosophy science ethics and Christian faith Kirk contributes to the current debate about the intellectual basis and integrity of Western culture exploring controversial issues concerning the notions of modernity and post modernity Repositioning the Christian faith as a valid dialogue partner with contemporary secular movements in philosophy and ethics Kirk seeks to show that in post Christian Europe the Christian faith still possesses intellectual

resources worthy to be reckoned with This book s principal argument is that contemporary Western society faces a cultural crisis It explores what appears to be an historical enigma namely the question of why Western intellectual endeavours in philosophy and science seem to have abandoned the search for a source of knowledge able to draw together disparate pieces of information provided by different disciplines Kirk draws conclusions particularly in the area of ethical decision making from this apparent failure and invites readers to consider Christian theism afresh as a means for the renewal of culture and society

Textual Practice Alan Sinfield,Lindsay Smith,1998-04-09 The split between national and popular interests is examined through an analysis of Branagh s multicultural *Much Ado a Shakespeare* film for the world and analysis of other popular works including Cocteau Woolf and Neil Jordan s

Cosmopolitanism and Solidarity David A.

Hollinger,2006-03-06 Who are we is the question at the core of these fascinating essays from one of the nation s leading intellectual historians With old identities increasingly destabilized throughout the world the result of demographic migration declining empires and the quickening integration of the global capitalist economy and its attendant communications systems David A Hollinger argues that the problem of group solidarity is emerging as one of the central challenges of the twenty first century Building on many of the topics in his highly acclaimed earlier work these essays treat a number of contentious issues many of them deeply embedded in America s past and present political polarization Essays include Amalgamation and Hypodescent Enough Already Universities Do Not Need More Christianity Cultural Relativism Why Are Jews Preeminent in Science and Scholarship The Veblen Thesis Reconsidered and The One Drop Rule and the One Hate Rule Hollinger is at his best in his judicious approach to America s controversial history of race ethnicity and religion and he offers his own thoughtful prescriptions as Americans and others throughout the world struggle with the pressing questions of identity and solidarity

The Bellum Grammaticale and the Rise of European Literature Erik Butler,2016-03-23 The now forgotten genre of the bellum grammaticale flourished in the sixteenth and seventeenth centuries as a means of satirizing outmoded cultural institutions and promoting new methods of instruction In light of works written in Renaissance Italy ancien r gime France and baroque Germany Andrea Guarna s *Bellum Grammaticale* 1511 Antoine Fureti re s *Nouvelle all gorique* 1658 and Justus Georg Schottelius *Horrendum Bellum Grammaticale* 1673 this study explores early modern representations of language as war While often playful in form and intent the texts examined address serious issues of enduring relevance the relationship between tradition and innovation the power of language to divide and unite peoples and canon formation Moreover the author contends the language wars illuminate the shift from a Latin based understanding of learning to the acceptance of vernacular erudition and the emergence of national literature

The Body of the Postmodernist Narrator Fatima

Festić,2009-03-26 The goal of this book is to elaborate the theoretical framework with regard to reading postmodern fiction from the perspective of the bodies of their narrators as textual occurrences It centers on Lacanian psychoanalysis and the intersection between its various political interpretations and feminist theories The emphasis is on the register of the real on

the domain of trauma as it appears in contemporary world literature and history and on attempts at artistic resolution of its consequences Since postmodernism is widely interpreted as a Western phenomenon the book tries to show its dependence on much broader spatial political cultural and ideological dimensions taking as index the darker side of literature such as murder and destruction dark courses of desire and the repercussions of their externalization in the reality of life Focusing on the conditions that link contemporary cultures to the narratives and narrators bodies the book exposes the potential of bodies revealed in the act of narrating and the ambiguities of their fictionalizing and subjectivizing aspects taking the body as the site of repressed knowledge traumas resistance and manipulative desires The analysis of the fictional works aims to point out a missing link between imagination and the real historical conditions from which imagination derives as well as the discursive struggle to save the tormented territorialized body from the prismatic world by holding to the absent referent and prevent violence caused by the uncritical pleasure principle

After Postmodernism Jose Lopez, Garry Potter, 2005-03-01

What comes after postmodernism A buzzword which began as an energising radical critique became by the 20th Century's end a byword for fracture eclecticism political apathy and intellectual exhaustion The last few years have seen a growing interest in critical realism as a possible alternative way of moving forward The virtues of critical realism lie in its successful provision of a philosophical grounding for the social sciences and humanities and of a methodology applicable to many different fields of analysis After Postmodernism brings together some of the best known names in the field to present the first truly interdisciplinary introduction to critical realism The book presents the reader with a compendium of accessible essays illustrating the connection between meta theory theory and substantive research across Sociology Philosophy Literary Studies Politics Media Studies Psychology and Science Studies The flexibility of critical realism is illustrated in the range of topics discussed ranging from quantum mechanics to cyberspace to literary theory nature smoking the future for Marx the unconscious and of course postmodernism and the future of theory itself Contributors Allison Assiter Ted Benton Francis Barker Roy Bhaskar Jean Bricmont Sue Clegg Andrew Collier Justin Cruickshank Robert Fine David Ford Tim Forsyth Rom Harré Pam Higham Philip Hodgkiss Jose Lopez Christopher Norris Bertell Ollman Jenneth Parker Frank Pearce Douglas V Porpora Garry Potter John Scott Philip Tew Charles R Varela Anthony Woodiwiss

Sociology of Aging and Death Jason

Powell, 2022-11-25 This book presents a critical analysis and examination of the major theories and social issues in the social construction of aging and death It is concerned with the impact of death and places how our experiences of death are transformed by the roles that truth and discourse about aging play in everyday life A major element of the book is an examination of the way in which groups and individuals employ specific representations of mortality in order to construct meaning and purpose for life and death To accentuate this the book provides an investigation into the social construction of death practices across time and space Special attention is given to the notion of death as a socially accomplished phenomenon grounded in a unique sociological introduction to the meaning of death throughout history to the present The

purpose of this book is to critically inform debates concerning the abstract and empirical features of death examined through the lens of sociological perspectives This book explores the emergent biomedical dominance relating to ageing and death An alternative is advocated which re interprets ageing for Graduate schools This innovative book explores the concept history and theory of aging and its relationship to death Traditionally many books have focused on older people dying of natural causes a biomedical explanatory framework This book looks at alternative social theories and experiences with aging and relate to death in different countries victims crime imprisonment and institutional care Are these deaths avoidable If so what are the solutions the book addresses This is one of the first books that re interprets aging and its relationship of examples of death It will be of essential reading for graduate students and researchers in understanding these different examples of aging and death across the globe

Christology From Within and Ahead Mark Chan, 2021-10-01 Troeltsch's struggle with historicism sets the stage for a proposal that Christology be done from within and from ahead Gadamer's philosophical hermeneutics and Schleiermacher's experiential theology inform a Christology from within that is rooted in tradition and experience while Pannenberg's notion of proleptic eschatological fulfilment serves as resource for a Christology from ahead This volume develops a hermeneutical Christology that takes into account the historical contingency of knowledge and seeks a Christology beyond the objectivism of timeless truth and the relativism of absolutised contextuality The book is concluded with an examination of the convergence of critical traditionality experiential appropriation and eschatological prolepsis in the Christology of the apostle Paul The author explores how Christology might respond to the scandal of universality in postmodernity without defaulting on its claim to transcontextual referentiality
