Reconstructing The Criminal Culture Law And Policy In England 1830 1914:

Reconstructing the Criminal Martin J. Wiener, 1990 This ambitious and imaginative work interprets criminal justice history by relating it to intellectual and cultural history Starting from the assumption that policies and statutes originate in a society's values and norms the author skilfully and persuasively demonstrates how changes in criminal law and penal practice were related to the changing values of early mid and late Victorian and Edwardian society Wiener traces changes in the criminal justice system by examining the treatment of offenders During the Victorian period the system became more punitive and was then reformed in line with welfarist thinking Wiener's wide ranging discussion of issues most notably of free will versus determinism sheds light on a broad range of Victorian history beyond crime and punishment *Reconstructing the Criminal* Martin Joel Wiener, 1994 *The Rise and Fall of the Rehabilitative Ideal, 1895-1970* Victor Bailey, 2019-04-09 Spanning almost a century of penal policy and practice in England and Wales this book is a study of the long arc of the rehabilitative ideal beginning in 1895 the year of the Gladstone Committee on Prisons and ending in 1970 when the policy of treating and training criminals was very much on the defensive Drawing on a plethora of source material such as the official papers of mandarins ministers and magistrates measures of public opinion prisoner memoirs publications of penal reform groups and prison officers the reports of Royal Commissions and Departmental Committees political opinion in both Houses of Parliament and the research of the first cadre of criminologists this book comprehensively examines a number of aspects of the British penal system including judicial sentencing law making and the administration of legal penalties In doing so Victor Bailey expertly weaves a complex and nuanced picture of punishment in twentieth century England and Wales one that incorporates the enduring influence of the death penalty and will force historians to revise their interpretation of twentieth century social and penal policy This detailed and ground breaking account of the rise and fall of the rehabilitative ideal will be essential reading for scholars and students of the history of crime and justice and historical criminology as well as those interested in social and legal history **Combating London's Criminal Class** Matthew Bach, 2020-07-09 The criminal class was seen as a violent immoral and dissolute sub section of Victorian London's population Making their living through crime and openly hostile to society the lives of these criminals were characterised by drunkenness theft and brutality This book explores whether this criminal class did indeed truly exist and the effectiveness of measures brought against it Tracing the notion of the criminal class from as early as the 16th century this book questions whether this sub section of society did indeed exist Bach discusses how unease of London's notorious rookeries the frenzy of media attention and a word deleted here panic among the general public enforced and encouraged the fear of the criminal class and perpetuated state efforts of social control Using the Habitual Criminals Bills this book explores how and why this legislation was introduced to deal with repeat offenders and assesses how successful its repressive measures were Demonstrating how the Metropolitan Police Force and London's Magistrates were not always willing tools of the British state this book uses court records and private

correspondence to reveal how inconsistent and unsuccessful many of these measures and punishments were and calls into question the notion that the state gained control over recidivists in this period **Cast Out** A. L. Beier, Paul

Ocobock, 2014-06-16 Throughout history those arrested for vagrancy have generally been poor men and women often young able bodied unemployed and homeless Most histories of vagrancy have focused on the European and American experiences **Cast Out Vagrancy and Homelessness in Global and Historical Perspective** is the first book to consider the shared global heritage of vagrancy laws homelessness and the historical processes they accompanied In this ambitious collection vagrancy and homelessness are used to examine a vast array of phenomena from the migration of labor to social and governmental responses to poverty through charity welfare and prosecution The essays in **Cast Out** represent the best scholarship on these subjects and include discussions of the lives of the underclass strategies for surviving and escaping poverty the criminalization of poverty by the state the rise of welfare and development programs the relationship between imperial powers and colonized peoples and the struggle to achieve independence after colonial rule By juxtaposing these histories the authors explore vagrancy as a common response to poverty labor dislocation and changing social norms as well as how this strategy changed over time and adapted to regional peculiarities Part of a growing literature on world history **Cast Out** offers fresh perspectives and new research in fields that have yet to fully investigate vagrancy and homelessness This book by leading scholars in the field is for policy makers as well as for courses on poverty homelessness and world history

Lawrence, 2017-07-05 The period 1829 1856 witnessed the introduction of the New Police to Great Britain and Ireland Via a series of key legislative acts traditional mechanisms of policing were abolished and new supposedly more efficient forces were raised in their stead Subsequently the introduction of the New Police has been represented as a watershed in the development of the systems of policing we know today But just how sweeping were the changes made to the maintenance of law and order during the nineteenth century The articles collected in this volume written by some of the foremost criminal justice historians show a process which while cumulatively dramatic was also at times protracted and acrimonious There

were significant changes to the way in which Britain and Ireland were policed during the nineteenth century but these changes were by no means as straightforward or as progressive as they have at times been represented **Crime, Histoire et Sociétés, 2000/2 ,**
