have become both the creators and the eager customers of a new fast paced hotly competitive personalized economy that seizes on cutting edge technologies to produce the innovative and custom designed products and services the world so sorely needs Will this personalized economy bring prosperity to Americans Can the free agents of the Baby Boom generation make life better for all of us Will they learn to work together for the good of society Most important what kind of society are the Baby Boomers leaving to their children In a culture that values individualism above all what will happen to the unprepared millions who are trapped in the margins of society In a world where the disparity between rich and poor has grown dramatically what kind of tensions will arise The Baby Boom generation is now laying the foundation for the next century The choices it makes today will reshape America either into a society of turmoil and danger or into a brave new world of cooperation and prosperity In this landmark work Cheryl Russell presents the blueprint by which the Baby Boom generation will leave its legacy for the future American Recreation Journal ,1961 **Recreation** ,1922 *Outdoor Recreation in America* Clayne R.
