Lynne Hume

Recreations Religion And Spirituality In The Lives Of Queer People:

ReCreations Catherine Lake,1999 A compelling collection of writings which reveal the distinctive impact of religion and spirituality on an in the lives of queer people This provocative anthology challenges those religious institutions that deem queer sexuality and gender identity as profane **Radical Love** Patrick S. Cheng,2011-03-01 The first introductory textbook on the subject of queer theology Contextual theologies have developed from a number of perspectives including feminist theology black theology womanist theology Latin American liberation theology and Asian American theology and a wide variety of academic and general introductions exist to examine each one However Radical Love is the first introductory textbook on the subject of queer theology In this lucid and compelling introduction Cheng provides a historical survey of how queer theology has developed from the 1950s to today and then explicates the themes of queer theology using the ecumenical creeds as a general framework Topics include revelation God Trinity creation Jesus Christ atonement sin grace Holy Spirit church sacraments and last things as seen through the lenses of LGBT theologians **Contemporary**

Christianity and LGBT Sexualities Stephen Hunt,2016-05-13 The subject of gay and lesbian sexuality is perhaps the most vexed issue in the contemporary Christian Church Many churches have been forced to confront the matter both theologically and pastorally and in consequence controversies have proved divisive within the Church most notably between conservative and liberal orientated denominations as well as evangelical churches This book explores these themes from a sociological perspective addressing not only gay and lesbian sexualities but also bi and transgendered sexualities With rich empirical material being presented by a team of experts this book constitutes the first comprehensive sociological study of non hetero sexualities in relation to contemporary Christianity As such it will appeal to sociologists scholars of religion and theology as well as readers across a range of social sciences **Religion and LGBTQ Sexualities** Stephen Hunt,2016-12-05 This

compiled and edited collection engages with a theme which is increasingly attracting scholarly attention namely religion and LGBTQ sexuality Each section of the volume provides perspectives to understanding academic discourse and wide ranging debates around LGBTQ sexualities and religion and spirituality The collection also draws attention to aspects of religiosity that shape the lived experiences of LGBTQ people and shows how sexual orientation forges dimensions of faith and spirituality Taken together the essays represent an exploration of contestations around sexual diversity in the major religions the search of sexual minorities for spiritual safe spaces in both established and new forms of religiosity and spiritual paths formed in reconciling and expressing faith and sexual orientation This collection which features contributions from a number of disciplines including sociology anthropology psychology history religious studies and theology provides an indispensable teaching resource for educators and students in an era when LGBTQ topics are increasingly finding their way onto numerous undergraduate post graduate and profession orientated programmes **Sexual Orientation and Gender Expression in**

Social Work Practice Deana F. Morrow,Lori Messinger,2006-04-02 Al Jazeera and other satellite television stations have

transformed Arab politics over the last decade By shattering state control over information and giving a platform to long stifled voices these new Arab media have challenged the status quo by encouraging open debate about Iraq Palestine Islamism Arab identity and other vital political and social issues These public arguments have redefined what it means to be Arab and reshaped the realm of political possibility As Marc Lynch shows the days of monolithic Arab opinion are over How Arab governments and the United States engage this newly confident and influential public sphere will profoundly shape the future of the Arab world Marc Lynch draws on interviews conducted in the Middle East and analyses of Arab satellite television programs op ed pages and public opinion polls to examine the nature evolution and influence of the new Arab public sphere Lynch who pays close attention to what is actually being said and talked about in the Arab world takes the contentious issue of Iraq which has divided Arabs like no other issue to show how the media revolutionized the formation and expression of public opinion He presents detailed discussions of Arab arguments about sanctions and the 2003 British and American invasion and occupation of Iraq While Arabs strongly disagreed about Saddam s regime they increasingly saw the effects of sanctions as a potent symbol of the suffering of all Arabs Anger and despair over these sanctions shaped Arab views of America their governments and themselves Lynch also suggests how the United States can develop and improve its engagement with the Arab public sphere He argues that the United States should move beyond treating the Arab public sphere as either an enemy to be defeated or an object to be manipulated via public relations Instead of wasting vast sums of money on a satellite television station nobody watches the United States should enter the public sphere as it really exists

Popular Spiritualities Lynne Hume, 2018-05-08 In our contemporary post modern world popular forms of spirituality are increasingly engaging with notions of re enchantment of self and community Not only are narratives of re enchantment appearing in popular culture at the personal and spiritual level but also they are often accompanied by a pragmatic approach that calls for political activism and the desire to change the world to incorporate these new ideas Drawing on case studies of particular groups including pagans witches radical faeries post modern tourists and queer and goddess groups contributors from Australia the UK and North America discuss various forms of spirituality and how they contribute to self knowledge identity and community life The book documents an emerging engagement between new quasi religious groups and political action eco paganism post colonial youth culture and alternative health movements to explore how social change emerges

Queer Jews David Shneer, Caryn Aviv, 2013-12-02 Queer Jews describes how queer Jews are changing Jewish American culture creating communities and making room for themselves as openly unapologetically queer and Jewish Combining political analysis and personal memoir these essays explore the various ways queer Jews are creating new forms of Jewish communities and institutions and demanding that Jewish communities become more inclusive **Acts of Faith, Acts of**

Love Dugan McGinley, 2006-04-19 McGinley uses the autobiographies of Gay men to explore the overlap between their religious and sexual identities **Coming In** Urs Mattmann, 2006-12-03 The author explores a mystic Christian spirituality

and describes numerous practical steps that gay men and women can take in order to connect with and express their innate spiritual nature

From Sin to Amazing Grace Patrick S. Cheng, 2012-03-01 Throughout the history of Christianity lesbian gay bisexual and transgender LGBT or queer people have been condemned as unrepentant sinners who are in dire need of God's saving grace As a result of this condemnation LGBT people have been subjected to great spiritual emotional and physical abuse and violence This issue takes on a particular urgency in light of the ongoing harassment and bullying of LGBT young people by their classmates Cheng argues that people need to be liberated from the traditional legal model of thinking about sin and grace as a violation of divine and natural laws in which grace is understood as the strength to refrain from violating such laws Rather Cheng proposes a Christological model based upon the theologies of Irenaeus Bonaventure and Barth in which sin and grace are defined in terms of what God has done for us in Jesus Christ This book serves as a useful resource for all people who struggle to make sense of the traditional Christian doctrines of sin and grace in the context of the 21st century
