OECD

Recruitment Of Candidates For The Canadi:

Parties, Candidates, and Constituency Campaigns in Canadian Elections Anthony Sayers, 2011-11-01 Political scientists have traditionally examined the democratic process at the macro level. With its unique micro level focus, *Parties, Candidates and Constituency Campaigns in Canadian Elections* provides the first systematic analysis of the local constituency campaigns that are the basis of elections and democracy in Canada. By taking a detailed look at campaigns in seven B.C. ridings during the 1988 free trade election, the last under the old three party system, Anthony Sayers develops a typology of candidates and campaigns. The dynamics of local associations, nominations and campaigns, including those of former prime minister Kim Campbell and New Democrat Svend Robinson, as well as key strategic events and the role of the media, are reconstructed from interviews with candidates, campaign managers, party strategists, volunteers and journalists. The 1993 and 1997 elections are then invoked to show that the insights drawn about the nature of constituency politics remain relevant to the new party system. This important contribution to the study of Canadian elections forcefully argues that knowledge of the dynamics at the local level is essential to a full understanding of Canadian politics, its underlying social basis and the factors that determine successful election campaigns. As such, *Parties, Candidates and Constituency Campaigns in Canadian Elections* will intrigue not only political scientists and students of Canadian politics but also election candidates and party strategists. **Parties, Elections, and the Future of Canadian Politics** Amanda Bittner, Royce Koop, 2013-03-01 On May 2, 2011, as Canadians watched the federal election results roll in and Stephen Harper's Conservatives achieve a majority, it appeared that we were witnessing a major shift in the political landscape. In reality, Canadian politics had been changing for quite some time. This volume provides the first account of the political upheavals of the past two decades and speculates on the future of the country's national party system. By documenting how parties and voters responded to new challenges between 1993 and 2011, this book sheds light on one of the most tumultuous periods in Canadian political history. *A Matter of Quality? Candidates in Canadian General Elections* David Coletto, *Recruiting Immigrant Workers: Canada 2019* OECD, 2019-08-13 Canada has not only the largest in terms of numbers but also the most elaborate and longest standing skilled labour migration system in the OECD. Largely as a result of many decades of managed labour migration, more than one in five people in Canada is foreign born, one of the highest shares in the OECD. 60% of Canada's foreign born population are highly educated, the highest share OECD wide. **Social Resilience and International Migration in the Canadian City** Valerie Preston, John Shields, Tara Bedard, 2025-06-17 This timely volume examines how policies, institutions and places influence the lives of immigrants and temporary migrants to Canada and how in turn those newcomers transform the cities in which they live. *Social Resilience and International Migration in the Canadian City* draws attention to disparities in outcomes for migrants and proposes strategies to enhance their participation in cities of all sizes. Focused on Ontario and Quebec, chapters pinpoint factors that affect the settlement and integration of immigrants as well as growing numbers of international

students foreign workers and refugee claimants Contributors illustrate how federal provincial and municipal policies and diverse institutions from grassroots churches to settlement agencies can influence migrants capacity to navigate and leverage the resources required to overcome integration challenges The book s social resilience framework attends to the social supports that empower migrants to take collective action for their own futures As migrants interact with a broad range of institutions those institutions are transformed and become more resilient themselves Directed at a wide audience of community and government practitioners migration policy experts scholars and civil society activists *Social Resilience and International Migration in the Canadian City* provides crucial insight about the policies necessary for helping both migrants and cities thrive offering ideas for effective implementation *The Political Party in Canada* William P. Cross, Scott Pruysers, Rob Currie-Wood, 2022-11-01 Political parties exist at the centre of democratic politics but where does power lie within them and how is it exercised *The Political Party in Canada* explores the inner workings of these complex organizations through an examination of the composition and roles of key party actors members and activists candidates local associations donors central officials and members of Parliament as well as the interactions between them Contemporary parties play a key role in recruiting and selecting candidates and leaders waging election campaigns and organizing legislatures Drawing on a rich trove of data from the 2015 and 2019 federal elections this book offers a comprehensive examination of the composition functions activities and power sharing relationships that characterize Canadian parties The authors focus not only on which groups are included in decision making but also on what power and authority rest with each level of the parties respective structures Basing its astute investigation on the themes of complexity representation and personalization *The Political Party in Canada* provides important insights into a fundamental institution that makes modern democracy possible *The Practice of Human Resource Management in Canada* Bob Barnetson, Jason Foster, 2024-10-29 This introductory human resource management HRM textbook provides students with an overview of the major domains of human resource management the how to with a focus on the practical application of the most recent HRM research and best practices Students will learn to understand anticipate and respond to how power profit and intersectionality shape the practice of HRM Moving beyond the typical procedure oriented textbook Barnetson and Foster provide thought provoking political analysis to better prepare students for the real world practice of human resource management **The Canadian Criminal Justice System** Nick Larsen, 1995 The administration of justice is an area of social policy that defies attempts to achieve a balance between order and the protection of the public and respect for individual rights The media contain daily accounts of the failure of the criminal justice system to repress crime It is within this social and legal context that this work is situated In addition to including a range of articles in the standard areas of policing courts and corrections recent articles deal with such controversial issues as aboriginal justice the recruitment of visible minorities by Canadian police forces and the role of women in the Canadian criminal justice system The collection concludes with a critical assessment of the retributive model

that currently serves as the philosophical underpinnings of the Canadian criminal justice system Women and Political Representation in Canada Caroline Andrew, Manon Tremblay, 1998 This collection of essays explores the often antagonistic relationship between women and political life in Canada While women make up little over half of the total population in Canada they are in many ways conspicuous by their absence from the Canadian political scene Published in English

Introduction to Management Colin Combe, 2014 This brand new textbook equips the next generation of managers with the skills to succeed in a global business environment Skillsets help students improve both their academic work and their employability a truly international range of case studies broadens their horizons and practitioner insights show them how skills are used in the real world
