Rights And Duties Of Riparian States Of International Rivers:

The Law of International Watercourses Stephen C. McCaffrey, 2019 This fully updated new edition of The Law of International Watercourses examines the rules of international law governing the use of international rivers lakes and groundwater shared by two or more countries

The Transit Regime for Landlocked States Kishor Uprety, 2006-01-01 The Transit Regime for Landlocked States assesses the strengths and limits of existing international law related to the free access of landlocked states to and from the sea The book analyzes whether the provisions of international law satisfy the economic demands of landlocked states the majority of which are among the world's poorest nations The book reviews the several principles of international law that dominated the evolution of the rights of access It discusses both general and specific conventions as well as treaty regimes emanating therefrom and examines some restrict

The United Nations Convention on the Law of International Watercourses Attila Tanzi, Maurizio Arcari, 2021-11-29 Problems relating to the non navigational uses of international watercourses have the capacity to be among the most serious causes of international conflicts in the new century The Convention adopted by the UN General Assembly on 21 May 1997 is the first comprehensive attempt to provide at the universal level a coherent set of rules for the avoidance management and settlement of such conflicts This book gives a brief history of the codification process leading to the adoption of the Convention and considers the conflicting approaches to the subject that have been taken over the years It examines the Convention as future treaty law and considers its impact on customary law putting it in the context of existing relevant international instruments It analyses the substantive principles of equitable utilisation and of no harm on the one hand and the procedural obligations on the other and emphasises their mutual complementarity The specific rules on the environmental protection of watercourses are given separate consideration underlining the indivisibility of water quality and water quantity issues while the dispute settlement provisions set out in the Convention are studied with special emphasis on negotiated settlement as their ultimate aim This book will be a compulsory tool for law makers negotiators of future watercourse agreements and water law practitioners as well as a required reading for students of the international law of shared natural resources

International Watercourses Law and Multilateral Environmental Agreements Yang Liu, 2024-02-06 This book anchors its arguments in Article 20 of the Watercourses Convention and explores consistencies and inconsistencies in parallel definitions substantive and procedural obligations and institutional arrangements in IWL and the Ramsar and Biodiversity Conventions with respect to the protection and preservation of ecosystems of shared inland waters Dr Yang Liu argues that the all around informed and integrated application of IWL and MEAs is essential for the effective protection and preservation of shared inland water ecosystems However the degree of

cross fertilization of parallel provisions should be examined on a case by case basis in light of the legal analytical framework deployed in this study

Peaceful Uses of International Rivers: The Euphrates and Tigris Rivers Dispute Hilal Elver, 2021-10-25 This book by a renowned environmental lawyer and scholar proposes a regime scheme that is not only based soundly on existing treaties concerning access rights to fresh water but also on the human rights of persons dependent on rivers and lakes for water and food Focusing on the Tigris Euphrates basin which is shared by Iraq Syria and Turkey Professor Elver explores the transnational arrangements among these three countries for the allocation of river resources The author clearly exposes the potential for conflict and sets forth the role that international law can play in resolving such conflict and protecting the human rights of local populations Published under the Transnational Publishers imprint
