

THE RIGHTS

of all children & young people

Almost all of the countries in the world came together and agreed that all children and young people have an important set of rights that can never be taken away from them. It does not matter who they are, where they live, what their parents do, what language they speak, what their religion is, whether they are a boy or girl, what their culture is and whether they have a disability.

They all have the right to be loved, BE cared for, be safe, have an education and be special. All adults should try their hardest to make sure that children are supported to grow up free from being hurt.

All adults should do what is best for you. When adults make decisions, they should think about how their decisions will affect children.

You have the right to give your opinion, express your view, and for adults to listen and take it seriously.

You have the right to find out things and share what you think with others.

You have the right to live with and be raised by your parents, unless it is harmful for you.

You have the right to practise your own culture, language and religion - or any you choose.

You have the right to your own nationality (to belong to a country).

You have the right to help if you have been hurt, neglected or abused.

You have the right to be protected from being hurt or abused.

You have the right to the best health care possible.

Your education should help you use and develop your talents and abilities. It should also help you learn to live peacefully, protect the environment and respect other people.

You have the right to protection from work that harms you, and is bad for your health and education. If you work, you have the right to be safe and paid fairly.

You have the right for your personal information to not be given out to anyone without your agreement.

You have the right to special education and care if you have a disability.

You have the right to a good quality education. You should be encouraged to go to school to the highest level you can.

You have the right to special protection and help if you are a refugee (if you have been forced to leave your home and live in another country).

If you live in care or in other situations away from home, you have the right to have these living arrangements looked at regularly to see if they are ok and right for you.

You have the right to food, clothing, a safe place to live and to have your basic needs met. You should be able to do many of the things other children can do.

You have the right to choose your own religion and beliefs. Your parents should help you decide what is right and wrong, and what is best for you.

You have the right to choose your own friends.

You have the right to live with a family who cares for you.

You have the right to special care and protection if you cannot live with your parents.

You have the right to legal help and fair treatment by police, judges and magistrates.

You have the right to play and rest.

All these rights and more are written down in the United Nations Convention on the Rights of the Child.

Rights Of Young People:

Young People's Human Rights and the Politics of Voting Age Sonja C. Grover, 2010-10-05 *Young People's Human Rights and The Politics of Voting Age* explores the broader societal implications of voting age eligibility requirements and the legislative bar against youth voting in North America and in Commonwealth countries where youth is defined as persons 16 and over but under age 18 The issue is raised as to whether the denial of the youth vote undermines democratic principles and values and ultimately the human dignity of youth This is the first book to address the topic of the youth vote in depth as a fundamental human rights concern relating to the entitlement in a democracy to societal participation and inclusion in influencing policy and law which profoundly affects one's life Also examined are international perspectives on the issue of voting age eligibility The book would be extremely valuable for instructional purposes as one of the primary texts in undergraduate or graduate courses on children's human rights political psychology political science sociology of law or society and as a supplementary text for courses on human rights or constitutional law and would be of interest also to members of the general public concerned with children's human rights issues *The Human Rights of Children* Antonella Invernizzi, 2016-02-24 This volume provides a series of critical analyses of some of the contemporary debates in relation to the human rights of children resituating them within visions which informed the text of the United Nations Convention on the Rights of the Child in 1989 The studies embrace examination of some of today's widespread interpretations of the CRC analysis of what is implied by a human rights based approach in research and advocacy and consideration of advances and barriers to research and to several aspects of CRC implementation With contributions by leading experts in the field the book examines the CRC as an international instrument its inherent dilemmas and some of the debates generated by the challenges of implementation It embraces examinations of different levels of governance from the international to the state party regional and local levels including institutional developments and changes in law policy and practice The book will be a valuable resource for students researchers and policy makers working in the area of children's rights and welfare The Sociology of Children's Rights Brian Gran, 2021-01-07 Children's rights appear universal inalienable and indivisible intended to advance young people's interests Yet in practice evidence suggests the contrary the international framework of treaties procedures and national policies contains fundamental contradictions that weaken commitments to children's real world protections Brian Gran helps us understand what is at stake when children's rights are compromised This insightful text grounds readers in core theories and key data about children's legal entitlements The chapters tackle central questions about what rights accrue to young people whether they advance equality and how they influence children's identities freedoms and societal participation Ultimately this book shows how current frameworks hinder young people from possessing and benefiting from human rights arguing that they function as cynical invitations to question whether we truly believe children are endowed with human rights *The Sociology of Children's Rights* offers a critical and accessible

introduction to understanding a complex issue in the contemporary world and is a compelling read for students and researchers concerned with human rights in sociology political science law social work and childhood studies
