Objects in Air Margareta Ingrid Christian,2021-06-07 Margareta Ingrid Christian unpacks the ways in which around 1900 art scholars critics and choreographers wrote about the artwork as an actual object in real time and space surrounded and fluently connected to the viewer through the very air we breathe Theorists such as Aby Warburg Alois Riegl Rainer Maria Rilke and the choreographer Rudolf Laban drew on the science of their time to examine air as the material space surrounding an artwork establishing its milieu atmosphere or environment Christian explores how the artwork s external space was seen to work as an aesthetic category in its own right beginning with Rainer Maria Rilke s observation that Rodin s sculpture exhales an atmosphere and that Cezanne s colors create a calm silken air that pervades the empty rooms where the paintings are exhibited Writers created an early theory of unbounded form that described what Christian calls an artwork s ecstasis or its ability to stray outside its limits and engender its own space Objects viewed in this perspective complicate the now fashionable discourse of empathy aesthetics the attention to self projecting subjects and the idea of the modernist self contained artwork For example Christian invites us to historicize the immersive spatial installations and environments that have arisen since the 1960s and to consider their origins in turn of the twentieth century aesthetics Throughout this beautifully written work Christian offers ways for us to rethink entrenched narratives of aesthetics and modernism and to revisit alternatives

Mr. Emerson's Revolution Jean McClure Mudge,2015-09-11 This volume traces the life thought and work of Ralph Waldo Emerson a giant of American intellectual history whose transforming ideas greatly strengthened the two leading reform

issues of his day abolition and women's rights A broad and deep yet cautious revolutionary he spoke about a spectrum of inner and outer realities personal philosophical theological and cultural all of which gave his mid career turn to political and social issues their immediate and lasting power This multi authored study frankly explores Emerson's private prejudices against blacks and women while he also publicly championed their causes Such a juxtaposition freshly charts the evolution of Emerson's slow but steady application of his early neo idealism to emancipating blacks and freeing women from social bondage His shift from philosopher to active reformer had lasting effects not only in America but also abroad In the U S Emerson influenced such diverse figures as Thoreau Whitman Dickinson and William James and in Europe Mickiewicz Wilde Kipling Nietzsche and Camus as well as many leading followers in India and Japan The book includes over 170 illustrations among them eight custom made maps of Emerson's haunts and wide ranging lecture itineraries as well as a new four part chronology of his life placed alongside both national and international events as well as major inventions Mr Emerson's Revolution provides essential reading for students and teachers of American intellectual history the abolitionist and women's rights movement and for anyone interested in the nineteenth century roots of these seismic social changes

The Near and Distant God Ian Cooper, 2017-12-02 Poetry and philosophy from the time of Kant to the mid twentieth century are centrally concerned with the question of how the Spirit or the Holy Spirit is present in the world This book argues that the development of modern poetry in German and English can be seen as a protracted response to the religious crises of post Idealist thought The German tradition develops through poets such as Holderlin as much as through philosophers such as Hegel and Nietzsche and in England German ideas profoundly influenced the British Idealist school Cooper's compelling study makes parallel readings of German and English writers with deeper historically based affinities than has previously been realised Eduard Morike and Gerard Manley Hopkins both churchmen each studied Idealism as undergraduates in their respective countries each responded to it in his spiritual verse And we find similar parallels in two of the defining works of twentieth century poetry between Rilke's response to Nietzsche in the Duino Elegies and Eliot's response to Bradley in the Four Quartets Ian Cooper is Centenary Research Fellow at Selwyn College Cambridge
