Popular Music, Critique and Manic Street Preachers Mathijs Peters, 2020-07-29 This book explores the ways in which popular music can criticise political social and economic structures through the lens of alternate rock band Manic Street Preachers Unlike most recent work on popular music Peters concentrates largely on lyrical content to defend the provocative claim that the Welsh band pushes the critical message shaped in their lyrics to the forefront Their music this suggests along with sleeve art body art video clips clothes interviews and performances serves to emphasise this critical message and the primary role played by the band s lyrics Blending the disciplines of popular music studies culture studies and philosophy Peters confronts the ideas of German philosopher and social critic Theodor W Adorno with the entire catalogue of Manic Street Preachers from their 1988 single Suicide Alley to their 2018 album Resistance is Futile Although Adorno argues that popular music is unable to resist the standardising machinery of consumption culture Peters paradoxically uses his ideas to show that Manic Street Preachers releases shape critical models with which to formulate social and political critique This notion of the critical model enables Peters to argue that the catalogue of Manic Street Preachers critically addresses a wide range of themes from totalitarianism to Holocaust representation postmodern temporality to Europeanism and from Nietzsche s ideas about self overcoming to reflections on digimodernism and post truth politics The book therefore persuasively shows that Manic Street Preacher lyrics constitute an intertextual network of links between diverse cultural and political phenomena encouraging listeners to critically reflect on the structures that shape our lives **Litpop: Writing and Popular Music** Rachel Carroll, Adam Hansen, 2016-05-13 Bringing together exciting new interdisciplinary work from emerging and established scholars in the UK and beyond Litpop addresses the question how has

writing past and present been influenced by popular music and vice versa Contributions explore how various forms of writing have had a crucial role to play in making popular music what it is and how popular music informs literary writing in diverse ways The collection features musicologists literary critics experts in cultural studies and creative writers organised in three themed sections Making Litpop explores how hybrids of writing and popular music have been created by musicians and authors Thinking Litpop considers what critical or intellectual frameworks help us to understand these hybrid cultural forms Finally Consuming Litpop examines how writers deal with music s influence how musicians engage with literary texts and how audiences of music and writing understand their own role in making Litpop happen Discussing a range of genres and periods of writing and popular music this unique collection identifies theorizes and problematises connections between different forms of expression making a vital contribution to popular musicology and literary and cultural studies
