Ripening Selected Works 19271980:

Better Red Constance Coiner,1995-03-30 *Better Red* is an interdisciplinary study addressing the complicated intersection of American feminism and the political left as refracted in Tillie Olsen's and Meridel Le Sueur's lives and literary texts. The first book-length study to explore these feminist writers ties to the American Communist Party; it contributes to a reenvisioning of 1930s U.S. Communism as well as to efforts to promote working-class writing as a legitimate category of literary analysis. At once loyal members of the male-dominated Communist party and emerging feminists, Olsen and Le Sueur exhibit in their writing tendencies both toward and away from Party tenets and attitudes at points subverting formalist as well as orthodox Marxist literary categories. By producing working-class discourse, Olsen and Le Sueur challenge the bourgeois assumptions often masked as classless and universal of much canonical literature and, by creating working-class women's writing, they problematize the patriarchal nature of the Left and the masculinist assumptions of much proletarian literature, anticipating the concerns of second-wave feminists a generation later.

Women and Work Christine Leiren Mower, Susanne Weil, 2010-08-11 While issues surrounding women and work may be more subtle today than in the past, problems of workplace equity, child rearing, and domestic labor pose problems of balance that continue to evade solution as women today face substantial shifts in the meanings and practices of marriage, work, and reproduction amid a globalized economy. The essays in *Women and Work: The Labors of Self-Fashioning* explore how nineteenth and twentieth-century US and British writers represent the work of being women where work is defined broadly to encompass not only paid labor inside and outside the home but also the work of performing femininity and domesticity. How did nineteenth and twentieth-century US and British writers revise then-contemporary social assumptions about who should be performing work and for what purpose? How fully did these writers perceive the class implications of their arguments for taking jobs outside the home? How does work both inside and outside the home contribute to female identity and conversely how does it promote what legal theorist Kenji Yoshino terms the demands of covering women's strategic use of stereotypes of femininity and masculinity to succeed in the marketplace? In articles appropriate for both upper-level undergraduate and graduate students in literature and literary history, women's studies, feminist and gender studies, contributors engage these questions, covering both canonical and popular middlebrow nineteenth and twentieth-century writers such as Gilman, Cather, Alcott, Schreiner, Wharton, Le Sueur, Gissing, Wood, Lewis, and Mitchell. *Women and Work* will also interest scholars concerned with this developing discourse.

[In the Company of Radical Women Writers](#) Rosemary Hennessy, 2023-08-08 Recovering the bold voices and audacious lives of women who confronted capitalist society's failures and injustices in the 1930s, a decade unnervingly similar to our own, *In the Company of Radical Women Writers* rediscovers the political commitments and passionate advocacy of seven writers, Black, Jewish, and white, who as young women turned to communism around the Great Depression and over decades of national crisis spoke to issues of labor, land, and love in ways that provide urgent thought.

provoking guidance for today Rosemary Hennessy spotlights the courageous lives of women who confronted similar challenges to those we still face exhausting and unfair labor practices unrelenting racial injustice and environmental devastation As Hennessy brilliantly shows the documentary journalism and creative and biographical writings of Marvel Cooke Louise Thompson Patterson Claudia Jones Alice Childress Josephine Herbst Meridel Le Sueur and Muriel Rukeyser recognized that life is sustained across a web of dependencies that we each have a duty to maintain Their work brought into sharp focus the value and dignity of Black women s domestic work confronted the destructive myths of land exploitation and white supremacy and explored ways of knowing attuned to a life giving erotic energy that spans bodies and relations In doing so they also expanded the scope of American communism By tracing the attention these seven women pay to life making as the relations supporting survival and wellbeing from Harlem to the American South and Midwest In the Company of Radical Women Writers reveals their groundbreaking reconceptions of the political and provides bracing inspiration in the ongoing fight for justice

Women and Appletrees Moa Martinson,1985 About this novel which focuses on two young women early in the 20th century both victims of sexual abuse as they struggle to gain for themselves and their children the rights and opportunities usually denied to poor women Tillie Olsen said I love and am ineradicably grateful for this book this writer as I have been but to a few dozen others in my lifetime Images scenes relationships comprehensions portrayed here will never leave us She is a writer of international stature and significance

The Suburb of Dissent Caren Irr,1998 A study of a range of leftist literature of the 30s in its cultural milieu

Twentieth-Century Sentimentalism Jennifer A. Williamson,2013-12-15 Today s critical establishment assumes that sentimentalism is an eighteenth and nineteenth century literary mode that all but disappeared by the twentieth century In this book Jennifer Williamson argues that sentimentalism is alive and well in the modern era By examining working class literature that adopts the rhetoric of feeling right in order to promote a proletarian or humanist ideology as well as neo slave narratives that wrestle with the legacy of slavery and cultural definitions of African American families she explores the ways contemporary authors engage with familiar sentimental clich s and ideals Williamson covers new ground by examining authors who are not generally read for their sentimental narrative practices considering the proletarian novels of Grace Lumpkin Josephine Johnson and John Steinbeck alongside neo slave narratives written by Margaret Walker Octavia Butler and Toni Morrison Through careful close readings Williamson argues that the appropriation of sentimental modes enables both sympathetic thought and systemic action in the proletarian and neo slave novels under discussion She contrasts appropriations that facilitate such cultural work with those that do not including Kathryn Stockett s novel and film The Help The book outlines how sentimentalism remains a viable and important means of promoting social justice while simultaneously recognizing and exploring how sentimentality can further white privilege Sentimentalism is not only alive in the twentieth century It is a flourishing rhetorical practice among a range of twentieth century authors who use sentimental tactics in order to appeal to their readers about a range of social justice

issues This book demonstrates that at stake in their appeals is who is inside and outside of the American family and nation

Encyclopedia of Feminist Literature Mary Ellen Snodgrass, 2015-04-22 Presents articles on feminist literature including significant authors themes and history

Regulating the Lives of Women Mimi Abramovitz, 2017-08-23 Widely praised as an outstanding contribution to social welfare and feminist scholarship *Regulating the Lives of Women* 1988 1996 was one of the first books to apply a race and gender lens to the U S welfare state The first two editions successfully exposed how myths and stereotypes built into welfare state rules and regulations define women as deserving or undeserving of aid depending on their race class gender and marital status Based on considerable new research the preface to this third edition explains the rise of Neoliberal policies in the mid 1970s the strategies deployed since then to dismantle the welfare state and the impact of this sea change on women and the welfare state after 1996 Published upon the twentieth anniversary of welfare reform *Regulating the Lives of Women* offers a timely reminder that public policy continues to punish poor women especially single mothers of color for departing from prescribed wife and mother roles The book will appeal to undergraduate graduate and postgraduate students of social work sociology history public policy political science and women gender and black studies as well as today s researchers and activists

What We Hold in Common Janet Zandy, 2001 Restored to print in an expanded edition the pivotal text in working class studies

Daughter of the Hills Myra Page, 1986 This novel offers a powerful account of family life and labor conflicts told through the eyes of a tough resilient Appalachian woman who is according to Richard Wright one of the most impressive proletarian characters in our literature *Daughter of the Hills* exposes the economic conditions of the working class and the scarcity of opportunities for working class women but also tells the story of a loving marriage that endures despite severe hardships
