Rise Of Christianity How The Obscure Marginal Jesus Movement Became The Dominant Religious Force:

The Rise of Christianity Rodney Stark, 1997-05-09 This fresh blunt and highly persuasive account of how the West was won for Jesus Newsweek is now available in paperback Stark's provocative report challenges conventional wisdom and finds that Christianity's astounding dominance of the Western world arose from its offer of a better more secure way of life Compelling reading Library Journal that is sure to generate spirited argument Publishers Weekly this account of Christianity's remarkable growth within the Roman Empire is the subject of much fanfare Anyone who has puzzled over Christianity's rise to dominance must read it says Yale University's Wayne A Meeks for *The Rise of Christianity* makes a compelling case for startling conclusions Combining his expertise in social science with historical evidence and his insight into contemporary religion's appeal Stark finds that early Christianity attracted the privileged rather than the poor that most early converts were women or marginalized Jews and ultimately that Christianity was a success because it proved those who joined it with a more appealing more assuring happier and perhaps longer life Andrew M Greeley University of Chicago

Food Justice and Hospitality in Luke-Acts Gideon S. S. Paulraj, 2023-05-23 Food security is a multifaceted concept and extends beyond the production of availability of and demand for food This book attempts to explore the meal narrations in Luke Acts as a source for a theology of hospitality to ascertain Luke's concern for the immigrant the poor the homeless the hungry and the outcasts This book focuses on fifteen meal scenes in Luke Acts and contributes to Lukan scholarship on meals particularly in addressing the issue of food insecurity Firstly by incorporating cultural dimensions and anthropology to understand the social context of the first century world this book contributes a new perspective on the Lukan audience which was stratified by socioeconomic and religious disparities in terms of privilege wealth and power Secondly this book analyzes the Lukan concern with the social structure and the social political economic and religious setting behind his emphasis on the pto set macron over o choi and the marginalized concerning livelihood needs such as food and shelter Thirdly this book connects Lukan concern with contemporary theologies that include an emphasis on hunger and hospitality such as liberation theology Dalit theology and practical theology Thus the book challenges readers and offers a few recommendations for implementations to combat hunger and destitution

Orthodoxy and Heresy in Early Christian Contexts Paul A Hartog, 2015-08-27 Eighty years ago Walter Bauer promulgated a bold and provocative thesis about early Christianity He argued that many forms of Christianity started the race but one competitor pushed aside the others until this powerful orthodox version won the day The victors rewrote history marginalizing all other perspectives and silencing their voices even though the alternatives possessed equal right to the title of normative Christianity Bauer's influence still casts a long shadow on early Christian scholarship Were heretical movements the original forms of Christianity Did the heretics outnumber the orthodox Did orthodox heresiologists accurately portray their opponents And more fundamentally how can one make any objective distinction between heresy and orthodoxy Is such labeling merely the product

of socially situated power Did numerous valid forms of Christianity exist without any validating norms of Christianity This collection of essays each written by a relevant authority tackles such questions with scholarly acumen and careful attention to historical cultural geographical and socio rhetorical detail Although recognizing the importance of Bauer s critical insights innovative methodologies and fruitful suggestions the contributors expose numerous claims of the Bauer thesis in both original and recent manifestations that fall short of the historical evidence Created and Creating William

Edgar,2016-12-02 Culture plays an undeniable role in the Christian s vocational calling in the world How might we engage our culture with discernment and faithfulness Exploring Scripture and gleaning insights from a variety of theologians William Edgar offers a biblical defense of the cultural mandate arguing that we are most faithful to our calling when we participate in creating culture **A History of Christian Conversion** David W. Kling,2020-05-05 Conversion has played a central role in

the history of Christianity In this first in depth and wide ranging narrative history David Kling examines the dynamic of turning to the Christian faith by individuals families and people groups Global in reach the narrative progresses from early Christian beginnings in the Roman world to Christianity s expansion into Europe the Americas China India and Africa Conversion is often associated with a particular strand of modern Christianity evangelical and a particular type of experience sudden overwhelming However when examined over two millennia it emerges as a phenomenon far more complex than any one dimensional profile would suggest No single unitary paradigm defines conversion and no easily explicable process accounts for why people convert to Christianity Rather a multiplicity of factors historical personal social geographical theological psychological and cultural shape the converting process A History of Christian Conversion not only narrates the conversions of select individuals and peoples it also engages current theories and models to explain conversion and examines recurring themes in the conversion process divine presence gender and the body agency and motivation testimony and memory group and self identity authentic and nominal conversion and modes of communication Accessible to scholars students and those with a general interest in conversion Kling s book is the most satisfying and comprehensive account of conversion in Christian history to date this major work will become a standard must read in conversion studies **Text and**

Artifact in the Religions of Mediterranean Antiquity Peter Richardson,Canadian Corporation for Studies in Religion,2000-05-19 North American and European scholars of archaeology and theology explore the issue of how primary religious texts of the ancient Mediterranean world and artifactual evidence can be mutually supportive and illuminating The essays are divided into those on early Christianity late antique Judaism and the Greco Roman world at large and include studies on the placing of Jesus celibacy and social deviancy in the Roman period and epigraphic evidence for Jewish defectors Canadian card order number C00 930959 4 Annotation copyrighted by Book News Inc Portland OR **A Public Missiology** Gregg Okesson,2020-04-21 How can Christians witness to the complexity of our world Gregg Okesson shows that local congregations are the primary means of public witness in and for the world As Christians move back and forth between their

churches and their neighborhoods workplaces and other public spaces they weave a thick gospel witness This introduction to public missiology explains how local congregations can thicken their witness in the public realms where they live work and play Real life examples from around the world help readers envision approaches to public witness and social change

Transformations of Religious Practices in Late Antiquity Eric Rebillard, 2024-08-01 The eighteen papers collected in this volume fifteen of which are published in English for the first time explore the transformations of religious practices between the third and the fifth centuries in the Western part of the Roman Empire They share an approach that privileges the study of processes and interactions and does not take for granted the categories and roles traditionally ascribed to social actors A first group of papers focuses on the sermons and letters of Augustine of Hippo These texts are precious evidence for balancing the clerical perspective that characterizes most of our sources and can thus shed a different light on the problem of Christianization The second group collects papers that propose to shift attention from the construction of heresies to that of orthodoxy through the case study of the controversy of Augustine against Pelagius and Julian of Eclanum A last group present studies that look at the complex relation between burial and religion with a particular focus on the role played by the church in the organization of the burial of Christians in Late Antiquity [Who Were the First Christians?](#) Thomas Arthur Robinson, 2017 Challenges the consensus view of the urban character of early Christianity Demonstrates that almost every scenario in reconstructing early Christian growth is mathematically improbable and in many case impossible unless a rural dimension of the Christian movement is factored in Points to the likelihood that the marginal and the rustic made up a larger part of its membership than is generally recognized
