The Rise of Industrial Society in England 1815-1885 Sydney George Checkland,1964 **The Rise of Industrial Society in England** S. G. Checkland,1977 **The Rise of the Industrial Society in England** Sydney G. Checkland,1969

Social and Economic History of England Henry Royston Loyn,1962 **A Social History of England 1851-1990** Francois Bedarida,2013-06-17 In this the second edition of A Social History of England Francois B darida has added a new final chapter on the last fifteen years The book now traces the evolution of English society from the height of the British Empire to the dawn of the single European market Making full use of the Annales school of French historiography B darida takes his inquiry beyond conventional views to penetrate the attitudes behaviour and psychology of the British people

The Making of Modern English Society from 1850 Janet Roebuck,1982 In the second half of the nineteenth century and the first half of the twentieth century a variety of forces emerged which changed society in many profound and subtle ways The Making of Modern English Society from 1850 uses the findings of recent historical and sociological research contemporary literature and a wide range of historical sources to form a clear picture of the main patterns of the social changes which took place in this turbulent period Jane Roebuck shows how in these hundred years the whole fabric of society altered more rapidly and radically than in ant preceding century She gives and account of the dramatic change which occurred in all spheres of national liked She demonstrates how the drift towards socialism which began in the nineteenth century gathered momentum in the twentieth and how massive social chance was on produce of the two world wars In the field of economics the author considers the development of the maturing but still primitive industrial economy of the mid nineteenth century into a modern economy based on mass production and mass consumption She also describes the change in emphasis from desire for world power to concern for domestic prosperity and welfare services Party and Politics, 1830-1852 Robert Stewart,1988-12-23 Undergraduate and sixth form students will undoubtedly benefit from his lucid and critical commentary Martin Pugh History *Britain in the World Economy since 1880* Bernard W.E. Alford,2014-06-06 Bernard Alford reviews the changing role and diminishing influence of Britain within the international economy across the century that saw the apogee and loss of Britain s empire and her transformation from globe straddling superpower to off shore and indecisive member of the European Community He explores the relationship between empire and economy looks at economic performance against economic policy and compares Britain through and beyond the Thatcher years with her European partners America and Japan In assessing whether Britain s economic decline has been absolute or merely relative he also illuminates the broader history of the world economy itself The Making of the Modern British Diet Derek Oddy,Derek Miller,2025-06-20 Food is the physiological basis of man s existence but is also an expression of a society s culture and may play many roles other than physiological in terms of both personal and group relationships Originally published in 1976 The Making of the Modern British Diet focusses on the role of food during industrialisation and

urbanisation in Britain Part One contains a series of commodity studies covering bread cereals biscuits meat milk tea and cocoa which reflect trends in the supply of some of the foods in the British diet during the nineteenth and early twentieth centuries The emphasis in Part Two is predominantly on consumption either through the study of living standards or consumer preference or through the presentation of food and the organisation of its outlets to the consumer Part Three provides a nutritional evaluation which is an entirely new approach in an historical work *The Age of Improvement, 1783-1867* Asa Briggs, 2014-06-17 The Age of Improvement has long established itself as a classic of modern historical writing Widely read and quoted it has had a unique influence on teaching and research This second edition draws on the great volume of new research produced by Lord Briggs amongst others since its original publication The book stresses both the underlying unity and the rich variety of the age and raises fundamental issues about a period of crucial change in British history industrialisation war constitutional change and the attitudes of politicians towards it political development and not least society and culture In the background are the new economic powers based on the development of a coal and iron technology in the foreground new social and political problems and new ways of tackling them The author also discusses perceptions of and reactions to changing circumstances the influence of religion and science on national life and changing styles in art and literature The story ends not with a full stop but with a question mark Could improvement be maintained Could balance and progress continue to be reconciled *The Origins of Railway Enterprise* Maurice W. Kirby, M. W. Kirby, 2002-07-04 This book argues for the significance of the Stockton and Darlington Railway in Britain's industrialisation

Explaining Environmentalism Philip W. Sutton, 2019-06-04 This title was first published in 2000 The author examines those current theories which purport to explain the emergence and character of new social movements in the advanced industrial societies since the 1960s In particular it sets out to test the efficacy of these explanations in relation to the history of the environmental movement in Britain The book breaks new ground in bringing together both short term and the more historically orientated long term explanations into a single volume thus providing an invaluable resource for students of social movements Its critical exposition of major theories also points to the need for a more developmental approach which seeks to connect old and new movement forms thus allowing for a more balanced evaluation of the potential of the environmental movement to bring about significant social change **Visions of empire** Brad Beaven, 2017-02-01 The emergence of a vibrant imperial culture in British society from the 1890s both fascinated and appalled contemporaries It has also consistently provoked controversy among historians This book offers a ground breaking perspective on how imperial culture was disseminated It identifies the important synergies that grew between a new civic culture and the wider imperial project Beaven shows that the ebb and flow of imperial enthusiasm was shaped through a fusion of local patriotism and a broader imperial identity Imperial culture was neither generic nor unimportant but was instead multi layered and recast to capture the concerns of a locality The book draws on a rich seam of primary sources from three representative English cities

These case studies are considered against an extensive analysis of seminal and current historiography This renders the book invaluable to those interested in the fields of imperialism social and cultural history popular culture historical geography and urban history A History of the Methodist Church in Great Britain, Volume Three Rupert E. Davies,A. Raymond George,Gordon Rupp,2017-06-14 This third volume of A History of the Methodist Church in Great Britain which began to be published in 1965 and took another step forward in 1978 brings the story of British Methodism to the event which was intended to conclude the whole work that is to the consummations of Methodist Union in 1932 Some chapters however advance beyond that event since the description of some of the processes then in train could not be abruptly curtailed without historical injustice From the Preface *Suffer and Be Still (Routledge Revivals)* Martha Vicinus,2013-10-08 First published in 1972 this book contains a collection of ten essays that document the feminine stereotypes that women fought against and only partially erased a hundred years ago In an introductory essay Martha Vicinus describes the perfect Victorian lady showing that the ideal was a combination of sexual innocence conspicuous consumption and worship of the family hearth Indeed this model in some form was the ideal of all classes as the perfect lady s only functions were marriage and procreation The text offers a valuable insight into Victorian culture and society The End of Anglo-America Robert Arthur Burchell,1991 This collection of essays examines the phenomenon of the gradually evolving cultural differences which took place between America and Britain after the American revolution A culture of individualism began to emerge in contrast with elitism leading to suspicion of government and emerging personal ambitions particularly with regard to one s children However cultural changes emerged at a different pace in different parts of the country One author argues that Britain and America continued as members of a single political family which in turn belonged to a wider European community Another suggests that a clear but selective emancipation from the British political culture took place and that a development of distinctly American institutions and practices emerged Yet another believes that in the United States there was less criticism of business success and less possibility of the generations that succeeded business success being seduced by gentrification Regions, Industries, and Heritage. Juliane Czierpka,Kathrin Oerters,Nora Thorade,2016-03-21 The industrial age has proved to be a formative period for Europe Industrial heritage nowadays bears witness to the development that took place in differently structured regions This volume presents different paths of industrial development and gives an overview of the concepts of regions used among economic social and cultural historians **Labour and the Poor in England and Wales, 1849-1851** Jules Ginswick,2017-09-25 First Published in 1983 In October 1849 a London newspaper the Morning Chronicle announced to its middle class readers that it was to undertake a survey of the condition of the labouring classes in England and Wales under the general title of Labour and the Poor The reports of the survey were published over a period of two years and provided the mid nineteenth century Englishman with the most comprehensive view of the working classes that he had ever seen The letters to The Morning Chronicle from the manufacturing mining and rural districts and the towns of Liverpool

and Birmingham appear here for the first time in book form and have been organised in eight volumes This is Volume I and offer insights into labour and the poor in England and Wales 1849 to 1851 in the areas of Lancashire Cheshire and Yorkshire

The Churches and the Working Classes Patricia Midgley, 2012-12-21 Contrary to our perception of the centrality of the churches in English life in the nineteenth century the disappointing results of the 1851 Religious Census led religious leaders to seek a variety of ways to increase religious allegiance as the century progressed The apparent apathy and lack of interest in formal religion on the part of the working classes was particularly galling and the various denominations tried hard to attract them through evangelical missions as well as social and charitable ventures which sometimes competed with religious concerns to the latter's detriment This book traces the motivations concerns and efforts of the churches particularly in the period between 1870 and 1920 and the ambivalent responses of ordinary people The Education Act of 1870 led to the churches losing their hold on the education of the young a consequence foreseen by many church leaders but unable to be prevented By 1920 it was apparent that the churches' optimism regarding an increased role with a war weary population would not be fulfilled The focus is on the city of Leeds representative of the industrialised urban areas with burgeoning populations which proved to be such a challenge to the churches at the same time stimulating them to ever greater efforts

Labour and the Poor in England and Wales, 1849-1851: Lancashire, Cheshire, Yorkshire Jules Ginswick, 1983 The letters to *The Morning Chronicle* from the correspondents in the manufacturing and mining districts the towns of Liverpool and Birmingham and the rural districts
