The Rise of Prussia

1700–1830

Rise Of Prussia 1700 1830

A. Wess Mitchell

Rise Of Prussia 1700 1830:

The Rise of Prussia 1700-1830 Philip G. Dwyer, 2014-02-04 At the beginning of the eighteenth century Prussia was but one in a mosaic of German states but it rose to be the unchallenged leader of German speaking Europe after the fall of Napoleon The book goes beyond the political military and diplomatic concerns of the Prussian elite whose record of events is the one upon which most histories of Prussia are based and explains its rise in relation to Prussian society as a whole Political analysis is integrated with material on such areas as agrarian society urban life and religion which are not fully examined in existing histories *The Rise of Prussia, 1700-1830* Philip G. Dwyer, 2013 *The Rise of Prussia, 1700-1830* Philip G.

Dwyer, 2000 **A History of Eastern Europe 1740-1918** Ian D. Armour, 2012-11-22 A History of Eastern Europe 1740 1918 Empires Nations and Modernisation provides a comprehensive authoritative account of the region during a troubled period that finished with the First World War Ian Armour focuses on the three major themes that have defined Eastern Europe in the modern period empire nationhood and modernisation whilst chronologically tracing the emergence of Eastern Europe as a distinct concept and place Detailed coverage is given to the Habsburg Ottoman German and Russian Empires that struggled for dominance during this time In this exciting new edition Ian Armour incorporates findings from new research into the nature and origins of nationalism and the attempts of supranational states to generate dynastic loyalties as well as concepts of empire Armour s insightful guide to early Eastern Europe considers the important figures and governments analyses the significant events and discusses the socio economic and cultural developments that are crucial to a rounded understanding of the region in that era Features of this new edition include A fully updated and enlarged bibliography and notes Eight useful maps Updated content throughout the text A History of Eastern Europe 1740 1918 is the ideal textbook for students studying Eastern European history *German Diplomatic Relations 1871-1945* William

Young, 2006-09-04 The continuity issue has been a theme in German historiography for half a century Historians have examined the foreign policy of Wilhelmine and Nazi Germany that led to two world wars Dr William Young examines the continuity of German Foreign Office influence in the formulation of foreign policy under the leadership of Otto von Bismarck 1862 1890 Kaiser William II 1888 1918 the Weimar Republic 1919 1933 and Adolf Hitler 1933 1945 He stresses the role and influence of strong German leaders in the making of policy and the conduct of foreign relations *German Diplomatic Relations 1871 1945* will be of value to individuals interested in the history of Germany Modern Europe and International Relations

The Grand Strategy of the Habsburg Empire A. Wess Mitchell, 2019-10 The Habsburg Empire s grand strategy for outmaneuvering and outlasting stronger rivals in a complicated geopolitical world The Empire of Habsburg Austria faced more enemies than any other European great power Flanked on four sides by rivals it possessed few of the advantages that explain successful empires Yet somehow Austria endured outlasting Ottoman sieges Frederick the Great and Napoleon A Wess Mitchell tells the story of how this cash strapped polyglot empire survived for centuries in Europe s most dangerous

neighborhood without succumbing to the pressures of multisided warfare He shows how the Habsburgs played the long game in geopolitics corralling friend and foe alike into voluntarily managing the empire's lengthy frontiers and extending a benign hegemony across the turbulent lands of middle Europe The Grand Strategy of the Habsburg Empire offers lessons on how to navigate a messy geopolitical map stand firm without the advantage of military predominance and prevail against multiple rivals

Anglo-Prussian Relations 1701-1713 Crawford Matthews, 2024-02-20 In 1701 Frederick I crowned himself the first King in Prussia This title required a process of royal status construction in conjunction with other European rulers and Frederick found his most willing partners in the English monarchy This volume examines their ceremonial and military cooperation Diplomatic ceremonial was the medium through which the English state and its representatives recognised the new royal rank of the Hohenzollern dynasty In exchange Frederick engaged in extensive military cooperation with the English in the War of the Spanish Succession Yet English statesmen and diplomats also instrumentalised Anglo Prussian relations for their own status production furthering their careers and elevating their rank via the symbolic construction of Prussian royal dignity This book investigates this reciprocal construction of status and rank exploring the aims and actions of actors involved and assessing the extent to which they succeeded Consequently this book represents an actor centred work of new diplomatic history that simultaneously reinterprets the reign of Frederick I and assesses a crucial yet understudied chapter in the rise of Prussia This book will appeal to scholars and students of early modern diplomatic history as well as general readers interested in the history of England and Prussia

Giacomo Meyerbeer Robert Ignatius Letellier, 2019-01-31 Giacomo Meyerbeer was once one of the most famous of all opera composers enjoying into the twentieth century the same universal admiration and performance as a composer like Puccini does today Through a series of adverse factors his reputation was seriously damaged with the resurgence of nationalism and the growing anti-Semitism in France and Germany at the end of the nineteenth century the propagation of a Wagnerian operatic aesthetic the decline of the bel canto vocal tradition and the disfavour manifested towards the heroism of French grand opera All these factors and especially the ban on his music in Nazi Germany meant that Meyerbeer's reputation was seriously overshadowed in the years after the Second World War During the 1960s and 1970s a tentative interest began to manifest itself and with the advent of the new millennium a growing rediscovery of his operas has been apparent Not least in this process has been the recovery of all the composer's private papers and their scholarly editing His life and work have been the subject of a growing number of informed studies which have enabled radical reassessment This volume takes a fresh look at this process of rediscovery by considering the composer in terms of the primary sources diaries and letters now available for forming a more complete and detailed biography unclouded by prejudicial or uninformed opinions The extraordinary nature of Meyerbeer's Jewish background and the role of this family in Prussian emancipation are also considered Most importantly however his life and works are presented in a critical chronology that is fundamentally based on his own private papers with testimony both

positive and negative from many contemporary sources A detailed iconography is integral to this process and helps to bring Meyerbeer's story and music more vividly to life

Eighteenth-Century Ireland (New Gill History of Ireland 4) Ian McBride, 2009-10-02 The eighteenth century is in many ways the most problematic era in Irish history Traditionally the years from 1700 to 1775 have been short changed by historians who have concentrated overwhelmingly on the last quarter of the period Professor Ian McBride's survey the fourth in the New Gill History of Ireland series seeks to correct that balance At the same time it provides an accessible and fresh account of the bloody rebellion of 1798 the subject of so much controversy The eighteenth century was the heyday of the Protestant Ascendancy Professor McBride explores the mental world of Protestant patriots from Molyneux and Swift to Grattan and Tone Uniquely however McBride also offers a history of the eighteenth century in which Protestant Catholic and Dissenter all receive due attention One of the greatest advances in recent historiography has been the recovery of Catholic attitudes during the zenith of the Protestant Ascendancy Professor McBride's Eighteenth Century Ireland insists on the continuity of Catholic politics and traditions throughout the century so that the nationalist explosion in the 1790s appears not as a sudden earthquake but as the culmination of long standing religious and social tensions McBride also suggests a new interpretation of the penal laws in which themes of religious persecution and toleration are situated in their European context This holistic survey cuts through the clichés and lazy thinking that have characterised our understanding of the eighteenth century It sets a template for future understanding of that time

Eighteenth Century Ireland Table of Contents Introduction Part I Horizons English Difficulties and Irish Opportunities The Irish Enlightenment and its Enemies Ireland and the Ancien Régime Part II The Penal Era Religion and Society King William's Wars What Were the Penal Laws For How Catholic Ireland Survived Bishops Priests and People Part III The Ascendancy and its World Ascendancy Ireland Conflict and Consent Queen's and Captain's Right Agrarian Rebellion Part IV The Age of Revolutions The Patriot Soldier A Brotherhood of Affection 1798

The Birth of a Great Power System, 1740-1815 Hamish Scott, 2014-07-22 The Birth of a Great Power System 1740-1815 examines a key development in modern European history the origins and emergence of a competitive state system H M Scott demonstrates how the well known and dramatic events of these decades the emergence of Russia and Prussia the three partitions of Poland the continuing retreat of the Ottoman Empire the unprecedented territorial expansion of Revolutionary and Napoleonic France halted by the final defeat of Napoleon were part of a wider process that created the modern great power system dominated by Europe's five leading states Enhanced by maps and a chronology of principal events this comprehensive and accessible textbook is fully up to date in its coverage of recent scholarship Unlike many other treatments of this period Scott extends his beyond the French Revolution of 1789 in order to demonstrate how events both before and after this great upheaval merged to produce the central political development in modern European history This book addresses the crucial phase in the emergence of the modern international system which with the subsequent addition of the USA Japan and Russia has prevailed until the present

day
