Rising To The Challenge In Asia A Study Of Financial Markets Volume 1 An Overview:

Labor Market Distortions, Rural-Urban Inequality, and the Opening of the People's Republic of China Economy Thomas Hertel, 2008-05 Evaluates the impact of some key factor market reforms on rural urban inequality income distribution using a household disaggregated recursive dynamic computable general equilibrium model of the People's Republic of China It also explores how these factor market reforms interact with product market reforms currently under way as part of the country's World Trade Org WTO accession process The simulation results show that reforms in the rural land rental market hukou system as well as increasing off farm labor mobility would reduce the urban rural income ratio dramatically Furthermore the combination of WTO accession factor market reforms improves both efficiency equality significantly Charts tables graphs

Rising to the Challenge in Asia: People's Republic of China Asian Development Bank, 1999 **Developing Asian Bondmarkets** Takatoshi Ito, Yung Chul Park, 2014-01-10 The absence of vibrant bondmarkets in East Asia was a significant contributor to the 1997-98 financial crisis Ever since the development of local bondmarkets has been a major objective of financial reforms in many East Asian economies This effort has been frustrated by the inability to reach a consensus on whether Asian bondmarkets are truly needed in East Asia whether they can be made viable in the competitive environment of the global economy how they should be created and what role intergovernmental cooperation should play in their definition and creation **Developing Asian Bondmarkets** helps build this consensus proposing how to develop robust and efficient bondmarkets in East Asia This book the first of its kind comes from the Finance Forum of the Pacific Economic Cooperation Council **Measuring Competitiveness in the World's Smallest Economies** Ganeshan Wignaraja, 2008-05 Attempts to measure competitiveness CP across countries have typically neglected the world's smallest economies Hence a simple composite index the Small State Manufactured Export CP Index or SSMECI was developed to benchmark industrial CP The SSMECI represents the first attempt to provide a comprehensive picture of the CP performance of small states The performance of small states varies across geographical regions income groups country size classes High performing small states had better macroeconomic conditions higher levels of foreign investment more trade openness better levels of education modern infrastructure A coherent market oriented CP strategy in small states is vital to success on international markets Tables

Rising to the Challenge in Asia: Sound practices Asian Development Bank, 1999 Practices of Poverty Measurement and Poverty Profile of Nepal Devendra Chhetry, 2009-03 Reviews the poverty measuring practices available measures of poverty and economic growth figures of Nepal The poverty rates for FY 1976-77 1984-85 and 1995-96 are found to be not comparable due to change in methodology over time The three poverty rates average 40% Nepal has experienced high economic growth during the 7th 1985-86 to 1989-90 and 8th 1992-93 to 1996-97 Plan periods with no strong evidences of poverty reduction This incompatible result is partially explained by comparing growth of the agricultural sector with the role of the sector in providing employment and income generation at the household level and by comparing social indicators

particularly literacy rate with the growth of the nonagricultural sector Tables ERD Working Paper Series ,2002

Rising to the Challenge in Asia: Special issues Asian Development Bank,1999 New Paradigm in Macroeconomics

R. Werner,2005-03-21 Modern mainstream economics is attracting an increasing number of critics of its high degree of abstraction and lack of relevance to economic reality Economists are calling for a better reflection of the reality of imperfect information the role of banks and credit markets the mechanisms of economic growth the role of institutions and the possibility that markets may not clear While it is one thing to find flaws in current mainstream economics it is another to offer an alternative paradigm which can explain as much as the old but can also account for the many anomalies That is what this book attempts Since one of the biggest empirical challenges to the old paradigm has been raised by the second largest economy in the world Japan this book puts the proposed new paradigm to the severe test of the Japanese macroeconomic reality The Economies of Southeast Asia Teofilo C. Daquila,2005 This book analyses the growth development and crisis experiences of the Southeast Asian economies in particular Indonesia Malaysia the Philippines Singapore and Thailand also known as ASEAN 5 The proposition is developed that the robust economic performance of the Southeast Asian economies during the past four decades has been attributed to the various factors developments and independent national policies which have been pursued by the individual member countries rather than to any regional economic framework The book covers eleven topics which is suitable for a one semester course on the economics of Southeast Asia Also it has a narrower area coverage as it focuses only on the five economies namely Indonesia Malaysia the Philippines Singapore and Thailand The sectoral treatment of the crisis impact and the analytical treatment of policy responses to the crisis differentiate this book from other publications on the same topic Finally this book provides an analysis of national developments policies and factors which have contributed to the economic transformation of the respective Southeast Asian economies
