Security Risk Assessment John M. White, 2014-07-22 Security Risk Assessment is the most up to date and comprehensive resource available on how to conduct a thorough security assessment for any organization A good security

assessment is a fact finding process that determines an organization's state of security protection. It exposes vulnerabilities, determines the potential for losses, and devises a plan to address these security concerns. While most security professionals have heard of a security assessment, many do not know how to conduct one, how it's used, or how to evaluate what they have found. Security Risk Assessment offers security professionals step-by-step guidance for conducting a complete risk assessment. It provides a template drawn from giving security professionals the tools needed to conduct an assessment using the most current approaches, theories, and best practices. Discusses practical and proven techniques for effectively conducting security assessments. Includes interview guides, checklists, and sample reports. Accessibly written for security professionals with different levels of experience conducting security assessments. **(ISC)2 CCSP Certified Cloud Security**
