Risks of Unintentional Nuclear War Daniel Frei, Christian Catrina, 1982 Bog om risikoen for udbrud af storkrig ved en fejltagelse The Risk of Accidental Nuclear War Andrea Demchuk, Canadian Institute for International Peace and Security, 1986 Preventing the Use of Weapons of Mass Destruction Eric Herring, 2013-01-11 These studies concentrate on preventing the use of weapons of mass destruction A common argument runs through all of the papers that while complacency must be avoided much of the post Cold War focus among Western governments on the threat posed by weapons of mass destruction is alarmist **The Routledge Handbook of Global Ethics** Darrel Moellendorf, Heather Widdows, 2015-05-08 Global ethics focuses on the most pressing contemporary ethical issues poverty global trade terrorism torture pollution climate change and the management of scarce resources It draws on moral and political philosophy political and social science empirical research and real world policy and activism The Routledge Handbook of Global Ethics is an outstanding reference source to the key topics problems and debates in this exciting subject presenting an authoritative overview of the most significant issues and ideas in global ethics The 31 chapters by a team of international contributors are structured into six key parts normative theory conflict and violence poverty and development economic justice bioethics and health justice environment and climate ethics Covering the theoretical and practical aspects of global ethics as well as policy The Routledge Handbook of Philosophy of Global Ethics provides a benchmark for the study of global ethics to date as well as outlining future developments It will prove an invaluable reference for policy makers and is essential reading for students and researchers in philosophy international relations political science environmental and development studies and human rights law *Risks of Unintentional Nuclear War* Daniel Frei, 1982-01-01 **Countering the Proliferation of Weapons of Mass Destruction** Thanos P Dokos, 2020-07-24 As counter proliferation is expected to become the central element in the new national security policy of the US such actions will constitute a central element of every major international conflict in the first decades of the 21st century One of the most important geostrategic phenomena of the past decade has been the extraordinary diffusion of war making capabilities from the developed North to the developing South In the eyes of some proliferant states possessing nuclear biological and chemical NBC weapons would not only add to their regional stature but would also offer an asymmetrical counter to the West's massive superiority in conventional forces In the Eastern Mediterranean and the Middle East a number of countries are assumed to possess varying levels of NBC weapons capabilities Reasons for concern include the fact that such weapons have been used in the past the region's geographic proximity to Europe and the vital interests of the West which is prepared under certain circumstances to use force to protect them the multiplicity of conflicts and other security problems and the general instability in the region including the spread of religious extremism This important and timely book assesses in detail the accuracy of predictions and perceptions about a possible military threat from the Southern Mediterranean Muslim world and their impact on NATO's political and military

posture Thanos P Doxos presents an assessment of the Alliance's options for dealing with the problem This book represents an invaluable topical resource for researchers and policy makers

The Waning of Major War Raimo

Vayrynen,2013-10-31 This book is a systematic effort by leading international scholars to map the trends in major power warfare and explore whether it is waxing or waning The main point of departure is that major power war as a historical institution is in decline This does not mean though that wars between states are in general disappearing While there is some convergence in the conclusions by individual authors they are by no means unanimous about the trend The articles explore different causes and correlates of the declining trend in major power warfare including the impact of the international structure nuclear weapons international law multilateral institutions sovereignty and value changes

The Oxford

Handbook of International Security Alexandra Gheciu,William C. Wohlforth,2018-03-08 This Oxford Handbook is the definitive volume on the state of international security and the academic field of security studies It provides a tour of the most innovative and exciting news areas of research as well as major developments in established lines of inquiry It presents a comprehensive portrait of an exciting field with a distinctively forward looking theme focusing on the question what does it mean to think about the future of international security The key assumption underpinning this volume is that all scholarly claims about international security both normative and positive have implications for the future By examining international security to extract implications for the future the volume provides clarity about the real meaning and practical implications for those involved in this field Yet contributions to this volume are not exclusively forecasts or prognostications and the volume reflects the fact that within the field of security studies there are diverse views on how to think about the future Readers will find in this volume some of the most influential mainstream positivist voices in the field of international security as well as some of the best known scholars representing various branches of critical thinking about security The topics covered in the Handbook range from conventional international security themes such as arms control alliances and Great Power politics to new security issues such as global health the roles of non state actors cyber security and the power of visual representations in international security The Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smit of the University of Queensland and Duncan Snidal of the University of Oxford with each volume edited by specialists in the field The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of Reus Smit and Snidal's original Oxford Handbook of International Relations each volume is organized around a strong central thematic by scholars drawn from different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions
