Risks, Benefits, and Controversies in Fertility Control John J. Sciarra, Gerald I. Zatuchni, John Joseph Speidel, 1978-01-01

Fertility Control S.L. Corson, R.J. Derman, 1995-12-15 This is the second edition of Corson Derman and Tyrer's complete medical textbook on fertility control. It has been revised and fully updated to include details about oral contraceptives and new progestins, the female condom, hormonal implantation, new information about IUDs and the biochemistry, biological effects and uses of mifepristone RU 486. Family Planning Deborah Maine, 1981 **Current Catalog** National Library of Medicine (U.S.), 1979 Includes subject section, name section and 1968-1970 technical reports **Second Report on Intrauterine Contraceptive Devices** United States. Food and Drug Administration. Medical Device Advisory Committee on Obstetrics and Gynecology, 1978 **Prevention and Treatment of Contraceptive Failure** S. Ratnam, 2012-12-06 The International Women's Health Coalition was pleased to be the convenor and host of the first Christopher Tietze International Symposium held in Berlin in September 1985. The papers in this volume represent a wide range of international views and experience with the prevention and treatment of contraceptive failure. We believe the issues discussed at the Tietze Symposium to be of interest and concern to women throughout the world and to those who would serve them. The Coalition intends to have broad distribution of this volume and encourages those interested in these issues to be in touch with the Coalition in New York City (see address below). We would like to thank The Ford Foundation, Stewart Mott, The David and Lucile Packard Foundation, the Population Crisis Committee, and The Rockefeller Foundation for their support of this Symposium. In particular, we would like to express our appreciation to Sarah Lewit Tietze and Uta Landy for the devotion and dedication which made this Symposium possible and a worthy memorial to Christopher Tietze. Medical and Psychological Impact of Abortion United States. Congress. House. Committee on Government Operations. Human Resources and Intergovernmental Relations Subcommittee, 1989 **Second-Trimester Abortion** G. Berger, W.E. Brenner, L.G. Keith, 2012-12-06 Irvin M. Cushner MD MPH It is both remarkable and at the same time a sign of this era of rapid change that one can refer back to the infancy of a field which has existed for barely more than a decade. Yet one now reads of the maturing of the family planning and abortion fields, both of which were incorporated into our society and integrated into our health care system within the past ten years. Indeed, in the very year that this book is being prepared, we note the tenth anniversaries of several significant events of 1970: 1. the enactment of Title X of the Public Health Service Act establishing a Federal program in family planning; 2. the first issuance by a major health-related organization, the APHA, of a policy statement advocating repeal of all abortion laws; and 3. the enactment by New York State of an abortion law whose only restriction was that it be performed by a licensed physician and the subsequent action, the first by any local health department, New York City, to assure both its implementation and its quality. They were indeed eventful days. These three events seemed to presage a then unprecedented acceptance of fertility regulation as a right and as a needed service. **Risks, Benefits and**
