of creation and destruction A mantra that imitates creation is believed to be more creative and effective in producing a real world result Drawing from linguistics semiotics anthropology and philosophy as well as the history of religions the author argues that mantras and other ritual discourses use rhetorical devices including imitation to construct the persuasive illusion of a natural language one with a direct and immediate connection to reality This vital relation between poetry and ritual has been neglected in many current theories of religion Explaining Mantras combines the study of ancient Tantric rituals with the latest theories in the human sciences and will be of interest to a broad range of readers *Tantra in Practice* David Gordon White, 2018-06-26 As David White explains in the Introduction to *Tantra in Practice* Tantra is an Asian body of beliefs and practices that seeks to channel the divine energy that grounds the universe in creative and liberating ways The subsequent chapters reflect the wide geographical and temporal scope of Tantra by examining thirty six texts from China India Japan Nepal and Tibet ranging from the seventh century to the present day and representing the full range of Tantric experience Buddhist Hindu Jain and even Islamic Each text has been chosen and translated often for the first time by an international expert in the field who also provides detailed background material Students of Asian religions and general readers alike will find the book rich and informative The book includes plays transcribed interviews poetry parodies inscriptions instructional texts scriptures philosophical conjectures dreams and astronomical speculations each text illustrating one of the diverse traditions and practices of Tantra Thus the nineteenth century Indian Buddhist Garland of Gems a series of songs warns against the illusion of appearance by referring to bees yogurt and the fire of Malaya Mountain while fourteenth century Chinese Buddhist manuscripts detail how to prosper through the Seven Stars of the Northern Dipper by burning incense making offerings to scriptures and chanting incantations In a transcribed conversation a modern Hindu priest in Bengal candidly explains how he serves the black Goddess Kali and feeds temple skulls lentils wine or rice a seventeenth century Nepalese Hindu praise poem hammered into the golden doors to the temple of the Goddess Taleju lists a king's faults and begs her forgiveness and grace An introduction accompanies each text identifying its period and genre discussing the history and influence of the work and identifying points of particular interest or difficulty The first book to bring together texts from the entire range of Tantric phenomena *Tantra in Practice* continues the Princeton Readings in Religions series The breadth of work included geographic areas spanned and expert scholarship highlighting each piece serve to expand our understanding of what it means to practice Tantra *Tracing the Path of Yoga* Stuart Ray Sarbacker, 2021-01-01 Clear accessible and meticulously annotated *Tracing the Path of Yoga* offers a comprehensive survey of the history and philosophy of yoga that will be invaluable to both specialists and to nonspecialists seeking a deeper understanding of this fascinating subject Stuart Ray Sarbacker argues that yoga can be understood first and foremost as a discipline of mind and body that is represented in its narrative and philosophical literature as resulting in both numinous and cessative accomplishments that correspond respectively to the attainment of this worldly power and otherworldly liberation Sarbacker demonstrates how the yogic quest

for perfection as such is situated within the concrete realities of human life intersecting with issues of politics economics class gender and sexuality as well as reflecting larger Indic religious and philosophical ideals **Yogi Heroes and Poets** David N.
