The Myth Of Decline George L Bernstein, 2011-05-31 This history of Britain since 1945 confronts two themes that have dominated British consciousness during the post war era the myth of decline and the pervasiveness of American influence The political narrative is about the struggle to maintain a power that was illusory and from 1960 on to reverse an economic decline that was nearly as illusory The British economy had its problems which are fully analyzed however they were counterbalanced by an unparalleled prosperity At the same time there was a social and cultural revolution which resulted in a more exciting dynamic society While there was much American influence there was no Americanization American influences were incorporated with many others into a new and less stodgy British culture Contrary to conventional wisdom this groundbreaking book finds that the story of Britain since the war is marked not by decline but by progress on almost all fronts

Studies in the Rhetoric of Fiction Ana-Karina Schneider, 2015-09-18 Studies in the Rhetoric of Fiction investigates the contemporary novel's relation to its forerunners the picaresques romances and sentimental novels of the 18th century Henry Fielding Laurence Sterne and Jane Austen are stable landmarks while of the contemporary practitioners a handful recur from one chapter to the next particularly Julian Barnes Ian McEwan and Kazuo

Ishiguro The chapters share an interest in the rhetoric of fiction broadly understood as the way in which fictional works achieve their effects on readers whether by directly addressing a hypothetical reader using irony and parody orchestrating competitions between divergent narratives imitating musical structures inviting intertextual readings or openly taking issue with traditional conventions and expectations Chapters focusing on narrative strategy and metanarrative comment therefore alternate with those interrogating reading practices and readerly participation in the rhetorical interchange This collection of essays however does not propose a consistent theory of the rhetoric of fiction nor does it claim any generalisable validity for its findings Rather it consists of a series of readings that address various formal aspects of the novels they focus on showing rhetoric in action pointing out the complex ways in which its means and strategies change in time and across genres and media It restores a sense that whatever old tricks the author or narrator is perceived to be up to they are an invitation to the reader to take part in the fun The book will appeal to students and scholars in the early stages of their research encouraging readings that identify rhetorical strategies that challenge conventional forms and expectations It is therefore largely free of rhetorical terminology making sparing use of it when distinctions must be drawn and the more technical aspects of novels are interrogated

Dante and Milton Christoph Lehner, Christoph Singer, 2016-01-14 Dante Alighieri and John Milton two composers of vernacular epic poems undoubtedly hold prominent positions in the literary canons of Italy and England respectively Both authors have been made into universally important icons deeply engrained in the world's cultural memory their importance however extends vastly beyond their mere literary and political influence This anthology explores the synchronic and diachronic constructions of Dante and Milton as such culturally produced icons The main focus of the contributions in this collection is the production of cultural memory regarding Dante and Milton The juxtaposition and comparison of the two authors invites a broader perspective that goes beyond merely national contexts as it touches on the question of the emergence of a European Dante and a European Milton At the same time the comparison of both allows for an exploration of various processes namely of appropriating forgetting and side lining parts of their histories and politics processes which the works and legacies of both authors have been subjected to throughout their literary and cultural reception

A Companion to Ælfric Hugh Magennis, Mary Swan, 2009-06-02 This collection provides a new authoritative and challenging study of the life and works of Ælfric of Eynsham the most important vernacular religious writer in the history of Anglo Saxon England The contributors include almost all of the key Ælfric scholars working today and some important newer voices Each of the chapters is a cutting edge piece of work which addresses one aspect of Ælfric's works or career The chapters are organised topically rather than by chronology genre or biography and between them cover the entire Ælfrician corpus and the major contextual issues consideration of Ælfric's Latin writings is carefully integrated with that of his Old English works Ælfric studies are currently a central element of Anglo Saxon studies but while to date there has been a great deal of detailed work on some aspects of Ælfric this collection provides the first overview Contributors Hugh Magennis Joyce
