Long Nineteenth Century A History Of Germany 1780 1918

David Blackbourn

Long Nineteenth Century A History Of Germany 1780 1918:

The Long Nineteenth Century David Blackbourn, 1998 In the late eighteenth century German speaking Europe was a patchwork of principalities and lordships Most people lived in the countryside and just half survived until their late twenties By the beginning of our own century unified Germany was the most powerful state in Europe No longer a provincial land of poets and thinkers the country had been transformed into an industrial and military giant with an advanced welfare system The Long Nineteenth Century A History of Germany 1780 1918 is a masterful account of this transformation Spanning 150 years from the eve of the French Revolution to the end of World War I it introduces students to crucial areas of German social and cultural history demography and social structure work and leisure education and religion while providing a comprehensive account of political events The text explains how Germany came to be unified and the consequences of that unification It describes the growing role of the state and new ways in which rulers asserted their authority but questions clichés about German obedience It also looks at the ways in which the factory the railway and the movement into towns created new social relations and altered perceptions of time and place Drawing on a generation of work devoted to migration housing crime medicine and popular culture Blackbourn offers a powerful and original account of a changing society trying to do justice to the experiences of contemporary Germans both women and men Informed by the latest scholarship The Long Nineteenth Century A History of Germany 1780 1918 provides a complete and up to date alternative to conventional political histories of this period and is essential reading for undergraduates in German history and political science courses

History of Germany 1780-1918 David Blackbourn, 2002-10-11 This history offers a powerful and original account of Germany from the eve of the French Revolution to the end of World War One Written by a leading German historian who has transformed the historiography of modern Germany over the past two decades Covers the whole of the long nineteenth century and emphasizes continuities through this period Brings together political social and cultural history Combines a comprehensive account with a feel for the human dimension and the history of everyday life Accessible to non specialists thought provoking and entertaining The updated second edition includes a revised bibliography

The Long Nineteenth Century David Blackbourn, 2012-01-01 A description of life society and politics in the German territories in the 19th century

Fontana History of Germany, 1780-1918 David Blackbourn, 1997 In 1815 90 per cent of the German population were involved in agriculture and craft production were stubbornly loyal to their village home town or city and lived in what was then a massively decentralized state By 1871 Bismarck and the Prussian army had united the country transforming Germany from a land of poets and thinkers to one which arguably outdid Britain in its enthusiasm for the new media of the railway and the telegraph Yet by 1914 German politics had become febrile and unstable Mixing social political and economic history David Blackbourn analyzes the degree of German responsibility for the outbreak of World War I and traces the further dramatic changes in peoples incomes and status as the social economic and cultural tensions that had been submerged in the

previous decades suddenly came to a head *Jewish Scholarship and Culture in Nineteenth-Century Germany* Nils Roemer, 2005-10-01 German Jews were fully assimilated and secularized in the nineteenth century or so it is commonly assumed In *Jewish Scholarship and Culture in the Nineteenth Century* Nils Roemer challenges this assumption finding that religious sentiments concepts and rhetoric found expression through a newly emerging theological historicism at the center of modern German Jewish culture Modern German Jewish identity developed during the struggle for emancipation debates about religious and cultural renewal and battles against anti-Semitism A key component of this identity was historical memory which Jewish scholars had begun to infuse with theological perspectives beginning in the 1850s After German reunification in the early 1870s Jewish intellectuals reevaluated their enthusiastic embrace of liberalism and secularism Without abandoning the ideal of tolerance they asserted a right to cultural religious difference for themselves an ideal they held to even more tightly in the face of growing anti-Semitism This newly re-theologized Jewish history Roemer argues helped German Jews fend off anti-Semitic attacks by strengthening their own sense of their culture and tradition *Market Strategies and German Literature in the Long Nineteenth Century* Vance Byrd, Ervin Malakaj, 2020-01-20 Building upon recent German Studies research addressing the industrialization of printing the expansion of publication venues new publication formats and readership *Market Strategies* maps a networked literary field in which the production promotion and reception of literature from the Enlightenment to World War II emerges as a collaborative enterprise driven by the interests of actors and institutions These essays demonstrate how a network of authors editors and publishers devised mutually beneficial and at times conflicting strategies for achieving success on the rapidly evolving nineteenth century German literary market In particular the contributors consider how these actors shaped a nineteenth century literary market which included the Jewish press highbrow and lowbrow genres and modernist publications They explore the tensions felt as markets expanded and restrictions were imposed which yielded resilient new publication strategies fostered criticism and led to formal innovations The volume thus serves as major contribution to interdisciplinary research in nineteenth century German literary media and cultural studies **The German Roots of Nineteenth-Century American Theology** Annette G. Aubert, 2013-10-03 This book explores the influences of German theology on Emanuel Gerhart and Charles Hodge two Reformed theologians who addressed questions concerning method and atonement theology in light of modernism and new scientific theories *A History of Migration from Germany to Canada, 1850-1939* Jonathan Wagner, 2006 Human migration figures prominently in modern world history and has played a pivotal role in shaping the Canadian national state Yet while much has been written about Canada's multicultural heritage little attention has been paid to German migrants although they compose Canada's third largest European ethnic minority *A History of Migration from Germany to Canada 1850-1939* addresses that gap in the record Jonathan Wagner considers why Germans left their home country why they chose to settle in Canada who assisted their passage and how they crossed the ocean to their new home as well as how the Canadian

government perceived and solicited them as immigrants He examines the German context as closely as developments in Canada offering a new more complete approach to German Canadian immigration This book will appeal to students of German Canadiana as well as to those interested in Canadian ethnic history and European and modern international migration

Nineteenth-Century Europe Michael Rapport,2018-08-11 A core introductory textbook that provides students with an overview of the key issues in Europe s long nineteenth century from the French Revolution in 1789 until the outbreak of the First World War in 1914 Telling the story of how Europeans entered politics in the fiery trials of revolution and industrialization the text opens with the French Revolution passes through the crucible of the 1848 Revolutions and ends with the emergence of mass movements socialist revolutionary nationalist and authoritarian which anticipated those of the twentieth century This is an ideal text for modules on Modern European History or Nineteenth Century Europe which may be offered at all levels of an undergraduate History or European Studies degree In addition it is a crucial resource for students who may be studying nineteenth century Europe for the first time as part of a taught postgraduate degree in Modern History or European Studies

Theology and the University in Nineteenth-Century Germany Zachary Purvis,2016-07-21 Theology and the University in Nineteenth Century Germany examines the dual transformation of institutions and ideas that led to the emergence of theology as science the paradigmatic project of modern theology associated with Friedrich Schleiermacher Beginning with earlier educational reforms across central Europe and especially following the upheavals of the Napoleonic period an impressive list of provocateurs iconoclasts and guardians of the old faith all confronted the nature of the university the organization of knowledge and the unity of theology s various parts quandaries which together bore the collective name of theological encyclopedia Schleiermacher s remarkably influential programme pioneered the structure and content of the theological curriculum and laid the groundwork for theology s historicization Zachary Purvis offers a comprehensive investigation of Schleiermacher s programme through the era s two predominant schools speculative theology and mediating theology Purvis highlights that the endeavour ultimately collapsed in the context of Wilhelmine Germany and the Weimar Republic beset by the rise of religious studies radical disciplinary specialization a crisis of historicism and the attacks of dialectical theology In short the project represented university theology par excellence Engaging in detail with these developments Purvis weaves the story of modern university theology into the broader tapestry of German and European intellectual culture with periodic comparisons to other national contexts In doing so he Purvis presents a substantially new way to understand the relationship between theology and the university both in nineteenth century Germany and indeed beyond

Franz Liszt Erika Quinn,2014-08-07 This biography of the musician Franz Liszt contributes to our understanding of national identity formation and its interaction with cosmopolitanism Liszt exemplified the nineteenth century quest for subjective definition and fulfillment Seeking to gain agency authority and community Liszt experimented with various subject positions from which to forward his goals The stances he selected anchored in ideas about

nation religion and art allowed him to retain his cosmopolitan sensibility while making specific aesthetic and creative claims Quinn s analysis of Liszt s correspondence and musical criticism as well as of contemporary reviews of his performances compositions and essays demonstrates the lack of a nationalist exclusivity in Liszt s life was a historical phenomenon rather than a personal quirk as previous scholarship has often claimed Food, Culture and Identity in Germany's Century of War Heather Merle Benbow, Heather R. Perry, 2019-11-18 Even in the harsh conditions of total war food is much more than a daily necessity however scarce it is social glue and an identity marker a form of power and a weapon of war This collection examines the significance of food and hunger in Germany s turbulent twentieth century Food centered perspectives and experiences from below reveal the social cultural and political consequences of three conflicts that defined the twentieth century the First and Second World Wars and the ensuing global Cold War Emerging and established scholars examine the analytical salience of food in the context of twentieth century Germany while pushing conventional temporal frameworks and disciplinary boundaries Together these chapters interrogate the ways in which deeper studies of food culture in Germany can shed new light on old wars The Statesman's Yearbook 2001 B. Turner, 2016-12-29 For the last 137 years The Statesman s Yearbook has been relied upon to provide accurate and comprehensive information on the current political economic and social status of every country in the world The appointment of the new editor only the seventh in 137 years brought enhancements to the 1998 99 edition and these have been continued since then Internet usage figures are included Specially commissioned essays from major political and academic figures supplement country entries in areas of major upheaval and change A fold out colour section provides a political world map and flags for the 191 countries of the world The task of monitoring the pattern or flow of world change is never ending However the annual publication of The Statesman s Yearbook gives all the information needed in one easily digestible single volume It will save hours of research and cross referencing between different sources A prestigious and popular book The Statesman s Yearbook is updated every 12 months In a world of continual change The Statesman s Yearbook is a necessary annual purchase *The War Against Catholicism* Michael B. Gross, 2004 This is an innovative and important study of the relationship between Catholicism and liberalism the two most significant and irreconcilable movements in nineteenth century Germany Enduring Controversies in Military History Spencer C. Tucker, 2017-09-21 This provocative examination of major controversies in military history enables readers to learn how scholars approach controversial topics and provides a model for students in the study and discussion of other historical events Why did Alexander the Great s empire fall apart so soon after his death How did France win the Hundred Years War despite England winning its major battles Was slavery the primary cause of the American Civil War Would it have benefited the Allies militarily to have gone to war against Germany in 1938 rather than in 1939 Should women be allowed to serve in combat positions in the U S military All of these questions and many other historical controversies are addressed in this thought provoking reference book By exploring every angle of some of the most contentious debates involving military

history this book builds students critical thinking skills by supplying a complete background of the controversial topic to provide context and also by providing multiple perspective essays written by top scholars in the field The perspective essays present arguments for different positions on the controversy Readers will consider the cases for and against whether Hannibal should have marched on Rome after his momentous victory at Cannae whether the United States was justified in using the atomic bomb in Japan whether Adolf Hitler was primarily responsible for the Holocaust and whether torturing prisoners during the War on Terror is warranted among many other historical military debates The Statesman's Yearbook 2003 Barry Turner,2016-12-30 For nearly one hundred and forty years The Statesman s Yearbook has been relied upon to provide accurate and comprehensive information on the current political economic and social status of every country in the world The appointment of the new editor only the seventh in the book s history brought enhancements to the 1998 99 edition and these have been continued since then The 2003 edition is fully updated and contains more information than ever before including for the first time websites for national governments and international organizations A foldout colour section provides a political world map and flags for the one hundred and ninety two countries of the world In an endlessly changing world the annual publication of The Statesman s Yearbook gives all the information you need in one easily digestible single volume It will save hours of research and cross referencing between different sources and it is an essential annual purchase

Histories of Nationalism in Ireland and Germany Shane Nagle,2016-12-15 Focusing on the era in which the modern idea of nationalism emerged as a way of establishing the preferred political cultural and social order for society this book demonstrates that across different European societies the most important constituent of nationalism has been a specific understanding of the nation s historical past Analysing Ireland and Germany two largely unconnected societies in which the past was peculiarly contemporary in politics and where the meaning of the nation was highly contested this volume examines how narratives of origins religion territory and race produced by historians who were central figures in the cultural and intellectual histories of both countries interacted it also explores the similarities and differences between the interactions in these societies *Histories of Nationalism in Ireland and Germany* investigates whether we can speak of a particular common form of nationalism in Europe The book draws attention to cultural and intellectual links between the Irish and the Germans during this period and what this meant for how people in either society understood their national identity in a pivotal time for the development of the historical discipline in Europe Contributing to a growing body of research on the transnationality of nationalism this new study of a hitherto unexplored area will be of interest to historians of modern Germany and Ireland comparative and transnational historians and students and scholars of nationalism as well as those interested in the relationship between biography and writing history **An Economic History of Nineteenth-Century Europe** Ivan Berend,2013 A transnational survey of the economic development of Europe exploring why some regions advanced and some stayed behind *Beyond the Barricades* Anna Ross,2018-12-20 *Beyond the Barricades* is an original study of government

after the 1848 revolutions It focuses on the state of Prussia where a number of conservative ministers sought to learn lessons from their experiences of upheaval and introduce a wave of reform in the 1850s Using extensive archival research the work explores Prussia s entry into the constitutional age charting initiatives to transform criminal justice agriculture industry communications urban life and the press Reform strengthened contact with the Prussian population making this a classic episode of state building but Beyond the Barricades seeks to go further It makes a case for taking notice of government activity at this particular juncture because the measures endorsed by conservative statesmen in the 1850s sought to remove the feudal intermediaries that had lingered long into the nineteenth century and replace them with an array of government institutions legal regimes and official practices In sum this book recasts the post revolutionary decade as a period which saw the transition from an old to a new world pivotal to the making of modern Prussia and ultimately modern Germany

National Monuments and Nationalism in 19th Century Germany Hans A. Pohlsander, 2008 No century in modern European history has built monuments with more enthusiasm than the 19th Of the hundreds of monuments erected those which sprang from a nation wide initiative and addressed themselves to a nation rather than part of a nation we may call national monuments Nelson s Column in London or the Arc de Triomphe in Paris are obvious examples In Germany the 19th century witnessed a veritable flood of monuments many of which rank as national monuments These reflected and contributed to a developing sense of national identity and the search for national unity they also document an unsuccessful effort to create a genuinely German style They constitute a historical record quite apart from aesthetic appeal or ideological message As this historical record is examined German national monuments of the 19th century are described and interpreted against the background of the nationalism which gave birth to them

Unveiling the Magic of Words: A Overview of "**Long Nineteenth Century A History Of Germany 1780 1918**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring. Long Nineteenth Century A History Of Germany 1780 1918 Introduction

In the digital age, access to information has become easier than ever before. The ability to download Long Nineteenth Century A History Of Germany 1780 1918 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Long Nineteenth Century A History Of Germany 1780 1918 has opened up a world of possibilities. Downloading Long Nineteenth Century A History Of Germany 1780 1918 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Long Nineteenth Century A History Of Germany 1780 1918 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Long Nineteenth Century A History Of Germany 1780 1918. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Long Nineteenth Century A History Of Germany 1780 1918. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Long Nineteenth Century A History Of Germany 1780 1918, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves,

individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Long Nineteenth Century A History Of Germany 1780 1918 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Long Nineteenth Century A History Of Germany 1780 1918 Books

1. Where can I buy Long Nineteenth Century A History Of Germany 1780 1918 books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores.
