A History of Personality Psychology Frank Dumont,2010-02-18 In this book Frank Dumont presents personality psychology with a fresh description of its current status as well as its prospects Play sex cuisine creativity altruism pets grieving rituals and other oft neglected topics broaden the scope of this fascinating study This tract is imbued with historical perspectives that reveal the continuity in the evolving science and research of this discipline over the past century The author places classic schemas and constructs as well as current principles in the context of their socio political catalysts He further relates this study of the person to life span developmental issues and to cultural gender specific trait based genetic epigenetic and evolutionary research findings Personality psychology has recently reconciled itself to more modest paradigms for describing explaining and predicting human behaviour than it generated in the 19th and 20th centuries This book documents that transformation providing valuable information for health service professionals as well as to teachers researchers and scientists

The Song of the Cell Siddhartha Mukherjee,2022-10-25 Winner of the 2023 PROSE Award for Excellence in Biological and Life Sciences and the 2023 Chautauqua Prize Named a New York Times Notable Book and a Best Book of the Year by The Economist Oprah Daily BookPage Book Riot the New York Public Library and more In *The Song of the Cell* the extraordinary author of the Pulitzer Prize winning *The Emperor of All Maladies* and the 1 New York Times bestseller *The Gene* blends cutting edge research impeccable scholarship intrepid reporting and gorgeous prose into an encyclopedic study that reads like a literary page turner Oprah Daily Mukherjee begins this magnificent story in the late 1600s when a distinguished English polymath Robert Hooke and an eccentric Dutch cloth merchant Antonie van Leeuwenhoek looked down their handmade microscopes What they saw introduced a radical concept that swept through biology and medicine touching virtually every aspect of the two sciences and altering both forever It was the fact that complex living organisms are assemblages of tiny self contained self regulating units Our organs our physiology our selves hearts blood brains are built from these compartments Hooke christened them cells The discovery of cells and the reframing of the human body as a cellular ecosystem announced the birth of a new kind of medicine based on the therapeutic manipulations of cells A hip fracture a cardiac arrest Alzheimer s dementia AIDS pneumonia lung cancer kidney failure arthritis COVID pneumonia all could be reconceived as the results of cells or systems of cells functioning abnormally And all

could be perceived as loci of cellular therapies Filled with writing so vivid lucid and suspenseful that complex science becomes thrilling The Song of the Cell tells the story of how scientists discovered cells began to understand them and are now using that knowledge to create new humans Told in six parts and laced with Mukherjee s own experience as a researcher a doctor and a prolific reader The Song of the Cell is both panoramic and intimate a masterpiece on what it means to be human In an account both lyrical and capacious Mukherjee takes us through an evolution of human understanding from the seventeenth century discovery that humans are made up of cells to our cutting edge technologies for manipulating and deploying cells for therapeutic purposes The New Yorker House of Cards Robyn Dawes,2009-11-24 Robin Dawes spares no one in this powerful critique of modern psychotherapeutic practice As Dawes points out we have all been swayed by the pop psych view of the world believing for example that self esteem is an essential precursor to being a productive human being that events in one s childhood affect one s fate as an adult and that you have to love yourself before you can love another **Progress, Pioneers And Process: Studies In Physiology And Genetic Medicine** Moyra Smith,2018-12-12 This book describes the growth of information on specific aspects of physiology and pathology of particular disorders and provides an analysis of the processes and contributions of pioneers to discovery It begins primarily in the second half of the 19th century and explores specific contributions of researchers through to the 20th and 21st centuries The book revisits specific aspects of physiology biochemistry and molecular biology relevant to genetic medicine In addition it provides a review of specific human disorders that the author has encountered during her career as well as an analysis of the progress in determining disease mechanisms and improving therapies The chapters in this book provide insights into the processes of research and discovery as well as how elucidation of disease mechanisms translates into research in diagnostics and treatments The book provides historical information and current information obtained from recent journals and presentations on each of the topics discussed **Responsibilities and Dispensations** Carl N. Edwards,2001 **Writings on Writing** Thomas H. Brennan,2024-10-18 From medieval to contemporary classic authors to journalists the writers quoted in this reference work bring to life the triumphs the musings the frustrations the insights of the craft of writing The more than 1 200 quotations are arranged under broad categories such as autobiography and biography books journalism poets and poetry words writers and language Each entry gives the author source and date Sources include essays journals diaries letters interviews and in a few instances fictional works **Persuasive Communication for Science and Technology Leaders** Stephen Wilbers,2022-11-14 Persuasive Communication for Science and Technology Leaders Explore this insightful guide to the development of persuasive leadership skills perfect for students and managers in technical fields Many technical managers receive little or no training in the persuasive arts Though technically skilled they often lack the ability to engage effectively with an audiences outside their field Persuasive Communication for Science and Technology Leaders Writing and Speaking with Confidence delivers a thorough treatment of how to connect with audiences whose knowledge values personal

experiences ethnic background gender and worldview may differ from their own Written in a highly readable and entertaining style this book goes beyond the scope of a standard textbook on persuasive communication Its practical lessons illustrate the techniques of effective scientific and technical writing while emphasizing values based leadership for a more just inclusive and sustainable world a theme that seems particularly pertinent during these times of multiple crises misinformation campaigns and science denial The distinguished speaker and author explores the broader importance of language and explains various techniques for expanding your expressive range and your professional influence He will also teach you methods for conveying information clearly and precisely as well as in ways that inspire and leave a lasting impression You will also benefit from A thorough introduction to knowing and connecting with your audience using voice tone and point of view for results and engaging your reader with compelling openings An exploration of explaining complex technologies clearly succeeding with challenging writing assignments and applying a variety of persuasive strategies for agile responses to a rapidly changing world An examination of speaking effectively while thinking on your feet including how to create a safety net and how to recover from momentary lapses Easy to remember guidance on avoiding common language errors that might undermine your credibility or worse yet make people stop listening to you Perfect for undergraduate and graduate students in scientific and technical fields such as engineering geology botany climatology and epidemiology Persuasive Communication for Science and Technology Leaders Writing and Speaking with Confidence will earn a place in the libraries of technical managers and leaders who seek to better connect with their audiences

Insult to Our Planet & The Florida Keys Jerrold J. Weinstock, 2017-12-29 Explore the Wonders Face the Reality The medical definition of INSULT is to cause some kind of physical or mental injury Through the eyes of this psychiatrist and his raw existential passion for the planet a web of insult is untangled to expose environmental degradation we face today and its impact on the human spirit For over fifty years Dr Weinstock has lived in the Florida Keys fishing the Atlantic and the Gulf waters off of Key West A prize winning angler he shares exciting stories of the past in this sport fishing mecca You ll feel the humidity as he fights the Permit on Boca Chica beach hear the screeching of the terns while bonefishing on Marvin Key Through twist and turns and stories of the mind the author demonstrates the healing power of nature Hundreds colorful photos display the glorious diversity of fish and natural beauty from Key West to Alaska exploring the uplifting and the dismal view At the helm are many years of research that uncover abuses of nature in the Florida Keys as a metaphor for global environmental tragedies
