Bilingual Thematic Dictionaries Martin Stark, 2011-10-27 This book is concerned with bilingual thematic dictionaries (BTDs). The three chief aims of the research project are: 1 to identify the characteristic features of the bilingual thematic dictionary; 2 to gauge its usefulness; and 3 to make suggestions as to how it could be improved. Various approaches are adopted in order to reveal the nature of the BTD. The typological approach considers the lexicographic genres: bilingual thematic and pedagogical, which have been combined to create this hybrid reference work. Particular attention is paid to the BTD's immediate forerunner and closest lexicographic relative, the monolingual thematic learner's dictionary. Detailed textual analyses of contemporary thematic dictionaries identify the characteristic features of the macrostructure, microstructure and other components from a structural perspective. In order to evaluate the usefulness of the BTD, features identified in the textual analyses are supplemented by three pieces of user research involving a questionnaire to elicit learners' opinions, a test on the effectiveness of the access structure and an experiment to discover how a learner uses a BTD.

The Literature of Contemporary Sierra Leone Ernest Cole, Mohamed Kamara, 2025-03-25 What are Sierra Leonean and diaspora authors writing about today? What genres are they working in? What are future possibilities and directions of travel? The ethnically and linguistically diverse nation of Sierra Leone boasts a rich cultural legacy and in the first decades of the twenty-first century has built an internationally recognized literary canon despite the ravages caused by a brutal civil war and then the Ebola and Covid pandemics. While acknowledging the country's literary and creative heritage dating back to the mid-twentieth century, this book interrogates a number of prominent themes and critical perspectives on Sierra Leone's contemporary literature. Drawing from body studies, post-colonial theory, spatial theory, trauma theory, ecocriticism, history and cultural studies, scholars and writers from West Africa and the United States tease out the beginnings, ecology and dynamism of a bona fide national literature. They do so through a careful examination of such themes as social oppression and class distinction, dystopia, ethnocentricity, homophobia, misogyny and gender disparities, anthropocentrism, self-discovery, social transformation.
