Looking For Loopholes Processes Of Incorporation Of Illegal Immigrants In The Netherlands:

Irregular Migrants in Belgium and the Netherlands Masja Meeteren, 2025-10-01 In *Irregular Migrants in Belgium and the Netherlands* Masja van Meeteren studies the different ways in which irregular migrants live in Belgium and the Netherlands. The book offers an empirically grounded theoretical critique of the dominant research practice that focuses on survival strategies, relies on comparisons of migrant communities and overemphasizes structural explanations. Instead, *Irregular Migrants* takes irregular migrants' aspirations as a starting point of analysis. Based on this innovative research approach, key questions are answered regarding the lives of irregular migrants: How can we understand their patterns of economic and social incorporation, the transnational activities they engage in, and the significance of different forms of capital? Drawing on intensive participant observation as well as more than two hundred in-depth interviews with irregular migrants and representatives of organizations that are involved with them, *Irregular Migrants* develops much needed contextualized insights. As such, it sheds new light on previous research findings and various deadlocked scholarly debates on irregular migrants in Western societies.

Illegal Residence and Public Safety in the Netherlands Arjen Leerkes, 2009 *Illegal Residence and Public Safety in the Netherlands* is een onderzoek naar de gevolgen van de steeds drastischere maatregelen om illegaal verblijf in Nederland tegen te gaan. EU lidstaten als Nederland hanteren steeds zwaardere voorwaarden voor immigratie vanuit niet westerse landen en niet Europese landen. Arjen Leerkes onderzoekt in hoeverre het verblijf en de migratie van illegale immigranten gevolgen hebben voor de publieke veiligheid en criminaliteit in Nederland. Zijn illegale immigranten eerder geneigd tot criminaliteit of weerhoudt hun juridische status hen er juist van.

Looking for Loopholes Joanne Pauline Leun, 2001 **Illegal Immigration in Europe** F. Düvell, 2005-12-15 The processes of globalization, increasing human mobility and European integration have led to immigration, and in particular illegal immigration, being among the top international policy, economic and security concerns. This book analyzes the causes of illegal immigration in Europe together with the history and political economy of the phenomenon. It offers an assessment of contemporary political responses and proposes an alternative approach aiming at a more sustainable solution.

Irregular Migration in Europe Anna Triandafyllidou, 2016-05-06 *Irregular Migration in Europe* contributes to our knowledge of the scale and nature of the much discussed but under researched phenomenon of irregular migration in Europe whilst improving our understanding of the dynamics of irregular migration and its relation to European societies and economies. Presenting a comparative analysis of the experiences and policies of different EU member states, this book draws on an extensive range of sources, many of which have so far been absent from English language analyses, to offer an overall picture of irregular migration in twelve EU member states. This volume will be of interest to policy makers and researchers within the fields of migration sociology and social anthropology, political science, European integration and European studies, political science and public administration.

Crimmigrant Nations Robert Koulisch, Maartje van der Woude, 2020-03-03 As the distinction between domestic and international is increasingly blurred along with the line between internal and external borders migrants particularly people of color have become emblematic of the hybrid threat both to national security and sovereignty and to safety and order inside the state From building walls and fences overcrowding detention facilities and beefing up border policing and border controls a new narrative has arrived that has migrants assume the risk for government sponsored degradation misery and death *Crimmigrant Nations* examines the parallel rise of anti immigrant sentiment and right wing populism in both the United States and Europe to offer an

unprecedented look at this issue on an international level Beginning with the fears and concerns of immigration that predate the election of Trump the Brexit vote and the signing and implementation of the Schengen Agreement Crimmigrant Nations critically analyzes nationalist state policies in countries that have criminalized migrants and categorized them as threats to national security Highlighting a pressing and perplexing problem facing the Western world in 2020 and beyond this collection of essays illustrates not only how anti immigrant sentiments and nationalist discourse are on the rise in various Western liberal democracies but also how these sentiments are being translated into punitive and cruel policies and practices that contribute to a merger of crime control and migration control with devastating effects for those falling under its reach Mapping out how these measures are taken the rationale behind these policies and who is subjected to exclusion as a result of these measures Crimmigrant Nations looks beyond the level of the local or the national to the relational dynamics between different actors on different levels and among different institutions

Irma Thoen,2007 Since the early days of humanity gifts as varied as valued objects hospitality and works of art have been an essential means of establishing and maintaining social ties Strategic Affection studies the exchange of gifts in order to explore the nature of seventeenth century Dutch social relations Looking at such widely divergent figures as schoolmasters artisans poets and nobles Irma Thoen compares seventeenth century Dutch gifts with contemporary gift exchanges to show that both strategy and affection are necessary elements of any social relations and that what changes most is not the system but the discourse of exchange Policing Non-Citizens Leanne Weber,2013-09-11 Criminologists are increasingly turning their attention to the many points of intersection between immigration and crime control This book discusses the detection of unlawful non citizens as a distinct form of policing which is impacting on a growing range of agencies and sections of society It constitutes an important contribution not only to the literature on policing but also to the field of border control studies within criminology Drawing on the work of Clifford Shearing Ian Loader and P A J Waddington it offers new theoretical approaches to the study of police powers and practice
