Spinella Jr., 2009-10-01 Told in the first person by the author of the Gospel of Mark The Cloak and the Parchments relates the story of how the earliest gospel came to be written against the backdrop of emergent Christianity s doctrinal tensions But it is also the story of one man s struggle of faith especially with the remarkable notion at least for a first century Jew steeped in

monotheistic tradition of the divinity of Jesus Christ The year is 64 CE and Paul has summoned Mark and Timothy from Ephesus to his prison cell in Rome On their journey the travelers discuss many of Paul s teachings including that Jesus is truly the Son of God After reaching Italy they meet up with Peter whose own account of Jesus s ministry quickly poses a challenge to Paul s views But there will be no opportunity to hear Peter and Paul debate their differences for they arrive in Rome at the outbreak of the Great Fire Amid the turmoil of the resulting Christian persecution Paul urges Mark to escape and write Peter s account of Jesus s ministry consistently with Paul s own teaching Mark finds himself conflicted by his promises to both men and by the disparity between Peter s eyewitness testimony and Paul s claim to direct revelation In the end he finds the answer he seeks hidden in the depths of his own soul as ultimately we all must The Cloak and the Parchments brings these New Testament characters to life in all of their humanity and presents a cogent argument for the necessity of mystical experience in religious belief A day in Nismes Beata Elizabeth Macaulay,1855 **A Love Story**

The Unconscious and Eduard von Hartmann Dennis N Kenedy Darnoi,2012-12-06 No man can live without ideas for every human action internal or external is of necessity enacted by virtue of certain ideas In these ideas a man believes they guide his actions and ultimately his whole life Study of these ideas and principles is one of the distinctive tasks of the history of philosophy But were we to restrict the field of interest of the history of philosophy to a mere detached academic cataloguing of past ideas the history of philosophy itself would have joined long ago the interminable line of barren catalogued ideas The study of the wisdom of past ages however is very much alive Not only is it alive but in the words ot Wilhelm Dilthey What man is he learns through history l Thus the culture of every generation is inevitably related whether thetically or antithetically to the previous one and the politi cal and economic struggles of any present are always the consequences of an earlier and perhaps even fiercer battle of ideas I t is imperative to know the history of the philosophies that nourish the present if we wish to know ourselves and the world about us The Socratic call to self knowledge is as indispensable a condition of a truly human existence today as it was in the fifth century B C **The works of ...
