Metaphysics And Morals In Marius Victorinus Commentary On The Letter To The Ephesians:

Metaphysics and Morals in Marius Victorinus' Commentary on the Letter to the Ephesians Stephen Andrew Cooper,1992 **Metaphysics and Morals in Marius Victorinus' Commentary on the Letter to the Ephesians** Stephen Andrew Cooper,1995 Marius Victorinus was the first Latin Christian of the fourth century to show the influence of Neoplatonism Plotinus and Porphyry As a convert from paganism Victorinus version of Christianity offers the student of Late Antiquity a window for understanding the conversion of the upper classes in the Western Roman Empire to Christianity Because he was a professional rhetorician an analysis of the exegetical work enables us to see how the moral mindset of the rhetorical schools found itself at home within Christianity The Neoplatonic influences in the works of Ambrose and Augustine can be appreciated better when understood in relation to the intellectual circles that preceded them Victorinus being the most well documented figure of this milieu *Marius Victorinus' Commentary on Galatians* Stephen Andrew Cooper,2005-03-24 Marius Victorinus a professor of rhetoric in mid fourth century Rome wrote the first Latin commentaries on the apostle Paul whose letters have played a vital role in Western Christian thought This is the first English translation of Victorinus commentary on Galatians which is a relevant and lively presentation of the apostle s passion for the freedom of the gospel The accompanying notes and introduction while engaged with relevant scholarship are accessible to readers interested in early Christian interpretations of the Bible *The Philosophy, Theology, and Rhetoric of Marius Victorinus* Stephen A. Cooper,Václav Němec,2022-10-07 Pagan rhetor Neo Platonist philosopher Christian theologian This collection of essays is devoted to the rhetoric Neoplatonic philosophy and Christian theology of Marius Victorinus a mid fourth century professor of rhetoric and philosopher who converted to Christianity late in life Scholars from eight different countries some of whom have not previously published in English reflect on debates about his writings and theological development These topics include Victorinus s deployment of philosophical sources for trinitarian theology possible connections in his work to Origen Augustine Plotinus Porphyry and Gnosticism as well as his contributions to Latin rhetoric and dialectic Contributors include Jan Dominik Bogataj Michael Chase Nello Cipriani Stephen A Cooper Volker Henning Drecolt Lenka Karf kov Josef L ssl V clav N mec Thomas Riesenweber Guadalupe Lopetegui Semperena Miran peli Chiara O Tommasi John D Turner and Florian Zacher The chapters in this volume are of great interest to students of late antique philosophy Christian theology and Latin rhetoric *The Pauline Book and the Dilemma of Ephesians* Benjamin J. Petroelje,2022-09-08 Benjamin J Petroelje argues that how one reads Ephesians is a function of deeper questions about how to read the Pauline book Petroelje suggests the contemporary consensus that Ephesians depicts development of away from the real Paul is largely a construct of modern criticism rooted in shifting strategies about how to read a letter collection that developed in the 19th century Using Ephesians 3 1 13 as a point of analysis Petroelje theorizes that the text s image of Paul not only anticipates recent revisionist interpretations of Paul s Jewish identity and gentile gospel but also holds together tensions in the collection itself

surrounding these questions By analysing ancient letter collections beside their own hermeneutical priorities and applying this method to the late antique and modern reception of the corpus Paulinum Petroelje is able to historicize the origins of the split of Paul's corpus revealing the constructed nature of the critical consensus on Ephesians and the effect that such modern reading strategies have on interpreting the letter Urging a return to reading Ephesians alongside Pauline co texts Petroelje advocates for Ephesians as a crucial source for the study of Paul whether Paul wrote it or not Ambrosiaster's Commentary on the Pauline Epistles, 2017-11-24 A new translation for scholars and students of biblical interpretation and ancient Christianity The ancient writer dubbed Ambrosiaster was a pioneer in the revival of interest in the Pauline Epistles in the later fourth century He was read by Latin writers including Pelagius and Augustine and his writings passed on pseudonymously had a long afterlife in the biblical commentaries theological treatises and canonical literature of the medieval and the early modern periods In addition to his importance as an interpreter of scripture Ambrosiaster provides unique perspectives on many facets of Christian life in Rome from the emergence of clerical celibacy to the development of liturgical practices to the subordination of women Features An up to date overview of what is known about Ambrosiaster the transmission of his commentary on the Pauline Epistles his exegetical method his theological orientation and aspects of Christianity in Rome in the fourth century A scholarly translation of the final version of the commentary along with notes that identify significant variants from prior versions of the commentary Bibliography that includes a comprehensive list of the scholarly literature on Ambrosiaster Jerome's Commentaries on the Pauline Epistles and the Architecture of Exegetical Authority Andrew Cain, 2021 This monograph provides the first book length treatment of Jerome's opus Paulinum in any language **Handbook of Patristic Exegesis** Charles Kannengiesser, 2022-11-28 Through this Handbook of Patristic Exegesis the reader will obtain a balanced and cohesive picture of the Early Church It gives an overall view of the reception transmission and interpretation of the Bible in the life and thought of the Church during the first five centuries of Christianity the so called patristic era The handbook offers the context and presuppositions necessary for understanding the development of the interpretative traditions of the Early Church in its catechesis its liturgy and as a foundation of its systems of theology The handbook presents a comprehensive overview of the history of patristic exegesis Apart from a general introduction to the major topics in this field it contains essays by leading patristic scholars on the most important Church Fathers such as Augustine Irenaeus Origen Gregory of Nyssa and others The essays are supplemented by bibliographies of editions and studies on patristic exegesis published from 1945 until 1995 Together these bibliographies form the only comprehensive bibliography presently available on this topic The print edition is available as a set of two volumes 9789004098152

The Cambridge History of Early Christian Literature Frances Young, Lewis Ayres, Andrew Louth, 2004-04 Publisher Description

The Cambridge History of Philosophy in Late Antiquity Lloyd P. Gerson, 2015-12-10 The Cambridge History of Philosophy in Late Antiquity comprises over forty specially commissioned essays by experts on the philosophy of the period 200-800 CE Designed as a successor to The Cambridge History of Later Greek and Early Medieval Philosophy edited by A H Armstrong it takes into account some forty years of scholarship since the

publication of that volume The contributors examine philosophy as it entered literature science and religion and offer new and extensive assessments of philosophers who until recently have been mostly ignored The volume also includes a complete digest of all philosophical works known to have been written during this period It will be an invaluable resource for all those interested in this rich and still emerging field *The Myth of Pelagianism* Ali Bonner,2018-09-13 The Myth of Pelagianism is a ground breaking interdisciplinary work that combines textual research with sociological analysis and evidence from previously unrepresented manuscripts It offers a revision to our understanding of Pelagius and the formation of Christian doctrine *New Narratives for Old* Anthony Briggman, Ellen Scully,2022-06-17 Guilds and conferences have grown up around historical theology yet no volume has ever been dedicated to the definition and illustration of the method undergirding historical theology This volume both defines and illustrates the methodology of historical theology especially as it relates to the study of early Christianity and situates historical theology among other methodological approaches to early Christianity including confessional apologetics constructive theology and socio cultural history Historical theology as a discipline stands in contrast to these other approaches to the study of early Christianity In contrast to systematic or constructive approaches it remains essentially historical with a desire to elucidate the past rather than speak to the present In contrast to socio historical approaches it remains essentially theological with a concern to value and understand the full complexity of the abstract thought world that stands behind the textual tradition of early Christian theology Moreover historical theology is characterized by the methodological presupposition that unless good reason exists to think otherwise the theological accounts of the ancient church articulate the genuine beliefs of their authors The significance of this volume lies in the methodological definition it offers The strength of this volume lies in the fact that its definition of the historical method of studying theology is not the work of a single mind but that of over twenty respected scholars many of whom are leaders in the field The volume begins with an introductory essay that orients readers to various approaches to early Christian literature it moves to two technical essays that define the historical method of studying early Christian theology and then it illustrates the practice of this method with more than twenty essays that cover a period stretching from the first century to the dawn of the seventh *Ambrosiaster's Political Theology* Sophie Lunn-Rockcliffe,2007-10-04 A study of the writings of the late 4th century Christian writer Ambrosiaster whose works were influential on his near contemporaries and throughout the Middle Ages Sophie Lunn Rockcliffe discusses his political theology and also addresses the problem of the author s mysterious identity placing him in a broad historical and intellectual context **Elenchus of Biblica** 1998 Robert Althann,2002-12-31
