Acts of Religion Jacques

Derrida, 2013-02-01 Acts of Religion compiled in close association with Jacques Derrida brings together for the first time a number of Derrida's writings on religion and questions of faith and their relation to philosophy and political culture. The essays discuss religious texts from Jewish Christian and Muslim traditions as well as religious thinkers such as Kant Levinas and Gershom Scholem and comprise pieces spanning Derrida's career. The collection includes two new essays by Derrida that appear here for the first time in any language as well as a substantial introduction by Gil Anidjar that explores Derrida's return to his own religious origins and his attempts to bring to light hidden religious dimensions of the social cultural historical and political.

Critique littéraire Encyclopaedia Universalis, 2016-07-12 L'expression critique littéraire recouvre aujourd'hui deux activités relativement autonomes. Elle désigne d'une part les comptes rendus de livres dans la presse la radio la télévision. Elle renvoie d'autre part au savoir sur la littérature aux études littéraires ou la recherche littéraire.

The Transformation of Political Culture 1789-1848 F. Furet, M. Ozouf, 2015-11-24 This third volume in a much praised series on The French Revolution and the Creation of Modern Political Culture examines the way in which the Revolution has been portrayed in European thought and its impact upon the development of political philosophy in the nineteenth century. Opening with the influence of Burke and other contemporaries of the Revolution and the ensuing debate over the question Why the Terror this volume explores such diverse themes as the legacy of the Revolution on the political and social evolution of Germany England Italy and Russia the crisis it brought about in the Catholic Church and the difficulties encountered in determining the end of the Revolution. By showing that the upheaval in European politics and philosophy caused by the French Revolution continued to shape nations peoples and thought the texts brought together in this volume permit a better understanding of the event's extraordinary complexity.

RÉINVENTER LE JUGEMENT CRITIQUE À L'ÈRE DES

MODÈLES D'IA EN PLEINE EXPANSION Loïc M. S. DELEKE, 2025-05-15 Les documents examinent le jugement critique dans le contexte de l'intelligence artificielle. L'auteur Loïc M S Deleke explore comment le rôle du jugement humain est affecté par l'augmentation des modèles d'IA. Il souligne que l'IA menace potentiellement notre capacité à penser de manière autonome et à distinguer le vrai du faux. Les sources proposent des pistes pour réinventer l'éducation afin de renforcer la pensée critique face à ces défis. L'objectif est de maintenir l'intelligence humaine au centre des processus décisionnels même assistés par la technologie.

Mutual Hierarchy Jeffrey A. Dukeman, 2019-02-22 Social Trinitarians have not been shy about positing community as the chief ontological category for Trinitarian discourse. As beneficial as this is social Trinitarians have typically

been less helpful in advocating the sort of human community for the Trinitarian analogy that most people would probably find desirable To use the example of a marriage one has often been forced to choose between a fully egalitarian view where the spouses supposedly have no differences from each other and a hierarchical view where a husband exercises a unilateral and oppressive power over his wife This book advocates a third alternative for the sort of community present in the Trinity Just as genuine teamwork is generally desirable in various human communities the divine persons have a mutual hierarchy relationship with each other Here each divine person has a unique hierarchy over the others and yet each uses this hierarchy to serve the others in a dignified way Recognizing this mutual hierarchy of the divine persons fosters a view of the Trinity that is maximally social in keeping with the name social Trinitarianism In proceeding thus the book attempts to in a unique way show the harmony between systematic theology exegesis and practice

L'éclatement des genres au XXe siècle Marc Dambre, Monique Gosselin-Noat, Société d'études de la littérature française du XXe siècle, 2001 La question des genres au XXe siècle avait paru englober un grand nombre de problèmes que pose et que se pose la littérature dans ce siècle qui s'achève On a hésité entre l'éclatement et l'effacement des genres Le premier terme fut retenu parce qu'il avait l'avantage de mettre en lumière l'explosion positive l'émergence la floraison de combinaisons inédites qui favorisait la créativité

From Is to Ought: The Place of Normative Models in the Study of Human Thought Shira Elqayam, David E. Over, 2016-08-12 In the study of human thinking two main research questions can be asked Descriptive Q What is human thinking like Normative Q What ought human thinking be like For decades these two questions have dominated the field and the relationship between them generated many a controversy Empirical normativist approaches regard the answers to these questions as positively correlated in essence human thinking is what it ought to be although what counts as the ought standard is moot In contemporary theories of reasoning and decision making this is often associated with a Panglossian framework an adaptationist approach which regards human thinking as a priori rational In contrast prescriptive normativism sees the answers to these two questions as negatively correlated Normative models are still relevant to human thought but human behaviour deviates from them quite markedly with the invited conclusion that humans are often irrational Prescriptive normativism often results in a Meliorist agenda which sees rationality as amenable to education Both empirical and prescriptive normativism can be contrasted with a descriptivist framework for psychology of human thinking Following Hume's strict divide between the is and the ought descriptivism regards the descriptive and normative research questions as uncorrelated or dissociated with only the former question suitable for psychological study of human behaviour This basic division carries over to the relation between normative ought rationality based on conforming to normative standards and instrumental rationality based on achieving one's goals Descriptivist approaches regard the two

as dissociated whereas normativist approaches tend to see them as closely linked with normative arguments defining and justifying instrumental rationality This research topic brings together diverse contributions to the continuing debate Featuring contributions from leading researchers in the field the e book covers a wide range of subjects arranged by six sections The standard picture Normativist perspectives In defence of soft normativism Exploring normative models Descriptivist perspectives Evolutionary and ecological accounts Empirical reports With a total of some 24 articles from 55 authors this comprehensive treatment includes theoretical analyses meta theoretical critiques commentaries and a range of empirical reports The contents of the Research Topic should appeal to psychologists linguists philosophers and cognitive scientists with research interests in a wide range of domains from language through reasoning judgment and decision making and moral judgment to epistemology and theory of mind philosophical logic and meta ethics

Critique of the New Consensus Macroeconomics and Implications for India Dilip M. Nachane, 2018-11-02 The thought provoking book presents alternative viewpoints to mainstream macroeconomic theory questions conventional policy wisdom and suggests a systematic re orientation of current macroeconomic and financial regulatory policies in India The New Consensus Macroeconomics NCM which established itself in the 1980s as mainstream macroeconomics essentially represents an uneasy truce between two dominant schools of economic thought viz New Classical and Neo Keynesian economics The NCM sets the tone for much of the macroeconomic especially monetary policy followed by the advanced economies in the period of the Great Moderation 1990 2005 The recent global crisis has posed a major challenge to the NCM as empirical models based on the NCM failed to anticipate the occurrence of the crisis and later its extent and severity The above considerations constitute the underpinnings of this book which addresses the theoretical controversies within a general context and their policy implications for India The authors analysis leads to a somewhat critical assessment of the financial sector policies followed in India since the initiation of reforms in 1991 This makes the book a valuable resource not only for researchers working in this area but also for policy makers
