Modeling God Religious Education For Tom:

Models of God and Alternative Ultimate Realities Jeanine Diller, Asa Kasher, 2013-06-13 The envisioned volume is a collection of recent essays about the philosophical exploration critique and comparison of a the major philosophical models of God gods and other ultimate realities implicit in the world s philosophical schools and religions and of b the ideas of such models and doing such modeling per se The aim is to identify exactly what a model of ultimate reality is create a comprehensive and accessible collection of extant models and determine how best philosophically to model ultimate reality if possible and desirable

Theological Models of the Doctrine of the Trinity James Henry Owino Kombo, 2016-08-30 The doctrine of the Trinity is the foundational doctrine for all Christian theology doxology and practice In this publication James Kombo brings a unique and valuable contribution to understanding the Trinity and how God can be understood within the context of any culture and language Kombo first recognizes and brings into focus God s self presentation in Scripture as the triune God Moving from the early church through various church traditions over the centuries he interacts with how each tradition viewed God and their interpretation of the Trinity Closing with a distinctly African view of God from the Luo language tradition used mostly in Kenya and Tanzania Kombo emphasises the benefits of considering alternative models of interpretation from various regions of the world Kombo s work applying his research across cultures makes this an excellent resource in any context of ministry and the academy

Models for Christian Higher Education Richard Thomas Hughes, William B. Adrian, 1997 This is a print on demand book and is therefore non returnable This timely look at the state of Christian higher education in America contains descriptive historical narratives that explore how fourteen Christian colleges and universities are successfully integrating faith and learning on their campuses despite the challenges posed by the increasingly pluralistic nature of modern culture Written by respected representatives from seven major faith traditions Roman Catholic Lutheran Reformed Mennonite Evangelical Wesleyan Holiness and Baptist Restorationist these narratives are also preceded by introductory essays that define the worldview and theological heritage of each given tradition and ask what that tradition can contribute to the task of higher education

The Hiddenness of God Michael C. Rea, 2018-07-19 The Hiddenness of God addresses the problem of divine hiddenness which concerns the ambiguity of evidence for God s existence the elusiveness of God s comforting presence the palpable and devastating experience of divine absence and abandonment and more phenomena which are hard to reconcile with the idea central to the Jewish and Christian scriptures that there exists a God who is deeply and lovingly concerned with the lives of humans Michael C Rea argues that divine hiddenness is not a problem to be explained away but rather a consequence of the nature of God himself He shows that it rests on unwarranted assumptions and expectations about God s love for human beings Rea explains how scripture and tradition bear testimony not only to God s love but to God s transcendence He shows that God s transcendence should be understood as implying that all of God s intrinsic attributes divine love included elude our grasp in significant ways
