Modelling and Sculpture Albert Toft,1911 *Wonderful Models* Percival Marshall,1928 *Architectural Scale Models in the Digital Age* Milena Stavric,Predrag Sidanin,Bojan Tepavcevic,2013-03-01 No detailed description available for Architectural Scale Models in the Digital Age **Architectural Modelmaking Second Edition** Nick Dunn,2014-09-08 The physical model is an important communication tool for architects Although the proliferation of CAD programs has enabled the creation of increasingly complex computer models and virtual environments there is also a growing need to address the three dimensional qualities of architecture that may be lost when using such media This book focuses on the inspiring possibilities for modelling the built environment with all the different media and techniques available In describing the use of different models in different contexts the book provides a practical guide to how and why models are used and what they are used for This second edition includes more detailed step by step exercises expanded discussion of materials and techniques updated coverage of digital techniques and new case studies **A New Manual of Method** Alfred Hezekiah Garlick,1897

Transcultural Modernities Elisabeth Bekers,Sissy Helff,Daniela Merolla,2009 The swelling flows of migration from Africa towards Europe have aroused interest not only in the socio political consequences of the migrants insistent appeals to fortress Europe but also in the artistic integration of African migrants into the cultural world of Europe While in recent years the creative output of Africans living in Europe has received attention from the media and in academia little critical consideration has been given to African migrants modes of narration and the manner in which these modes give expression to or are an expression of their creators transcultural realities Transcultural Modernities Narrating Africa in Europe responds to this need for reflection by examining the manner in which migrants compose and negotiate their Euro African affiliations in their narratives The book brings together scholars in the fields of literary and art criticism cultural studies and anthropology for an extensive interdisciplinary exchange on the specific modes of narration displayed in Euro African literatures the visual arts and cinema as well as offering ethnographic case studies The result is a wide range of reflections on how African artists writers and ordinary people living in Europe experience and explore their transcultural and or postcolonial environments and how their experiences and explorations in turn contribute to the construction of modern Euro African life worlds *Architecture and Modelbuilding* Alexander Schilling,2018-09-10 Architectural models are used at various stages of a project As working models they support the design process they are made up from time to time using simple materials such as cardboard without any attempt at accuracy and continue to be adjusted and added to as the ideas and the design progress The point here is to swiftly check a design idea to allow it to be continued or dismissed Presentational models are more involved at this stage the design has been completed and the purpose of the model is to convey the ideas to the potential user in a clear and easy to understand way The book Architecture and Model Building includes outstanding examples explaining the possibilities of this medium and at the same time provides comprehensive

information on materials and techniques **Plastering, Plain and Decorative** William Millar,1905 Dramatic Science
Debra McGregor,Wendy Precious,2014-09-19 Dramatic Science is an invaluable tool for any teachers and primary science
leaders who have classes of 5 10 year olds It provides the busy professional with a range of tried and tested techniques to use
drama as a support and aid to the teaching of science to young children The techniques within this book offer innovative and
creative strategies for teaching a challenging area of the curriculum and broadening teachers own scientific knowledge and
understanding All the strategies in this book have been shown to work effectively in a range of primary schools The
approaches described offer an inclusive and participatory way to teach science and the authors provide a pedagogical
commentary on the ways that teachers have tried the techniques and how they have worked best Reflective discussion on the
strategies will include discussion about how the children have responded to these strategies and how the drama experiences
have impacted on their learning This invaluable resource Supports working and thinking scientifically Develops critical and
creative thinking Scaffolds creative learning Broadens teachers scientific knowledge and understanding Enhances children s
understanding of science Provides guidance on active and participatory learning Can engage children and teachers at a
variety of levels Links science to real life Heightens children s application of science to different situations Develops problem
solving and enquiry skills Enhances and extends speaking and listening skills Any teachers wishing to hone their practice to
