Social Work Practice and Psychopharmacology, Second Edition Sophia Dziegielewska PhD, LCSW, 2009-12-07 Why do social workers need

to know about mental health medications How can social workers best assist clients who are taking medications What is the social worker's role as part of the interdisciplinary health care team Answering these questions and more this comprehensive text discusses the major medications used to treat common mental health conditions and offers guidelines on how to best serve clients who are using them This new edition provides guidance on many issues that social workers will encounter in practice including identifying potentially dangerous drug interactions and adverse side effects improving medication compliance recognizing the warning signs of drug dependence and understanding how psychopharmacology can work in conjunction with psychosocial interventions Complete with case examples assessment tools and treatment plans this book offers practical insight for social work students and social workers serving clients with mental health conditions New to this edition are expanded discussions of child and adolescent disorders engaging discussions of how new drugs are created approved and marketed and a new glossary describing over 150 common medications and herbal remedies Important Topics Discussed Treatment of common mental health conditions such as depression anxiety disorders schizophrenia and dementia Taking a comprehensive medication history Understanding medical terminology Avoiding drug misuse dependence and overdose

Encyclopedia of Special Education Cecil R. Reynolds, Elaine Fletcher-Janzen, 2007-02-26 The Third Edition of the highly acclaimed Encyclopedia of Special Education has been thoroughly updated to include the latest information about new legislation and guidelines In addition this comprehensive resource features school psychology neuropsychology reviews of new tests and curricula that have been developed since publication of the second edition in 1999 and new biographies of important figures in special education Unique in focus the Encyclopedia of Special Education Third Edition addresses issues of importance ranging from theory to practice and is a critical reference for researchers as well as those working in the special education field

Psychopharmacology Handbook for the Non Medically Trained Sophia Dziegielewska, 2006-08-08 In today's era of managed behavioral health care mental health professionals are called upon to consult on medication treatment or recommend what medications would best serve as adjuncts to therapy Medically trained or not all mental health professionals need to know as much as possible about psychopharmacologic medications from dosage and side effects to drug drug interactions and other special considerations in order to provide effective and accountable treatment The first ever handbook of its kind Psychopharmacology Handbook for the Non Medically Trained fills a noticeable gap in most student training programs by providing a reader friendly and accessible overview of the role of drugs in mental health treatment Emphasizing the importance of making medications available to consumers in conjunction with the most effective and efficient counseling interventions Dziegielewska establishes the context for the therapeutic use of psychotropic drugs in the culture of today's mental health treatments examines the danger of the quick fix mentality into which consumers and clinicians are tempted to fall and then focuses on the medications themselves One of the most prominent and authoritative social work academics today Dziegielewska is an authority on the topic of psychopharmacology in social work

practice The recipient of numerous honors and awards for her teaching the creator of a popular preparation course for social work licensure and the author of over 95 publications she is a source to which students and professionals turn for up to date accurate information on a variety of topics in the social work field Psychopharmacology Handbook for the Non Medically Trained is an invaluable resource guide for all non medically trained practitioners providing therapists social workers and other counselors with effective tools and critical information to help them become better informed about all courses of mental health treatment for their clients
