International Relations and the Problem of Time Andrew R. Hom, 2020-05-26 What is time and how does it influence our knowledge of international politics For decades International Relations IR paid little explicit attention to time Recently this began to change as a range of scholars took an interest in the temporal dimensions of politics Yet IR still has not fully addressed the issue of why time matters in international politics nor has it reflected on its own use of time how temporal ideas affect the way we work to understand political phenomena Moreover IR remains beholden to two seemingly contradictory visions of time the time of the clock and a longstanding tradition treating time as a problem to be solved International Relations and the Problem of Time develops a unique response to these interconnected puzzles It reconstructs IR's temporal imagination by developing an argument that all times from natural rhythms to individual temporal experience spring from social and practical timing activities or efforts to establish meaningful and useful relationships in complex and dynamic settings In IR's case across a surprisingly wide range of approaches scholars employ narrative timing techniques to

make sense of confounding processes and events This innovative account of time provides a more systematic and rigorous explanation for time in international politics It also develops provocative insights about IR s own history its key methodological commitments supposedly timeless statistical methods historical institutions and the critical vanguard of time studies This book invites us to reimagine time and in so doing to significantly rethink the way we approach the analysis of international politics

Gorska, 2012-07-10 Dealing with a Juggernaut Analyzing Poland s Policy towards Russia 1989 2009 by Joanna A Gorska is the first substantial study of Poland s foreign policy interaction with its more powerful eastern neighbor Russia This study is essential to understanding the prospects for order and peace in Central and Eastern Europe towards Russia during the past twenty years Gorska challenges widely established interpretations of Poland s post 1989 foreign policy by arguing that consecutive Polish governments pursued a largely cooperative policy towards Russia and did so because of material power considerations namely Poland s strengthened power position after the Cold War and moderate security pressures from Russia In analyzing Polish foreign policy Dealing with a Juggernaut draws on leading theories in the field of International Relations and Foreign Policy Analysis and develops a comprehensive theoretical framework to guide empirical research Representing a cross section of politically important areas in Poland s most recent Russia policy the analysis is delineated along four case studies the Soviet military withdrawal from Poland in the early 1990s the NATO issue in Polish policy towards Russia Polish energy policy towards Moscow and the Katyn question in Polish foreign policy This book uses previously unpublished archival material interviews with leading Polish officials and a wealth of Polish publications to provide an insight into Warsaw s foreign policy behavior Gorska points to a departure from hostility and imposition a significant change in Poland s policy towards Russia after 1989 As such Dealing with a Juggernaut by Joanna A Gorska uncovers important mechanisms of regional cooperation between states with a checkered past

The Will of Change Eva-Maria Maggi, 2015-10-13 In this book Eva Maria Maggi argues that the European Union EU had an impact on institutional reform processes in North Africa in cases where major domestic actors agreed She analyzes how political actors in Morocco used EU neighborhood policies to shape economic and environmental policy between 1995 and 2008 Maggi argues that it was not the design of the EU's neighborhood policies but rather the will of change of domestic actors in Morocco that determined the pace direction of reform and the extent to which the EU continues to play a role in them While Moroccan politics were indeed europeanized Maggi highlights the role of domestic actors who so effectively managed to put forth their own policy priorities and essentially moroccanized the ENP
