Models Of Study Practical English Seri:

Sri Lankans' Views on English in the Colonial and Post-Colonial Eras Dr. Subathini Ramesh, Mitali P.

Wong, 2020-02-18 This book evaluates the views of different ethnic groups towards the English language in Sri Lanka for a period of almost two centuries. While a few studies have addressed the subject of English in Sri Lanka in a general way, there has been no research showing the specifics of English usage in the major ethnic communities of the country. This text considers notions and attitudes towards English that prevail in Sri Lanka today among writers, language planners, teachers and students, habitual speakers and infrequent users, as well as elite and non-elite groups in the country. The book also examines colonial and postcolonial writings in three communities, namely the Sri Lankan diaspora and the Tamil and Sinhala communities. *Theoretical & Practical Studies in Indo-English Literature* Shankar Mokashi-Punekar, 1978 *Integral*

Education: thought & Practical R.n.pani, *Rethinking Languages Education* Ruth Arber, Michiko Weinmann, Jill Blackmore, 2020-11-26 *Rethinking Languages Education* assembles innovative research from experts in the fields of sociocultural theory, applied linguistics and education. The contributors interrogate innovative and recent thinking and broach controversies about the theoretical and practical considerations that underpin the implementation of effective Languages pedagogy in twenty-first century classrooms. Crucially, *Rethinking Languages Education* explores established understandings about language, culture and education to provide a more comprehensive and flexible understanding of Languages education that responds to local classrooms impacted by global and transnational change and the politics of language, culture and identity. *Rethinking Languages Education* focuses on questions about ways that we can develop farsighted and successful Languages education for diverse students in globalised contexts. The response to these questions is multi-layered and takes into account the complex interactions between policy, curriculum and practice, as well as their contention and implementation. In doing so, this book addresses and integrates innovative perspectives of contemporary theory and pedagogy for Languages, TESOL and EAL/D education. It includes diverse discussions around practice and addresses issues of the dominance of prestige Languages programs for minority and heritage languages, as well as discussing controversies about the current provision of English and Languages programs around the world. **Introduction to the Study of American Literature**
