Modern American Critics Since 1955:

Criticism and Literary Theory 1890 to the Present Chris Baldick, 2014-06-11 Presents a coherent and accessible historical account of the major phases of British and American Twentieth century criticism from decadent aestheticism to feminist deconstructionist and post colonial theories Special attention is given to new perspectives on Shakespearean criticism theories of the novel and models of the literary canon The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T S Eliot and F R Leavis to minor but fascinating figures and critical schools Unlike most guides to modern literary theory its focus is firmly on developments within the English speaking world

Understanding Contemporary American Literary Theory Michael Paul Spikes, 2003 In this revised edition of Understanding Contemporary American Literary Theory Michael P Spikes adds Stanley Fish and Susan Bordo to the critics whose careers key texts and central assumptions he discusses in introducing readers to developments in American literary theory during the past thirty five years Underscoring the largely heterogeneous mix of strategies and suppositions that these critics along with Paul de Man Henry Louis Gates Jr Edward W Said and Stephen Greenblatt represent Spikes offers concise analyses of their principal claims and illustrates how their works reflect a range of critical perspectives from deconstruction African American studies and reader response theory to political criticism the new historicism and feminism

Token Professionals and Master Critics James J. Sosnoski, 1994-03-08 This book addresses literary critics in mainstream institutions who though they vastly outnumber their colleagues in more prestigious institutions have little voice in the profession It examines the structures through which the institution of literary criticism pressures its members to accept orthodoxy heterodoxy as categories to describe their work which in turn provokes theory wars This opposition produces a method application dichotomy which renders members pursuits scientific
