Modern Architecture and Other Essays Vincent Scully, 2003 Combining the modes of historian and critic in unique and compelling ways Scully has profoundly influenced the way architecture is thought about and made This illustrated and elegantly designed volume distills Scully's incalculable contribution 300 illustrations *Modern Architecture* Vincent Scully (Jr.), **Modern Architecture** Vincent Scully, 1965 **Modern Architecture** Vincent Scully, 1968 *Modern Architecture* Vincent Joseph Scully, 1956 *Modern Architecture*, 1961 **Vincent Scully** A. Krista Sykes, 2023-08-24 The renowned architectural historian and critic beloved Yale professor and outspoken public activist Vincent Scully 1920 2017 emerged in the 1950s as a guiding voice in American architecture This intellectual biography of Scully's life and career traces the formative moments in his thinking mapping his relationships with a constellation of architects artists and cultural personalities of the past one hundred years Scully charted an unlikely course from postwar modernism to postmodernism and New Urbanism overturning outdated beliefs and changing the face of the built environment as he went A teacher for more than 60 years and a figure of immense importance in the field he was central to an expansive network of associations from Frank Lloyd Wright Louis Kahn and Robert Venturi to Robert Stern Harold Bloom and Norman Mailer Scully's extensive body of work with its range spanning centuries and civilizations coalesced around the core beliefs that architecture shapes and is shaped by society and that the best architecture responds above all else to the human need for community and connection This timely appraisal provides a platform for reassessing the legacy of these values as well as how we write and think about architecture in the twenty first century **Catalog of the Avery Memorial Architectural Library of Columbia University: Furr - Handd** Avery Library, 1968 *Architecture and Democracy* Claude Fayette Bragdon, 2005-11-01 Ornament in its primitive manifestations is geometrical rather than naturalistic This is in a manner strange that the abstract and metaphysical thing should precede the concrete and sensuous from *The World Order* One of the most respected philosophers of architecture in the early 20th century Bragdon here makes a plea to his fellow architects and the public at large to choose organic designs for public structures and to reject the abstract modern architecture coming into vogue in the post World War I period Examining building design on either side of the great modernizing divide of the war he argues for a softer more human aesthetic and offers numerous imaginary compositions the products of his own fanciful yet logical creativity to illustrate his points First published in 1918 this highly readable volume has much to contribute to today's discourse on how to organize the public realm Other works by Bragdon available from Cosimo Classics *More Lives Than One The Beautiful Necessity* Episodes from *An Unwritten History* and *A Primer of Higher Space The Fourth Dimension* American architect stage designer and writer CLAUDE FAYETTE BRAGDON 1866 1946 helped found the Rochester Architectural Club in the city where he made his greatest mark as a building designer with structures including Rochester Central Station Rochester Institute of Technology and the First Universalist Church he also designed Peterborough Bridge in Ontario In later

Rohan, 2014-07-10 Equally admired and maligned for his remarkable Brutalist buildings Paul Rudolph 1918 1997 shaped both late modernist architecture and a generation of architects while chairing Yale's department of architecture from 1958 to 1965 Based on extensive archival research and unpublished materials *The Architecture of Paul Rudolph* is the first in depth study of the architect neglected since his postwar zenith Author Timothy M Rohan unearths the ideas that informed Rudolph's architecture from his Florida beach houses of the 1940s to his concrete buildings of the 1960s to his lesser known East Asian skyscrapers of the 1990s Situating Rudolph within the architectural discourse of his day Rohan shows how Rudolph countered the perceived monotony of mid century modernism with a dramatically expressive architecture for postwar America exemplified by his Yale Art and Architecture Building of 1963 famously clad in corrugated concrete The fascinating story of Rudolph's spectacular rise and fall considerably deepens longstanding conceptions about postwar architecture Rudolph emerges as a pivotal figure who anticipated new directions for architecture ranging from postmodernism to sustainability *The Historiography of Modern Architecture* Panayotis Tournikiotis, 2001-02-27 The history of modern architecture as constructed by historians and key texts Writing according to Panayotis Tournikiotis has always exerted a powerful influence on architecture Indeed the study of modern architecture cannot be separated from a fascination with the texts that have tried to explain the idea of a new architecture in a new society During the last forty years the question of the relationship of architecture to its history of buildings to books has been one of the most important themes in debates about the course of modern architecture Tournikiotis argues that the history of modern architecture tends to be written from the present projecting back onto the past our current concerns so that the beginning of the story really functions as a representation of its end In this book the buildings are the quotations while the texts are the structure Tournikiotis focuses on a group of books by major historians of the twentieth century Nikolaus Pevsner Emil Kaufmann Sigfried Giedion Bruno

Zevi Leonardo Benevolo Henry Russell Hitchcock Reyner Banham Peter Collins and Manfredo Tafuri In examining these writers thoughts he draws on concepts from critical theory relating architecture to broader historical models **Catalog of the Library of the Museum of Modern Art: Rej** Museum of Modern Art (New York, N.Y.).
