**Idolatry to Advertising: Visual Art and Contemporary Culture** Susan G. Josephson,2016-09-16 This book records the conclusions that I came to as I thought through the cultural evolution of each of the different sorts of visual art and tried to piece together their story from the perspective of philosophy Chapter 1 discusses how culture shapes art to be what it is from the outside like a mold shapes clay and the great power of art to affect the way we think and to promote cultural change Chapter 2 discusses the evolution of Fine Art from its birth in the Renaissance to its present old age and decline Chapter 3 discusses the institutional structures that make art for popular taste its own sort of art and the culture wars over censorship and whether public art should be Fine Art or art for popular taste Chapters 4 and 5 discuss the life histories of design and advertising This book is also the story of how art interacts with technology In my work in Artificial Intelligence research I saw that there is an intimate connection between the evolution of design in engineering and design in art In both sorts of design there is a growing understanding of how to make and use levels of packaging and how to approach things from the functional perspective of the artifact This is discussed in Chapter 4 My talk in Chapter 1 of how art styles affect us also reflects this functional approach That is instead of approaching art styles in the traditional ways I have approached them in terms of the tasks of vision and how art delivers information packaged to be understood at different levels of visual processing Using this functional approach I stress what art does for us rather than what art is I also tried to address the evolution of culture given the mass media and mass market and the role of art in the growing marriage between television and computer As I thought about computers in my work in Artificial Intelligence I saw that a new sort of idolatry was arising where he computers were being asked to be infallible experts giving us advice on everything from taxes to marriage problems and our health I saw that computers were being used not just as art tools and artists but also as art objects like the ancient idols This started me thinking about how other ancient functions of religion were being filled by advertising and the media **Marxism and the History of Art** Andrew Hemingway,2006-07-20 This book is the first comprehensive

introduction to Marxist approaches to art history Although the aesthetic was a crucial part of Marx and Engels s thought they left no full statement on the arts Although there is an abundant scholarship on Marxist approaches to literature the historiography of the visual arts has been largely neglected This book encompasses a range of influential thinkers and historians including William Morris Mikhail Lifshits Frederick Antal Francis Klingender Max Raphael Meyer Schapiro Walter Benjamin Henri Lefebvre and Arnold Hauser It also addresses the heritage of the New Left In the spirit of Marxism the

authors interpret the achievements and limitations of Marxist art history in relation to the historical and political circumstances of its production providing an indispensable introduction to contemporary radical practices in the field *Art Criticism*, 1997

**Critical Terms for Art History, Second Edition** Robert S. Nelson, Richard Shiff, 2010-03-15 Art has always been contested terrain whether the object in question is a medieval tapestry or Duchamp's Fountain But questions about the categories of art and art history acquired increased urgency during the 1970s when new developments in critical theory and other intellectual projects dramatically transformed the discipline The first edition of Critical Terms for Art History both mapped and contributed to those transformations offering a spirited reassessment of the field's methods and terminology Art history as a field has kept pace with debates over globalization and other social and political issues in recent years making a second edition of this book not just timely but crucial Like its predecessor this new edition consists of essays that cover a wide variety of loaded terms in the history of art from sign to meaning ritual to commodity Each essay explains and comments on a single term discussing the issues the term raises and putting the term into practice as an interpretive framework for a specific work of art For example Richard Shiff discusses Originality in Vija Celmins's To Fix the Image in Memory a work made of eleven pairs of stones each consisting of one original stone and one painted bronze replica In addition to the twenty-two original essays this edition includes nine new ones performance style memory monument body beauty ugliness identity visual culture visual studies and social history of art as well as new introductory material All help expand the book's scope while retaining its central goal of stimulating discussion of theoretical issues in art history and making that discussion accessible to both beginning students and senior scholars Contributors Mark Antliff Nina Athanassoglou Kallmyer Stephen Bann Homi K Bhabha Suzanne Preston Blier Michael Camille David Carrier Craig Clunas Whitney Davis Jas Elsner Ivan Gaskell Ann Gibson Charles Harrison James D Herbert Amelia Jones Wolfgang Kemp Joseph Leo Koerner Patricia Leighton Paul Mattick Jr Richard Meyer W J T Mitchell Robert S Nelson Margaret Olin William Pietz Alex Potts Donald Preziosi Lisbet Rausing Richard Shiff Terry Smith Kristine Stiles David Summers Paul Wood James E Young
