**Power, Islam, and Political Elite in Iran** Eva Rakel, 2008-11-30 The Iranian Islamic revolution brought about a political system based on a combination of state institutions that derive their legitimacy from Islamic law and republican institutions legitimized by the people As there are no legal political parties in the Islamic Republic of Iran political factions represent the varying ideological and material interests of members of the political elite and their supporters This book analyzes the rivalries between the political factions and their related state institutions and the impact of the dynamics of factionalism on domestic economic and socio cultural and foreign policy formulation It shows that tensions inherent to the structure of state institutions and factional rivalries slow down the process of democratization and economic reforms in the Islamic Republic of Iran

*Iran's Political Economy since the Revolution* Suzanne Maloney, 2015-08-13 Over three decades after the Iranian Revolution reconfigured the strategic landscape in the Middle East scholars are still trying to decipher its aftereffects Suzanne Maloney provides the first comprehensive overview of Iran s political economy since the 1979 revolution and offers detailed examinations of two aspects of the Iranian economy of direct interest to scholars and non specialist readers of Iran the energy sector and the role of sanctions Based on the author s research as both a scholar and government advisor the book also features interviews with American and Iranian government officials Moving chronologically from the early years under Khomeini through the economic deprivations of the 1980s during the Iran Iraq war through liberalization under Khatami to the present Maloney offers fascinating insights into Iran s domestic politics and how economic policies have affected ideology leadership priorities and foreign relations

*Dynamics of Power in Contemporary Iran* Anoushiravan Ehteshami, 2010-08-25 Iran s 1979 revolution has stood out as one of the 20th century s most intriguing and unusual social uprisings This revolution defied the socialist radicalism of its day which had been making inroads as the non capitalist path to development in several African and Asian countries and had created social change without reliance on the East or in the name of socialism It had by the same token rejected the Western premises of liberalism and individualism as its guiding principles Its leader an aging cleric even used an apparently alien discourse as he chastised the great Satan United States for its socio cultural sins and for its crimes against humanity In speaking of the plight of the downtrodden and in condemning the alien and morally corrupt values of the uptown living Iranian taghutis he accused the reigning monarch a Western educated urbane man for taking the country down the path of Satan How could an aging mullah with little international experience be

challenging the survival of a modern powerful and internationally well connected monarchy How could a cleric whose views of an Islamic state were arguably abstract at best proceed to establish a revolutionary Islamic theocracy where there had previously been apparently entrenched Western style modernity The answers could be sought in a number of places In the deep rooted struggle of the Iranian people for freedom which dated back to before the Bolshevik revolution in Russia the ruling Pahlavi establishment s inability to manage the economic and cultural crisis that engulfed Iran in the 1970s the disenchantment of the monarchy s potential middle class and bourgeois allies the critical role of a radicalized clerical group which emerged to provide a legitimate alternative to the Pahlavi order and finally in the nature of the modern Iranian state itself Prospects for change are historically good but change is likely to take time Nor can the direction of change be easily predicted despite the country s choices increasingly narrowing between that of a naked military regime on the one hand and a pluralistic republic on the other However given the country s vibrant and defiant civil movement and their progressive social democratic program for change Iran again could become a trendsetter for the rest of the region were these forces to return to the corridors of power Having been the first country in the world to have marched political Islam into power in the 20th century Iran s people could again be in the long process of trading political Islam for a truly open and democratic system in the 21st century

**Debating the Iran-Iraq War in Contemporary Iran** Narges Bajoghli, Amir

**Evolving Iran** Barbara Ann

Rieffer-Flanagan, 2013-03-22 Evolving Iran presents an overview of how the politics and policy decisions in the Islamic Republic of Iran have developed since the 1979 revolution and how they are likely to evolve in the near future Despite the fact that the revolution ushered in a theocracy its political system has largely tended to prioritize self interest and pragmatism over theology and religious values while continuing to reinvent itself in the face of internal and international threats The author also examines the prospects for democratization in Iran Since the early years of the twentieth century Iranians have attempted to make their political system more democratic yet various attempts to produce a system where citizens have a meaningful voice in political decisions have failed This book argues that greater democratization is unlikely to

occur in the short term especially in light of increased threats from the international community This accessible overview of Iran s political system covers a broad array of subjects including foreign policy human rights women s struggle for equality the development and evolution of elections and the institutions of the political system including the Revolutionary Guards and Assembly of Experts It will appeal to undergraduates and the general public who seek to understand a country and regime that has mystified Westerners for decades

Recasting Iranian Modernity Kamran Matin,2013-11-07 Critically deploying the idea of uneven and combined development this book provides a novel non Eurocentric account of Iran s experience of modernity and revolution Recasting Iranian Modernity presents the argument that Eurocentrism can be decisively overcome through a social theory that has international relations at its ontological core This will enable a conception of history in which there is an intrinsic international dimension to social change that prevents historical repetition This hitherto under theorized international dimension is the book argues manifest in combined patterns of development which incorporate both foreign and native forms It is the tension prone and unstable nature of these hybrid developmental patterns that mark Iranian modernity and fuelled the socio political dynamics of the 1979 revolution and the rise of political Islam Challenging solely comparative approaches to the Iranian Revolution that explain it away as either a deviation from or a reaction to modernity on the grounds of its religious form this book will be valuable to those interested in an alternative theoretical approach to the Iranian Revolution modern Iran and political Islam working in the fields of International Relations Middle East and Islamic Studies History Political Science Political Sociology Postcolonialism and Comparative Politics **Contemporary Iran** Ali
