Encyclopedia of Postcolonial Studies John Charles Hawley, 2001-09-30 The collapse of empires has resulted in a remarkable flourishing of indigenous cultures in former colonies The end of the colonial era has also witnessed a renaissance of creativity in the postcolonial world as modern writers embrace their heritage The experience of postcoloniality has also drawn the attention of academics from various disciplines and has given rise to a growing body of scholarship This reference work overviews the present state of postcolonial studies and offers a refreshingly polyphonic treatment of the effects of globalization on literary studies in the 21st century The volume includes more than 150 alphabetically arranged entries on postcolonial studies around the world Entries on individual authors provide brief biographical details but primarily examine the author's handling of postcolonial themes So too entries on theoreticians offer background information and summarize the person's contributions to critical thought Entries on national literatures explore the history of postcoloniality and the ways in which writers have broadly engaged their legacy while those on important topics discuss the theoretical origin and current ramifications of key concepts in postcolonial studies Cross references and cited works for further reading are included while a comprehensive bibliography concludes the volume

Contemporary Ethnic Geographies in America Ines M. Miyares, Christopher A. Airriess, 2006-10-19 Ethnic diversity has marked the United States from its inception From the migration of the ancestors of Native Americans to the increasingly diverse immigrant populations arriving today it is impossible to separate ethnicity from an understanding of the United States as a country and Americans as a people At an ever increasing pace America today is experiencing watershed changes in its social cultural and ethnic racial geographies Considering the impact of these transformations this unique text examines the experiences of a range of ethnic groups in both historical and contemporary context It begins by laying out a comprehensive conceptual framework that integrates immigration theory globalization transnational community formation and urban cultural and economic geography The contributors then present a rich set of case studies of key ethnic and racial communities including those of long standing significance such as Native Americans African Americans and Mexican Americans along with the Latin American and Asian groups that make up the vast majority of newer immigrants Each case offers a brief historical overview of the group's immigration experience and settlement patterns and discusses its contemporary dynamics All of these people have transformed and been transformed by the places in which they have settled

Exploring these changing communities places and landscapes this book offers a nuanced understanding of the evolution of America's contemporary ethnic geographies Contributions by Christopher A Airriess Daniel D Arreola Kate A Berry Thomas D Boswell Elizabeth Chacko Brian J Godfrey Zolt n Grossman Michael Hawkins Terry Ann Jones Wei Li Ines M Miyares L HoMana Pawiki Marie Price Michael Reibel Dana G Reimer Emily Skop James A Tyner Milton Vickerman and Bobby M Wilson

Family Matters Marisel C. Moreno, 2012 Adopting a comparative and multidisciplinary approach to Puerto Rican literature Marisel Moreno juxtaposes narratives by insular and U S Puerto Rican women authors in order to examine their convergences and divergences By showing how these writers use the trope of family to question the tenets of racial and social harmony an idealized past and patriarchal authority that sustain the foundational myth of la gran familia she argues that this metaphor constitutes an overlooked literary contact zone between narratives from both sides Moreno proposes the recognition of a transinsular corpus to reflect the increasingly transnational character of the Puerto Rican population and addresses the need to broaden the literary canon in order to include the diaspora Drawing on the fields of historiography cultural studies and gender studies the author defies the tendency to examine these literary bodies independently of one another and therefore aims to present a more nuanced and holistic vision of this literature

evolution to paint this challenging portrait of rapid environmental and evolutionary change Their conclusions argue for a revision of existing interpretations of the fossil record and the processes including invading Eurasian peoples that have produced it Encyclopedia of Post-Colonial Literatures in English Eugene Benson,L.W.
