development **The Complete Idiot's Guide to Modern China** Vanessa Lide Whitcomb, Michael Benson, 2002-09-01 This work provides an informative guide to the roots of modern China. It also looks at the key challenges and opportunities that face China in the 21st century Modern China: All That Matters Jonathan Clements, 2011-10-28 In *Modern China: All That Matters* Jonathan Clements presents China as the Chinese themselves see it. He explains the key issues of national reconstruction, the Cold War, the Cultural Revolution, and the dizzying spectacle of China's economic reform. Clements offers a Chinese perspective on such events as the Handover of Hong Kong and chronicles the historical events that continue to resonate today in Chinese politics, economics, culture, and quality of life. A final chapter examines China's role in the global marketplace, its indirect effect on foreign economies from Australia to America to Africa, and its growing military might, with an assessment of the damage done to its environment and population. In his most provocative assertion, Clements suggests that China's contemporary problems are not the trials of a developing nation but a possible vision of our own future. This accessible and readable book will appeal both to students and general readers, giving a fascinating introduction to modern China and what matters most about it Shanghai Splendor Wen-hsin Yeh, 2007-09-03 Rich with details of everyday life, this multifaceted social and cultural history of China's leading metropolis in the twentieth century offers a kaleidoscopic view of Shanghai as the major site of Chinese modernization. Engaging the entire span of Shanghai's modern history from the Opium War to the eve of the Communist takeover in 1949, Wen-hsin Yeh traces the evolution of a dazzling urban culture that became alternately isolated from and intertwined with China's tumultuous history. Looking in particular at Shanghai's leading banks, publishing enterprises, and department stores, she sketches the rise of a new maritime and capitalist economic culture among the city's middle class. Making extensive use of urban tales and visual representations, the book captures urbanite voices as it uncovers the sociocultural dynamics that shaped the people and their politics **Publishing, Culture, and Power in Early Modern China** Kai-wing Chow, 2004 This path-breaking book argues that printing, both with woodblocks and with movable type, exerted a profound influence on Chinese society in the sixteenth and seventeenth centuries Rescuing History from the Nation Prasenjit Duara, 1996-11-20 Prasenjit Duara offers the first systematic account of the relationship between the nation-state, nationalism, and the concept of linear history. Focusing primarily on China and including discussion of India, Duara argues that many historians of postcolonial nation-states have adopted a linear evolutionary history of the Enlightenment colonial model. As a result, they have written repressive, exclusionary, and incomplete accounts. The backlash against such histories has resulted in a tendency to view the past as largely constructed, imagined, or invented. In this book, Duara offers a way out of the impasse between constructionism and the evolving nation: he redefines history as a series of multiple, often conflicting narratives produced simultaneously at national, local, and transnational levels. In a series of closely linked case studies, he considers such examples as the very different histories produced by Chinese nationalist reformers and partisans of popular religions, the conflicting narratives of statist nationalists and of advocates of federalism in early

twentieth century China He demonstrates the necessity of incorporating contestation appropriation repression and the return of the repressed subject into any account of the past that will be meaningful to the present Duara demonstrates how to write histories that resist being pressed into the service of the national subject in its progress or stalled progress toward modernity

Changing Meanings of Citizenship in Modern China Merle Goldman, Elizabeth J. Perry, 2002-06-30 This collection of essays addresses the meaning and practice of political citizenship in China over the past century raising the question of whether reform initiatives in citizenship imply movement toward increased democratization After slow but steady moves toward a new conception of citizenship before 1949 there was a nearly complete reversal during the Mao regime with a gradual reemergence beginning in the Deng era of concerns with the political rights as well as the duties of citizens The distinguished contributors to this volume address how citizenship has been understood in China from the late imperial era to the present day the processes by which citizenship has been fostered or undermined the influence of the government the different development of citizenship in mainland China and Taiwan and the prospects of strengthening citizens rights in contemporary China Valuable for its century long perspective and for placing the historical patterns of Chinese citizenship within the context of European and American experiences *Changing Meanings of Citizenship in Modern China* investigates a critical issue for contemporary Chinese society

Modern China's Ethnic Frontiers Hsiao-ting Lin, 2010-09-13 The purpose of this book is to examine the strategies and practices of the Han Chinese Nationalists vis vis post Qing China s ethnic minorities as well as to explore the role they played in the formation of contemporary China s Central Asian frontier territoriality and border security The Chinese Revolution of 1911 initiated by Sun Yat sen liberated the Han Chinese from the rule of the Manchus and ended the Qing dynastic order that had existed for centuries With the collapse of the Qing dynasty the Mongols and the Tibetans who had been dominated by the Manchus took advantage of the revolution and declared their independence Under the leadership of Yuan Shikai the new Chinese Republican government in Peking in turn proclaimed the similar five nationality Republic proposed by the Revolutionaries as a model with which to sustain the deteriorating Qing territorial order The shifting politics of the multi ethnic state during the regime transition and the role those politics played in defining the identity of the modern Chinese state were issues that would haunt the new Chinese Republic from its inception to its downfall *Modern China's Ethnic Frontiers* will be of interest to students and scholars of Chinese history Asian history and modern history
