Modern Clan Politics The Power Of Blood In Kazakhstan And Beyond:

Modern Clan Politics Edward Schatz,2004 Edward Schatz explores kin based clan divisions in the post Soviet state of Kazakhstan demonstrating that contrary to popular belief kinship divisions do not fade from political life under modernity Drawing from extensive ethnographic and archival research he argues that Kazakhs use clan networks to obtain goods and political favor Thus a vibrant politics of kin based clans or subethnic groups has emerged and flourished in post Soviet Kazakhstan

Kyrgyzstan beyond "Democracy Island" and "Failing State" Johan Engvall,Marlene Laruelle,2015-12-03 Kyrgyzstan is probably the best known of any central Asian country the one that has elicited the most academic publications reports by NGOs or advocacy groups and op eds in the media The country opened up massively to Western influence through development aid for civil society and for economic reforms faced two revolutions in 2005 and 2010 and experienced bloody interethnic conflict in 2010 Kyrgyzstan is therefore commonly studied as a twin case that of having been for more than two decades both an island of democracy in Central Asia and the only country of the region to have made the transition to a parliamentary regime and the archetypical example of a failing state one marked by endemic corruption criminalization of the state apparatus and collapse of public services This volume goes beyond these two clichés and provides a research based and unideological narrative on the country It identifies political dynamics their powerbrokers and the role of international organizations investigates the profound social transformations of both the rural and the urban worlds and examines the broad feeling by local actors that Kyrgyzstan's fragile state identity should be consolidated This book gives the floor to the new generation of scholars whose long term vernacular language field research made it possible to provide new interpretative prisms for the complex evolution of Kyrgyzstan

Movement, Power and Place in Central Asia and Beyond Madeleine Reeves,2013-09-13 Central Asia is a region singularly marked by attempts to transform social life by transforming place Drawing together established scholars and a new generation of historians geographers and anthropologists this volume brings empirical specificity and theoretical depth to debates about the politics of place making in this diverse region making an important contribution to Central Asian studies and a distinctive regional comparison to the spatial turn in social analysis Case studies draw on archival research and oral history to explore the workings and unintended consequences of policies aimed at sedentarizing collectivizing and resettling populations as a means to fix and territorialize space The book also examines ethnographic studies attuned to the role of movement in sustaining social life from Soviet era trade networks that linked rural Central Asia and the Russian metropolis to pilgrimage routes through which kazakhness is articulated to the contemporary moralization of migration abroad in search of work Rather than analysing flows as abstract processes the book enquires about effortful activity material infrastructures political relations and social habits through which people ideas knowledge skills and material objects move or are prevented from moving As such it offers new insights into the complex intersections of movement power and place in this important region over the last two centuries This book

was originally published as a special issue of Central Asian Survey **Democracy in Central Asia** Mariya Y. Omelicheva, 2015-07-21 Promoting democracy has long been a priority of Western foreign policy In practice however international attempts to expand representative forms of government have been inconsistent and are often perceived in the West to have been failures The states *The Rule of the Clan* Mark S. Weiner, 2013-03-12 A revealing look at the role kin based societies have played throughout history and around the world A lively wide ranging meditation on human development that offers surprising lessons for the future of modern individualism The Rule of the Clan examines the constitutional principles and cultural institutions of kin based societies from medieval Iceland to modern Pakistan Mark S Weiner an expert in constitutional law and legal history shows us that true individual freedom depends on the existence of a robust state dedicated to the public interest In the absence of a healthy state he explains humans naturally tend to create legal structures centered not on individuals but rather on extended family groups The modern liberal state makes individualism possible by keeping this powerful drive in check and we ignore the continuing threat to liberal values and institutions at our peril At the same time for modern individualism to survive liberals must also acknowledge the profound social and psychological benefits the rule of the clan provides and recognize the loss humanity sustains in its transition to modernity Masterfully argued and filled with rich historical detail Weiner's investigation speaks both to modern liberal societies and to developing nations riven by clannism including Muslim societies in the wake of the Arab Spring *Regime Transition in Central Asia* Dagikhudo Dagiev, 2013-10-30 Presenting a study of regime transition political transformation and the challenges that faced the post Communist republics of Central Asia on independence this book focuses on the process of transition in Tajikistan and Uzbekistan and the obstacles that these newly independent states are facing in the post Communist period The book analyses how in the early stages of their independence the governments of Central Asia declared that they would build democratic states but that in practice they demonstrated that they are more inclined towards authoritarianism With the declaration of independence Tajikistan and Uzbekistan like many other former Soviet national republics were faced with the issues of nationalism ethnicity identity and territorial delimitation This book looks at how the discourse of patrimonial nationalism in post Communist Tajikistan and Uzbekistan has been the elites strategy to address all these issues to maintain the stateness of their respective countries to preserve the unity of their nation to fill the ideological void of post Communism to prevent the rise of Islam and to legitimize their authoritarian practice Arguing against the claim that the Central Asian states have undergone divergent paths of transition the book discusses how they are in fact all authoritarian although exhibiting different degrees of authoritarianism This book provides a useful contribution to studies on Central Asian Politics and International Relations *Routledge Handbook of Politics in Asia* Shipping Hua, 2018-03-15 The Routledge Handbook of Politics in Asia is designed to serve as a comprehensive reference guide to politics in Asia Covering East South Southeast and Central Asia this handbook brings together the work of leading international academics to cover

the political histories institutions economies and cultures of the region Taking a comparative approach it is divided into four parts including A thorough introduction to the politics of the four regions of Asia from the perspectives of democratization foreign policy political economy and political culture An examination of the Big Three of Asia China India and Japan focusing on issues including post Mao reform China s new world outlook Indian democracy and Japanese foreign policy A discussion of important contemporary issues such as human rights the politics of the internet security nationalism and geopolitics An analysis of the relationship between politics and certain theoretical ideas such as Confucianism Hinduism socialist constitutionalism and gender norms As an invaluable and all inclusive resource this handbook will be useful for students scholars researchers and practitioners of Asian politics and comparative politics

Presidents, Oligarchs and Bureaucrats Margarete Klein,Hans-Henning Schröder,2016-04-08 Over the last decade the transition paradigm which is based on the conviction that authoritarian political systems would over time necessarily develop into democracies has been subjected to serious criticism The complex political and societal developments in the post Soviet region in particular have exposed flaws in the claim that a shift from authoritarianism to democracy is inevitable Using case studies from the post Soviet region a broad range of international contributors present an original and innovative contribution to the debate They explore the character of post Soviet regimes and review the political transformations they have experienced since the end of the Cold War Through a combination of theoretical approaches and detailed empirical analysis the authors highlight the difficulties and benefits of applying the concepts of hybrid regimes competitive authoritarianism and neopatrimonialism to the countries of the post Soviet space Through this in depth approach the authors demonstrate how Presidents Oligarchs and Bureaucrats in the region lead their countries examine the sources of their legitimacy and their relationship to the societies they govern and advance the general theoretical debate on regime change and transition paths

Development in Central Asia and the Caucasus Sophie Hohmann,Claire Mouradian,Silvia Serrano,2014-06-25 After the final collapse of the Soviet Union the so called last empire in 1991 the countries of Central Asia Kazakhstan Kyrgyzstan Uzbekistan Tajikistan Turkmenistan and of the Caucasus Armenia Azerbaijan Georgia became independent nations These countries previously production centres under the socialist planning system of the Soviet Union have made enormous economic adjustments in order to develop or attempt to develop along capitalist lines As this study will show however inequality in Central Asia and the Caucasus is widening as the Soviet systems of healthcare and state provisions disappear Rejecting the Cold War era East West paradigm often used to analyse the development of these nations this study analyses development along the North South lines which characterise the migration patterns and poverty levels of much of the rest of the developed world This opens up new avenues of research and helps us understand why it is for instance that this region is better characterised as a new South as skilled workers flood out of the territories and into Russia and Western Europe Development in Central Asia and the Caucasus draws together detailed analyses of the development of migration economics as the region s oil wealth

further enhances its strategic and economic importance to Russia the US the Middle East and to the EU **The SAGE Handbook of Social Anthropology** Richard Fardon,Oliva Harris,Trevor H J Marchand,Cris Shore,Veronica Strang,Richard Wilson,Mark Nuttall,2012-07-25 In two volumes the SAGE Handbook of Social Anthropology provides the definitive overview of contemporary research in the discipline It explains the what where and how of current and anticipated work in Social Anthropology With 80 authors contributing more than 60 chapters this is the most comprehensive and up to date statement of research in Social Anthropology available and the essential point of departure for future projects The Handbook is divided into four sections Part I Interfaces examines Social Anthropology s disciplinary connections from Art and Literature to Politics and Economics from Linguistics to Biomedicine from History to Media Studies Part II Places examines place region culture and history from regional area studies to a globalized world Part III Methods examines issues of method from archives to war zones from development projects to art objects and from ethics to comparison Part IV Futures anticipates anthropologies to come in the Brain Sciences in post Development in the Body and Health and in new Technologies and Materialities Edited by the leading figures in social anthropology the Handbook includes a substantive introduction by Richard Fardon a think piece by Jean and John Comaroff and a concluding last word on futures by Marilyn Strathern The authors each at the leading edge of the discipline contribute in depth chapters on both the foundational ideas and the latest research Comprehensive and detailed this magisterial Handbook overviews the last 25 years of the social anthropological imagination It will speak to scholars in Social Anthropology and its many related disciplines
