Ireton, 2025 Presents Stifter's multi faceted oeuvre to both a German Studies and non specialized Anglophone audience showing today's readers the relevance of its concerns The canonical nineteenth century Austrian writer Adalbert Stifter 1805 1868 long considered a staid stylist if not mannerist and a conservative bourgeois apologist has recently become the subject of more vibrant literary theoretical approaches While Stifter is primarily known for his fictional prose including two lengthy novels *Der Nachsommer* *Indian Summer* and *Witiko* and numerous novella length narratives he also wrote dozens of cultural political and scientific essays Moreover his professional activity in the Austrian school system and his diverse publications in the realm of pedagogy not only shed interpretive light on his literary production but also inform enduring debates on education reform and the intellectual historical question of *Bildung* This volume covers a wide range of texts and topics within Stifter's oeuvre With respect to literary historical coverage it extends from his earliest tale *Der Condor* *The Condor* 1840 to his posthumously published chronicle *Aus dem bairischen Walde* *From the Bavarian Forest* 1868 in terms of genre it embraces his novels and novellas his essayistic work and even his landscape paintings finally it pursues a host of deeper problems and thematic strands that permeate his texts and make them relevant to readers today These include neo conservatism social unrest law and order ecology climatology bioregionalism and the Anthropocene *David Mitchell's Post-Secular World* Rose Harris-Birtill, 2019-01-10 Since the publication of *Ghostwritten* 1999 David Mitchell has rapidly established himself as one of the most inventive and important British novelists of the 21st century In this landmark study Rose Harris Birtill reveals the extent to which Mitchell has created an interconnected fictional world across the full run of his writing Covering Mitchell's complete fictions from bestselling novels such as *Cloud Atlas* 2004 *The Bone Clocks* 2014 and *number9dream* 2001 to his short stories and his libretti for the operas *Sunken Garden* and *Wake* this book examines how Buddhist influences inform the ethical worldview that permeates his writing Using a comparative theoretical model drawn from the Tibetan mandala to map Mitchell's fictional world Harris Birtill positions Mitchell as central to a new generation of post secular writers who re examine the vital role of belief in galvanizing action amidst contemporary ecological political and humanitarian crises David Mitchell's *Post Secular World* features two substantial new interviews with the author a chronology of his fictions and a selected bibliography of important critical writings on his work **The Cambridge History of World Literature** Debjani Ganguly, 2021-09-09 World Literature is a vital part of twentieth first century critical and comparative literary studies As a field that engages seriously with function of literary studies in our global era the study of World literature requires new

approaches The Cambridge History of World Literature is founded on the assumption that World Literature is not all literatures of the world nor a canonical set of globally successful literary works It highlights scholarship on literary works that focus on the logics of circulation drawn from multiple literary cultures and technologies of the textual While not rejecting the nation as a site of analysis these volumes will offer insights into new cartographies the hemispheric the oceanic the transregional the archipelagic the multilingual local that better reflect the multi scalar and spatially dispersed nature of literary production It will interrogate existing historical methodological and cartographic boundaries and showcase humanistic and literary endeavors in the face of world scale environmental and humanitarian catastrophes **Modern**

**German Literature** Michael Minden, 2013-04-30 This accessible and fresh account of German writing since 1750 is a case study of literature as a cultural and spiritual resource in modern societies Beginning with the emergence of German language literature on the international stage in the mid eighteenth century the book plays down conventional labels and periodisation of German literary history in favour of the explanatory force of international cultural impact It explains for instance how specifically German and Austrian conditions shaped major contributions to European literary culture such as Romanticism and the language scepticism of the early twentieth century From the First World War until reunification in 1990 Germany's defining experiences have been ones of catastrophe The book provides a compelling overview of the different ways in which German literature responded to historical disaster They are first Modernism the Literature of Negation second the literature of totalitarian regimes Third Reich and German Democratic Republic and third the various creative strategies and evasions of the capitalist democratic multi medial cultures of the Weimar and Federal Republics The volume achieves a balance between textual analysis and cultural theory that gives it value as an introductory reference source and as an original study and as such will be essential reading for students and scholars alike **A Most Mysterious Union** Steve

Wilkerson , 2019-06-20 Readers today are especially thrilled by the prospect of good news Drought and global warming civil war and famine poverty and economic inequity yes bad news abounds This book by Dr Stephen Wilkerson on the other hand is about hope and optimism for the future The recorded history of our world is largely one of a sometimes worthy patriarchal striving It has however all too often been tarnished marred and horribly disfigured by the hatreds intolerance and destruction that have accompanied it And the good news There is another way poignantly and persuasively outlined nearly two hundred years ago by Johann Wolfgang von Goethe involving the Divine Feminine Goethe's masterpiece Faust involves an immensely intelligent but profoundly narcissistic man who cruelly and selfishly exploits and ultimately ruins the life of an innocent maiden In the legend on which Goethe's great work is based Faust understandably winds up in Hell just as he does in virtually every version of this well known wager with the Devil But in Goethe's interpretation the deeply flawed protagonist is received into Heaven by the Mother of God Herself How and why can this be Mankind's long history of heroic accomplishment has never been sufficiently tempered by a sense of global community and cooperation that mitigate the

horror and devastation that ever seem to march along beside a single minded struggle to achieve and prevail And how may this missing unity be brought about Alchemy as understood in this book has nothing to do with an early and misguided chemistry and everything to do with the sort of individual transformation necessary for a better more gracious more inclusive world The millennial patterns of blind violence and repression can only be ameliorated by a thoughtful and genuine embrace of open minded reception of difference and heart felt valuation of a larger borderless world in which all grow together rather than further apart Such is the promise of the final words in Goethe's Faust The Divine Feminine leads us forward

Ambition and Anxiety Line Henriksen, 2006 This comparative study investigates the epic lineage that can be traced back from Derek Walcott's Omeros and Ezra Pound's Cantos through Dante's Divina Commedia to the epic poems of Virgil and Homer and identifies and discusses in detail a number of recurrent key topoi A fresh definition of the concept of genre is worked out and presented based on readings of Homer The study reads Pound's and Walcott's poetics in the light of Roman Jakobson's notions of metonymy and metaphor placing their long poems at the respective opposite ends of their language poles Although there has already been an intermittent critical focus on the classical and Dantean antecedents of Walcott's poetry the present study is the first to bring together the whole range of epic intertextualities underlying Omeros and the first to read this Caribbean masterpiece in the context of Pound's achievement Book Jacket **The Exhaustion of**

**Difference** Alberto Moreiras, 2001-09-26 A sophisticated theoretical reconsideration of Latin American studies critiquing past work and proposing new frameworks for the discipline Tense Future Paul K. Saint-Amour, 2015-03-02 We know that trauma can leave syndromes in its wake But can the anticipation of violence be a form of violence as well Tense Future argues that it can that twentieth century war technologies and practices particularly the aerial bombing of population centers introduced non combatants to a coercive and traumatizing expectation During wartime civilians braced for the next raid during peacetime they braced for the next war The pre traumatic stress they experienced permeates the century's public debates and cultural works In a series of groundbreaking readings Saint Amour illustrates how air war prophets theorized the wounding power of anticipation how archive theory changed course in war's shadow and how speculative fiction conjured visions of a civilizational collapse that would end literacy itself And in this book's central chapters he shows us how Ford Madox Ford Robert Musil James Joyce Virginia Woolf and other interwar modernist writers faced the memory of one war and the prospect of another some by pitting their fictions encyclopedic scale and formal turbulence against total war others by conceding war's inevitability while refusing to long for a politically regressive peace Total war a conflict that exempts no one disregarding any difference between soldier and civilian Tense Future forever alters our understanding of the concept of total war by tracing its emergence during the First World War its incubation in air power theory between the wars and above all its profound partiality For total war during most of the twentieth century meant conflict between imperial nation states it did not include the violence those states routinely visited on colonial subjects during peacetime Tacking back and forth

between metropole and colony between world war and police action Saint Amour describes the interwar refashioning of a world system of violence production one that remains largely intact in our own moment of perpetual interwar *Translation and Modernization in East Asia in the Nineteenth and Early Twentieth Centuries* Wong Lawrence Wangchi, 2018-03-15 This book discusses how Western ideas knowledge concepts and practices were imported adapted and even transformed into varied contexts in East Asia In particular authors in this rich volume focus on the role translation played in the processes of modernization in China Japan and Korea in the 19th and early 20th centuries **The Cambridge Companion to Gabriel García Márquez** Philip Swanson, 2010-07-01 Gabriel García Márquez is Latin America's most internationally famous and successful author and a winner of the Nobel Prize His oeuvre of great modern novels includes *One Hundred Years of Solitude* and *Love in the Time of Cholera* His name has become closely associated with Magical Realism a phenomenon that has been immensely influential in world literature This Companion first published in 2010 includes new and probing readings of all of García Márquez's works by leading international specialists His life in Colombia the context of Latin American history and culture key themes in his works and their critical reception are explored in detail Written for students and readers of García Márquez the Companion is accessible for non Spanish speakers and features a chronology and a guide to further reading This insightful and lively book will provide an invaluable framework for the further study and enjoyment of this major figure in world literature Modernism, Empire, World Literature Joe Cleary, 2021-06-17 Offers a bold new argument about how Irish American and Caribbean modernisms helped remake the twentieth century world literary system The Routledge Companion to World Literature Theo D'haen, David Damrosch, Djelal Kadir, 2011-09-14 In the age of globalization the category of World Literature is increasingly important to academic teaching and research The Routledge Companion to World Literature offers a comprehensive pathway into this burgeoning and popular field Separated into four key sections the volume covers the history of World Literature through significant writers and theorists from Goethe to Said Casanova and Moretti the disciplinary relationship of World Literature to areas such as philology translation globalization and diaspora studies theoretical issues in World Literature including gender politics and ethics a global perspective on the politics of World Literature The forty eight outstanding contributors to this companion offer an ideal introduction to those approaching the field for the first time or looking to further their knowledge of this extensive field **James Joyce and the Irish Revolution** Luke Gibbons, 2023-05-08 A provocative history of Ulysses and the Easter Rising as harbingers of decolonization When revolutionaries seized Dublin during the 1916 Easter Rising they looked back to unrequited pasts to point the way toward radical futures transforming the Celtic Twilight into the electric light of modern Dublin in James Joyce's *Ulysses* For Luke Gibbons the short lived rebellion converted the Irish renaissance into the beginning of a global decolonial movement *James Joyce and the Irish Revolution* maps connections between modernists and radicals tracing not only Joyce's projection of Ireland onto the world stage but also how revolutionary leaders like Ernie O'Malley turned to *Ulysses* to make sense of

their shattered worlds Coinciding with the centenary of both Ulysses and Irish independence this book challenges received narratives about the rebellion and the novel that left Ireland changed changed utterly

**The Ordnance Survey and Modern Irish Literature** C  il  n Parsons, 2016 The Ordnance Survey and Modern Irish Literature offers a fresh new look at the origins of literary modernism in Ireland Beginning with the archives of the Ordnance Survey which mapped Ireland between 1824 and 1846 the book argues that the roots of Irish modernism lie in the attempt by the Survey to produce a comprehensive archive of a land emerging rapidly into modernity Drawing on literary theory studies of space the history of cartography and Irish Studies the book paints a picture of Irish writing deeply engaged in the representation of the multi layered landscape and will appeal to students of Irish literature modernism Irish history mapshistory and theories of space and place

**The Oxford Handbook of Modern Irish Fiction** Liam Harte, 2020-10-15 The Oxford Handbook of Modern Irish Fiction presents authoritative essays by thirty five leading scholars of Irish fiction They provide in depth assessments of the breadth and achievement of novelists and short story writers whose collective contribution to the evolution and modification of these unique art forms has been far out of proportion to Ireland s small size The volume brings a variety of critical perspectives to bear on the development of modern Irish fiction situating authors texts and genres in their social intellectual and literary historical contexts The Handbook s coverage encompasses an expansive range of topics including the recalcitrant atavisms of Irish Gothic fiction nineteenth century Irish women s fiction and its influence on emergent modernism and cultural nationalism the diverse modes of irony fabulism and social realism that characterize the fiction of the Irish Literary Revival the fearless aesthetic radicalism of James Joyce the jolting narratological experiments of Samuel Beckett Flann O Brien and M irt n Cadhain the fate of the realist and modernist traditions in the work of Elizabeth Bowen Frank O Connor Se n O Faol in and Mary Lavin and in that of their ambivalent heirs Edna O Brien John McGahern and John Banville the subversive treatment of sexuality and gender in Northern Irish women s fiction written during and after the Troubles the often neglected genres of Irish crime fiction science fiction and fiction for children the many hued novelistic responses to the experiences of famine revolution and emigration and the variety and vibrancy of post millennial fiction from both parts of Ireland Readably written and employing a wealth of original research The Oxford Handbook of Modern Irish Fiction illuminates a distinguished literary tradition that has altered the shape of world literature

*Forms of Life* Andreas Gailus, 2020-09-15 In *Forms of Life* Andreas Gailus argues that the neglect of aesthetics in most contemporary theories of biopolitics has resulted in an overly restricted conception of life He insists we need a more flexible notion of life one attuned to the interplay and conflict between its many dimensions and forms *Forms of Life* develops such a notion through the meticulous study of works by Kant Goethe Kleist Nietzsche Wittgenstein Benn Musil and others Gailus shows that the modern conception of life as a generative organizing force internal to living beings emerged in the last decades of the eighteenth century in biological thought At the core of this vitalist strand of thought Gailus maintains lies a persistent emphasis on the

dynamics of formation and deformation and thus on an intrinsically aesthetic dimension of life *Forms of Life* brings this older discourse into critical conversation with contemporary discussions of biopolitics and vitalism while also developing a rich conception of life that highlights rather than suppresses its protean character Gailus demonstrates that life unfolds in the open ended interweaving of the myriad forms and modalities of biological ethical political psychical aesthetic and biographical systems

**The End of Literature, Hegel, and the Contemporary Novel** Francesco Campana, 2019-11-28

This book explores the concept of the end of literature through the lens of Hegel's philosophy of art In his version of Hegel's end of art thesis Arthur Danto claimed that contemporary art has abandoned its distinctive sensitive and emotive features to become increasingly reflective Contemporary art has become a question of philosophical reflection on itself and on the world thus producing an epochal change in art history The core idea of this book is that this thesis applies quite well to all forms of art except one namely literature literature resists its end Unlike other arts which have experienced significant fractures in the contemporary world Campana proposes that literature has always known how to renew itself in order to retain its distinguishing features so much so that in a way it has always come to terms with its own end Analysing the distinct character of literature this book proposes a new and original interpretation of the end of art thesis showing how it can be used as a key conceptual framework to understand the contemporary novel *Everything and Less* Mark
