Modern Era Of Coronary Thrombolysis:

The Modern Era of Coronary Thrombolysis Richard C. Becker, 2012-12-06 Coronary heart disease remains the leading cause of death for men and women in the United States and other industrialized nations Acute myocardial infarction accounts for a majority of these deaths approaching 750 000 yearly Thrombolytic therapy has revolutionized the treatment of myocardial infarction saving lives to a greater extent than any treatment developed to date The identification of patients best suited for thrombolytic therapy has been a challenging task as has the ideal adjuvant strategy Further the noninvasive diagnosis of treatment successes and failures as well as the expeditious triaging of patients requiring mechanical surgical revascularization have been difficult to define but progress has been made recently The emergence of information vital for patient care has appeared at an extraordinary pace with hundreds of articles being published yearly Unfortunately a resource devoted to the area of thrombolysis does not exist making the dissemination of information to physicians scientists and health care providers problematic The Modern Era of Coronary Thrombolysis is designed to bring the medical and scientific communities up to date It will serve as a foundation for future investigation as well as a resource which can be referred to for many years to come Lipid-Lowering Therapy and Progression of Coronary Atherosclerosis A.V. Bruschke, Johan H. C. Reiber, K.J. Lie, Hein J.J. Wellens, 2012-12-06 A unique overview of all major angiographic lipid intervention trials presented by their principal investigators Basic mechanisms and methodological aspects including biochemical as well as angiographic aspects are discussed by experts in these fields A careful comparison of all available data permits an analysis to be made of what may currently be considered proved which aspects merit further investigation and which hypotheses should be rejected Audience Clinicians involved in the practice of lipid lowering and investigators involved in lipid lowering clinical trials Scientists involved in other areas of lipid research and investigators conducting coronary angiographic trials designed to study the influence of different interventions will find a wealth of information and practical guidelines in this book
