The Emperor and the World Alicia Walker, 2012-04-30 Byzantine imperial imagery is commonly perceived as a static system In contrast to this common portrayal this book draws attention to its openness and responsiveness to other artistic traditions Through a close examination of significant objects and monuments created over a 350 year period from the ninth to the thirteenth century Alicia Walker shows how the visual articulation of Byzantine imperial power not only maintained a visual vocabulary inherited from Greco Roman antiquity and the Judeo Christian tradition but also innovated on these artistic precedents by incorporating styles and forms from contemporary foreign cultures specifically the Sasanian Chinese and Islamic worlds In addition to art and architecture this book explores historical accounts and literary works as well as records of ceremonial practices thereby demonstrating how texts ritual and images operated as integrated agents of imperial power Walker offers new ways to think about cross cultural interaction in the Middle Ages and explores the diverse ways in which imperial images employed foreign elements in order to express particularly Byzantine meanings **The Routledge**

Ingela Nilsson, 2020-12-17 In twelfth century Constantinople writers worked on commission for the imperial family or aristocratic patrons Texts were occasioned by specific events representing both a link between writer and patron and between literary imagination and empirical reality This is a study of how one such writer Constantine Manasses achieved that aim Manasses depicted and praised the present by drawing from the rich sources of the Graeco Roman and Biblical tradition thus earning commissions from wealthy friends during a career that spanned more than three decades While the occasional

literature of writers like Manasses has sometimes been seen as empty rhetoric devoid of literary ambition this study assumes that writing on command privileges originality and encourages the challenging of conventions A society like twelfth century Byzantium in which occasional writing was central called for a strong and individual authorial presence since voice was the primary instrument for a successful career
