The essays in this book look back at some of the most important events where a role for an archaeology concerned with the past in the present first emerged and look forward to the practical and theoretical issues now central to a socially engaged discipline and shaping its future This book is published in honor of Professor Peter Ucko who has played an unparalleled role in promoting awareness of the core issues in this volume among archaeologists

Shamans/neo-Shamans Robert J. Wallis,2003 Robert J Wallis explores the interface between the new and prehistoric shamans of popular culture and anthropology drawing on interviews with a variety of practitioners particularly contemporary pagans in Britain and north America How the Neolithics Influenced Rock 'n' Roll Andrew Johnstone,2010-10-13 This book sets out to explore the connections between megalithic monuments and Rock n Roll music by first addressing what the megalithic structures would have originally meant to the builders and users of these sites and at the statements they were making at that time It then looks at how Rock n Roll artists have incorporated images of these monuments into album cover designs by looking at specific examples in an attempt to understand why despite being separated by millennia from the original builders they chose to use such places to represent the statements they are making through their music in the late 20th and early 21st centuries The Recumbent Stone Circles of Aberdeenshire John Hill,2021-03-15 Recumbent Stone Circles are a distinctive architectural style of British stone circle Built circa 2500 BC they dominated the Late Neolithic

landscape of Aberdeenshire Scotland This book discusses their archaeology and using experimental archaeology explains how the original builders went about building these magnificent stone circles Sharing the results of the author's unique experiments the book demonstrates how measured ropes were used to set out the geometrical design of the stone rings as well as dictate the dimensions of the circle's respective orthostats Moreover given the book's provision of instructions on to repeat these experiments the reader will be able to explore how these circles not only captured their corresponding astronomy but how they were also positioned in the landscape so that they were astronomically aligned towards each other creating a network of inter aligned stone circles that enabled the prehistoric communities to synchronise both time and space across the vast regions of Aberdeenshire The Britannias: An Archipelago's Tale Alice Albinia, 2024-02-27 Longlisted for the Ondaatje Prize and the Women's Prize for Non Fiction Shortlisted for the Stanford Travel Writing Award A dazzlingly brilliant book Hannah Dawson editor of The Penguin Book of Feminist Writing A revelatory portrait of Britain through its islands The Britannias weaves history myth and travelogue to rewrite the story of this island nation From Neolithic Orkney Viking Shetland and Druidical Anglesey to the joys and strangeness of modern Thanet The Britannias explores the farthest reaches of Britain's island topography once known by the collective term Britanniae the Britains This expansive journey demonstrates how the smaller islands have wielded disproportionate influence on the mainland becoming the fertile ground of political cultural and technological innovations that shaped history throughout the archipelago In an act of feminist inquiry personal adventure and literary quest Alice Albinia embarks on a series of journeys that traverse Britain and reach beyond its contemporary borders from Europe to the Caribbean Ireland to Scandinavia She walks the coastlines of Lindisfarne sails through the Hebrides archipelago and bikes into Westminster at dawn As she takes us across extravagantly varied island topographies and surveys centuries of history Albinia ranges between languages and genres and through disparate island cultures She talks to stubbornly independent islanders and searches for archaeological and linguistic traces of island identities discovering distinct traditions and resistance to mainland control Trespassing into the past to understand the present The Britannias uncovers an enduring and subversive mythology of islands ruled by women Albinia finds female independence woven through Roman colonial reports and Welsh medieval poetry Restoration utopias and island folk songs These neglected epics offer fierce feminist countercurrents to mainstream narratives of British identity and shed new light on women's status in the body politic today Vivid perceptive and disruptive The Britannias boldly upturns established truths about Britain while revealing its suppressed and forgotten beauty Researching Paganisms Jenny Blain, Douglas Ezzy, Graham Harvey, 2004 Researchers of Paganism from a variety of disciplines examine how they have been affected by their contact with this nontraditional religion how this religion has been affected by academic researchers and what this reveals about participative research methods Cultural Turns/Geographical Turns Simon Naylor, James Ryan, Ian Cook, David Crouch, 2018-10-08 Introduces undergraduates to the key debates regarding space and culture and the key

Sculpture and Archaeology Andrew Jones, 2017-07-05 In recent years the intersections between art history and archaeology have become the focus of critical analysis by both disciplines Contemporary sculpture has played a key role in this dialogue The essays in this volume by art historians archaeologists and artists take the intersection between sculpture and archaeology as the prelude for analysis examining the metaphorical and conceptual role of archaeology as subject matter for sculptors and the significance of sculpture as a three dimensional medium for exploring historical attitudes to The Re-Enchantment of the West, Vol 2 Christopher Partridge, 2006-06-20 Challenging some assessments of archaeology religion in the West this study argues that although much organized religion particularly Christianity is in numerical decline in actual fact we are witnessing an alternative spiritual re enchantment of society and culture The Re-Enchantment of the West Christopher Partridge, 2005-01-04 As a book about emergent spirituality in the contemporary West this books focuses on the nature evolution and significance of new forms of religion and alternative spiritualities Part One of the book provides the theoretical background and guides the reader through some of the principal debates After an overview of the secularization thesis which argues that the West is becoming increasingly disenchanted the second chapter turns to the sociological analysis of new religions and alternative spiritualities Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch especially his enigmatic analysis of the emergence mystical religion which presciently provides helpful insights into understanding the contemporary alternative religious milieu Against sociologists such as Bryan Wilson and Steve Bruce this and the subsequent chapter argues that rather than being insignificant new forms of spirituality are actually proving to be a significant part of Western re enchantment Chapter 3 constructs a general theory of the re enchantment of the West
