Modern Art Thomas Craven, 1976      Modern Art. The Men, the Movements, the Meaning. [With Reproductions.].  
Thomas Craven (Writer on Art.), 1935      *Struggle Over the Modern* Dennis Raverty, 2005 The most familiar strain of this debate to us today is formalism which emphasized purity in art and culminated in the writing of the influential late modern critic Clement Greenberg The other critical position he contends is not as familiar to us today partly because it was so overshadowed by formalist thought in the postwar period This position emphasized the importance of experience over formal purity and is evident in the writing of Greenberg's rival Harold Rosenberg as well as in a number of American writers and critics from the first half of the century *Struggle Over the Modern* reconstitutes this neglected yet important dimension of the avant garde debate in American art criticism decade by decade Jacket      **Vida Americana - Mexican Muralists Remake American Art, 1925-1945** Barbara Haskell, Mark A. Castro, 2020-01-01 An in depth look at the transformative influence of Mexican artists on their U S counterparts during a period of social change The first half of the 20th century saw prolific cultural exchange between the United States and Mexico as artists and intellectuals traversed the countries shared border in both directions For U S artists Mexico's monumental public murals portraying social and political subject matter offered an alternative aesthetic at a time when artists were seeking to connect with a public deeply affected by the Great Depression The Mexican influence grew as the artists Jos Clemente Orozco Diego Rivera and David Alfaro Siqueiros traveled to the United States to exhibit sell their work and make large scale murals working side by side with local artists who often served as their assistants and teaching them the fresco technique *Vida Americana* examines the impact of their work on more than 70 artists including Marion Greenwood Philip Guston Isamu Noguchi Jackson Pollock and Charles White It provides a new understanding of art history one that acknowledges the wide ranging and profound influence the Mexican muralists had on the style subject matter and ideology of art in the United States between 1925 and 1945      **Tales from the Easel**, 2004 *Tales from the Easel* features seventy full color reproductions that convey the expressive allusive powers of narrative painting Though they range widely in subject and setting all of the paintings gathered here are rendered in a representational or realistic style Carrying moral social or patriotic messages the paintings are meant to teach enlighten or inspire Then again the paintings can also tweak the very conventions that define them with results that range from the delightfully idiosyncratic to the visionary Thomas Hart Benton Winslow Homer Andrew Wyeth and Jacob Lawrence are just some of the household names whose work appears in *Tales from the Easel* Others like Elihu Vedder and Lilly Martin Spencer are less well known but still vital to the development of narrative painting While some of the artists including George Caleb Bingham and Paul Cadmus were classically trained self taught painters such as Carlos Shoney Moon and Thomas Waterman Wood are also represented American rivers cities and battlefields are among the native surroundings shown in many of the paintings However artists also looked elsewhere for settings to Europe the Holy Land or even some imagined realm Charles

C Eldredge's essay discusses the rich and varied sources of American narrative painting from literature and history to childhood and domestic life and an essay by William Underwood Eiland provides a discussion of the southern tale telling tradition. Artist biographies by Reed Anderson and Stephanie J Fox appear opposite the paintings adding further context. *Tales from the Easel* a companion volume to the national touring exhibit of the same name is a stunning reminder of a tradition in American painting that has endured across two centuries and numerous art movements.
