Following his acclaimed studies of the state of modern France and how Hong Kong has changed since the 1997 handover Jonathan Fenby now turns his attention to one of the most interesting yet under reported figures of twentieth century history Chiang Kai shek was the man who lost China to the Communists As leader of the nationalist movement the Kuomintang Chiang established himself as head of the government in Nanking in 1928 Yet although he laid claim to power throughout the 1930s and was the only Chinese figure of sufficient stature to attend a conference with Churchill and Roosevelt during the Second World War his desire for unity was always thwarted by threats on two fronts Between them the Japanese and the Communists succeeded in undermining Chiang s power plays and after Hiroshima it was Mao Zedong who ended up victorious Brilliantly re creating pre Communist China in all its colour danger and complexity Jonathan Fenby s magisterial survey of this brave but unfulfilled life is destined to become the definitive account in the English language Buddhism In Late Ch'ing Political Thought Sin-wai Chan,2019-03-05 This book is a revised version of the doctoral thesis I presented to the School of Oriental and African Studies University of London in 1977 It is basically an attempt to study the religious cultural and political significance of Buddhism in late Ch ing intellectual thought through an examination of the writings of a few influential figures like liang Ch i ch ao K ang Yu wei Chang Ping lin and particularly T an Ssu t ung My findings reveal that Buddhism came to play a part in these reformers thought as a result of several factors the rekindled interest in Buddhism brought about through the efforts of laymen such as Yang Wen hui the need to find a counter balance to Christianity the search for a new unifying ideology for China as Confucianism crumbled before the challenge from the West and the immense potentiality of Buddhism to cater for the intellectuals diverse cultural and political purposes The masterpiece of T an Ssu t ung entitled An Exposition of Benevolence Jen hsiieh is chosen here to exemplify the use of Buddhism in late Ch ing political thought Buddhism not only served as the all embracing school of his eclectic synthesis it also formed the foundation of the major concepts in the treatise and was closely related to his radical thinking **Operation Kingfisher** Gary Followill,2023-07-05 The chain of events that led to the death of over 2 500 Prisoners of War one of Australia s worst wartime tragedies the cancellation of the rescue mission Operation Kingfisher Finally the true story of why the Sandakan POWs of World War II were not rescued despite a fully planned and resourced operation including men aircraft and naval vessels all equipped to carry out the rescue mission There have been several published theories on Operation Kingfisher which explore if the plan really existed why it was cancelled and who was to blame for its cancellation For the first time Operation Kingfisher analyses the effects government policy and the relationships of Churchill Roosevelt and Curtin had on the mission and its final outcome Using recently released archival documents the author uncovers the mistakes made by Allied governments and special forces in Borneo that triggered the Death Marches Number 2 and Number 3 It reveals the mistaken intelligence which caused the cancellation of the rescue mission of the POWs at the Sandakan POW camp a decision that ultimately resulted in their deaths Operation Kingfisher discloses the actual chain of events that led to the tragic sacrifice of

all but six survivors of the Sandakan POW camp      Some Did it for Civilisation, Some Did it for Their Country Jane E. Elliott, 2002 This book marks a total departure from previous studies of the Boxer War It evaluates the way the war was perceived and portrayed at the time by the mass media As such the book offers insights to a wider audience than that of sinologists or Chinese historians The important distinction made by the author is between image makers and eyewitnesses Whole categories of powerful image makers both Chinese and foreign never saw anything of the Boxer War but were responsible for disseminating images of that war to millions of people in China and throughout the world      **Hong Kong**

Kanjirakkat, Gordon McOuat, Sundar Sarukkai, 2017-07-05 The discourse and practice of science are deeply connected to explicit and implicit narratives of nature However nature has been understood in diverse ways by cultures across the world Could these different views of nature generate the possibility of alternate views on science Part of the innovative series Science and Technology Studies this volume looks at different conceptualizations of nature and the manner in which they structure the practice of the sciences The essays draw upon philosophy history sociology religion feminism mathematics and cultural studies and establish a dialogue between cultures through a multi disciplinary exploration of science With contributions from major scholars in the field this volume will deeply interest scholars and students of science and technology studies sociology history and philosophy of science as also environmental studies      **Islam and Global Dialogue** Dr Roger Boase, 2013-05-28 At a time when the world is becoming increasingly interdependent multi cultural and multi religious the concept of religious pluralism is under assault as a result of hatred prejudice and misunderstanding from both religious exclusivists and dogmatic secularists In this important and timely book twenty internationally acclaimed scholars and leading religious thinkers respond to contemporary challenges in different ways Some discuss the idea of a dialogue of civilisations others explore the interfaith principles and ethical resources of their own spiritual traditions All of them reject the notion that any single religion can claim a monopoly of

wisdom all are committed to the ideal of a just and peaceful society in which people of different religions and cultures can happily coexist More space is here given to Islam than to Judaism and Christianity because as a result of negative stereotypes it is the most misunderstood of the major world religions HRH Prince Hassan bin Talal of Jordan contributes the Foreword

**South Asian Studies**, 1989 *Bengal Divided* Joya Chatterji, 2002-06-06 An original and compelling account of the Hindu partitionist movement in Bengal *'Greater India' and the Indian Expansionist Imagination, c. 1885-1965* Jolita Zabarskaitė, 2022-11-07 This book is the first systematic study of the genealogy discursive structures and political implications of the concept of Greater India implying a Hindu colonization of Southeast Asia and used by extension to argue for a past Indian greatness as a colonial power reproducible in the present and future From the 1880s to the 1960s protagonists of the Greater India theme attempted to make a case for the importance of an expansionist Indian civilisation in civilizing Southeast Asia The argument was extended to include Central Asia Africa North and South America and other regions where Indian migrants were to be found The advocates of this Indocentric and Hindu revivalist approach with Hindu and Indian often taken to be synonymous were involved in a quintessentially parochial project despite its apparently international dimensions to justify an Indian expansionist imagination that viewed India's past as a colonizer and civilizer of other lands as a model for the restoration of that past greatness in the future Zabarskaite shows that the crucial ideologues and elements used for the formation of the construct of Greater India can be traced to the svade movement of the turn of the century and that Greater India moved easily between the domains of the scholarly and the popular as it sought to establish itself as a form of nationalist self assertion

**Development Under Stress** Saman Kelegama, 2006-11-14 Sri Lanka is credited with being the pioneer of economic liberalisation in South Asia Why then is economic progress painfully slow with the outcome being far below the country's potential This book examines the process of development and the implementation of reforms in Sri Lanka after the economic liberalisation of 1977 The author shows that while part of the story lies in the ongoing conflict in the North East which has lasted over 20 years there are a number of other factors which have impeded economic progress thereby designating it development under stress The book describes the key features of the Sri Lankan socio political and economic system that prevented the country from achieving higher levels of economic growth It explains why the country could not match the economic achievements of South Korea and Malaysia countries that had similar per capita income levels to that of Sri Lanka in the 1950s The author focuses on five core themes Economic development since Independence The debate on economic liberalisation Macroeconomic management Sectoral policy Employment and poverty

**The Right to Life in Japan** Noel Williams, 2002-09-11 The Right to Life in Japan is a study that brings new perspectives to bear on an extremely important topic for all those facing the moral dilemmas of such issues as abortion and the death penalty It also helps to fill a gap in life in social science and law studies of contemporary Japan Noel Williams approaches the right to life in Japan from a legal viewpoint via a broad range of issues such as abortion suicide capital punishment and death

**Guangdong and Chinese Diaspora** Yow Cheun Hoe, 2013-06-26 China's rapid economic growth has drawn attention to the Chinese diasporic communities and the multiple networks that link Chinese individuals and organizations throughout the world Ethnic Chinese have done very well economically and the role of the Chinese Diaspora in China's economic success has created a myth that their relations with China is natural and primordial and that regardless of their base outside China and generation of migration the Chinese Diaspora are inclined to participate enthusiastically in China's social and economic agendas This book seeks to dispel such a myth By focusing on Guangdong the largest ancestral and native homeland it argues that not all Chinese diasporic communities are the same in terms of mentality and orientation and that their connections to the ancestral homeland vary from one community to another Taking the two Cantonese speaking localities of Panyu and Xinyi Yow Cheun Hoe examines the hierarchy of power and politics of these two localities in terms of their diasporic kinsfolk in Singapore and Malaysia in comparison with their counterparts in North America and Hong Kong The book reveals that particularly in China's reform era since 1978 the arguably primordial sentiment and kinship are less than crucial in determining the content and magnitude of linkages between China and the overseas Chinese Rather it suggests that since 1978 business calculation and economic rationale are some of the key motivating factors in determining the destination and degree of diasporic engagement Examining various forms of Chinese diasporic engagement with China this book will appeal to students and scholars of Chinese Diaspora Chinese culture and society Southeast Asian culture and society and ethnicity
