Emilie Walezak, 2021-08-26 Providing close readings of well known British realist writers including Pat Barker A S Byatt Rose Tremain Sarah Hall Bernadine Evaristo and Zadie Smith this book uses new directions in material and posthuman feminism to examine how contemporary women writers explore the challenges we collectively face today Walezak redresses negative assumptions about realism's alleged conservatism and demonstrates the vitality and relevance of the realist genre in experimenting with the connections between individual and collective voices human and non human meditations local and global scales and author and reader Considering how contemporary realist writing is attuned to pressing issues including globalization climate change and interconnectivity this book provides innovative new ways of reading realism examines how these writers are looking to reinvent the genre and shows how realism helps reimagine our place in the world *British Women Writers and the Writing of History, 1670-1820* Devoney Looser, 2000 Chosen by Choice Magazine as an Outstanding Academic Title Until recently history writing has been understood as a male enclave from which women were restricted particularly prior to the nineteenth century The first book to look at British women writers and their contributions to historiography during the long eighteenth century *British Women Writers and the Writing of History 1670-1820* asks why rather than writing history that included their own sex some women of this period chose to write the same kind of history as men one that marginalized or excluded women altogether But as Devoney Looser demonstrates although British women's historically informed writings were not necessarily feminist or even female focused they were intimately involved in debates over and conversations about the genre of history Looser investigates the careers of Lucy Hutchinson Lady Mary Wortley Montagu Charlotte Lennox Catharine Macaulay Hester Lynch Piozzi and Jane Austen and shows how each of their contributions to historical discourse differed greatly as a result of political historical religious class and generic affiliations Adding their contributions to accounts of early modern writing refutes the assumption that historiography was an exclusive men's club and that fiction was the only prose genre open to women
